- Velocity[™] XS is our highest quality, extra-strong, premium monofilament designed and developed specifically for carp fishing.
- Extensively tried, tested and trusted by the Carp Spirit team, Velocity™ XS is a soft and supple line that sinks fast.
- The unique co-polymer formulation results in excellent abrasion resistance yet still retains a high breaking strain to diameter ratio.
- Available in both Lo-Viz Green, Lo-Viz Brown, Clear and Camo to suit a range of fishing conditions.
- Low memory.
- Large and flat aluminium box.

- Carp Spirit Celt-2X[™] mainline is incredibly smooth and supple.
- Featuring a unique lo-friction silicone based coating to aid casting distance; this also improves line lay on the reel.
- The proven formula has remained unchanged, resulting in controlled elasticity and stretch, excellent abrasion resistance and superb knot strength.
- This combination of features has made Celt-2X[™] a trusted choice and firm favourite amongst top carp anglers.
- Available in a range of colours to suit different situations, including a Hi-Viz Green particularly useful when night fishing.

5 TURN GRINNER KNOT

Recommended for joining monfilament mainline to swivels.

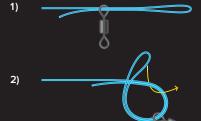

PALOMAR KNOT

Perfect for joining braided mainline (such as $4D^{\text{TM}}$ CAMO or SPOD & MARKER Braid) to swivels.

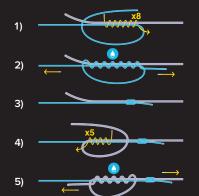

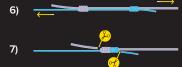

DOUBLE GRINNER KNOT

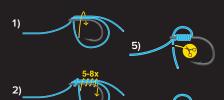

For joinging braided shockleaders such as BALLISTIC $^{\rm IM}$ to monofilament mainline. 8 turns are recommended for the braid section.

SNELL KNOT

Perfect for Chod rigs, 'D' rigs & and stiff rigs. Excellent for stiff hooklinks such as RIGAMORTIS™.

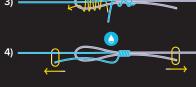

ALBRIGHT KNOT

For joining the monofilament mainline to larger diameter monofilament shockleaders such as VELOCITY $^{\text{TM}}$ IMPACT.

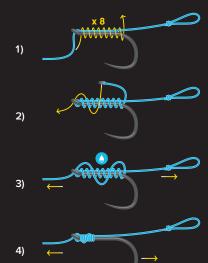

KNOTLESS KNOT

For making hair rigs.

CHOD LOOP KNOT

For small neat loops, excellent for stiff materials such as RIGAMORTIS™.

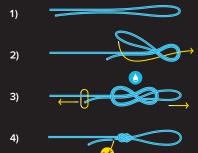

FIGURE OF 8 LOOP KNOT

For Q/C swivels.

SPOD & MARKER BRAID X4

- Carp Spirit Spod & Marker[™] x4 is an excellent value Hi-Viz braid, that is tough and durable to withstand the repetitive casting that spoding and feature finding requires.
- The zero stretch reduces the amount that a spod 'springs back' at the end of a cast when a spool line clip is used and feedback is greatly enhanced when using a feature finding lead to map out the lake bed.
- Hi-Viz Yellow colour.

LINE REMOVER

The Carp Spirit line remover is simple and easy to use. It's the perfect tool for quickly and effortlessly emptying high capacity big pit reel spools.

- Removes line at 4m per second.
- High speed 2,700 rpm motor.
- High grip stripping wheel design reduces grooving on wheel.
- High torque motor removes even 'bedded in' line.
- Aluminium oxide sharpening stone for sharpening
- Requires 4 x AA batteries (not included).
- Please dispose of used fishing line responsibly.

D-SPOOL STRIPPER

- Designed to be used with a cordless drill for effortless stripping of old line, the D-Spool will even remove 'bedded in' line or braid.
- The D-Spool also features a safety clutch in the event of the line becoming snagged whilst stripping.
- After all the line is stripped, simply untwist the cap to release the old line for disposal.

Code ACS 010 222 TRADE PACK - x5

Take off the spool's hood.

Fix the line between the spool and the hood and fix again the hood.

Fix the hexagonal rod in a drill.

Begin to turn the spool and guide the line with your hand.

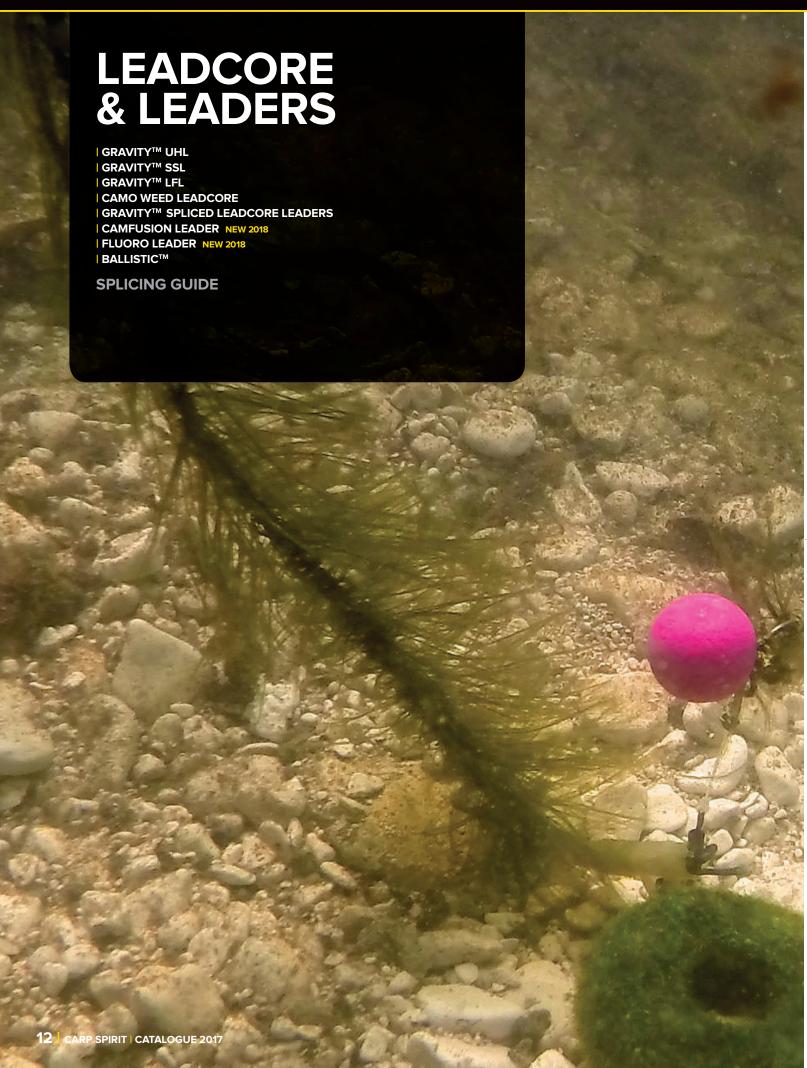

Once it is finished, take off the hood and take off the line from the spool.

Cut off the line into small pieces and throw it in the dustbin.

- Ultra Heavy Leadcore.
- Gravity[™] UHL is our heaviest leadcore leader.
- Perfect for fishing chod rigs, its super dense properties mean that there is no need for additional rig putty to ensure the leader is pinned down tight to the bottom.
- Easy to splice.
- Available in either Camo Green or Camo Brown.

| SPLICING GUIDE

Expose and cut off 2.5" of Lead core (not required for Gravity LFL).

Insert a splicing needle just above where the lead finishes.

Thread the needle 1" and push it back out through the braided

Thread on the swivel.

Hook the bottom of the tag end into the splicing needle.

Pull the splicing needle back though.

Smooth out and cut off any loose tag ends.

A few drops of superglue can be added if desired for extra security.

The finished result is a smooth and strong join.

Repeat the process in the other end but this time create a large loop using a multi-pull tool or similar.

Tie a figure of 8 loop in the mainline.

Now pass the loop in the Mainline through the loop in the leadcore.

Then pass the swivel end through the

Pull everything tight to create a quick change and neat join that beads and swivels can slide over in the event of a breakage.

*Please take care when using leadcore or LFL, keep fish safety in mind and do not create tether rigs.

LEAD CLIPS

Made from high quality injection moulded plastic to tight tolerances, the Carp Spirit range of lead clips allow leads to safely and effectivity used with the option to quick change and fine tune the lead release tension.

Available in full 'packs' which include tail rubbers, insert pins and push pin, or as 'clips only' which exclude the tail rubbers.

1. Thread Tail Rubber onto mainline followed by lead clip.

2. Tie on swivel and pull into clip body.

3. Insert pin into body to lock swivel in place.

4. TIP: if you want to ditch the lead 'instantly' on the take trim lead clip arm as shown.

LEAD CLIPS PACK

- Probably the most popular method for attaching a lead with safety in mind.
- The force required to 'ditch' the lead is pre-determined by how far the tail rubber is pushed onto the clip.
- Each clip features a hole to accept the small pin to lock the swivel securely into the body (which is essential for the clip to work properly) but can be removed by using the supplied tool.
- The Camfusion® and Weed Green colours are perfect for fishing over a multitude of lake bottoms.

932 000 361	Black	Extra Large	10
1	TRAD	E PACK - x10	

HOOK RIG STOPS

- Designed to create various anti-eject, sliding and 360 rigs by easily be sliding onto the hook shank.
- The rubber used is hard enough to stay put on the cast but will move easily when the hook point penetrates the mouth of a fish.
- Use in conjunction with our Pop-Up Pegs to create a very easy but awesome Pop-Up Rig.

Code	Size	Quantity
ACS 010 296	Small	10
ACS 010 297	Medium	10

RIG RING STOPS

- Rig Ring Stops are silicon beads that can be threaded onto the hook shank either side of a rig ring to secure it in place, perfect for making 'D' rigs.
- The special shape ensures the ring does not get trapped and is free to move along the hook shank.
- Available in Clear and Kaki colours.

Code	Colour	Quantity
ACS 010 056	Clear	10
ACS 010 177	Khaki	10

ASSORTED BAIT BANDS

- Bait Bands have a have a variety of uses and are useful to mount hard baits such as pellets and mixers directly onto the hook shank or for making 'D' rigs.
- Pack contains different sizes of Clear and Brown coloured bands.

Code	Colour	Quantity
ACS 010 101	Clear & Brown	45
	TRADE PACK - x10	

D-RIG POP UP PIN

- These stainless steel pins are perfect for making 'D' Rigs.
- Simply insert the pin into the boilie, the barb will ensure the bait stays on even during long casts and the ring can be secured on the hook shank with a rig stop either side.
- Recommended for hard or air dried baits.

Code	Quantity
ACS 010 153	20
	TRADE PACK – x10

POP-UP PEGS

- Quick and simple to use, simply screw on your popup instead of fiddling around with bait floss.
- The dish shape at the base to ensure water does not penetrate the pop up and prevent the bait from swelling up over the ring.
- The coarse thread ensures exceptional grip to ensure the bait does not come off during the cast.
- Tip: for cork ball or air dried baits we recommend that you drill a pilot hole first.

NEEDLES

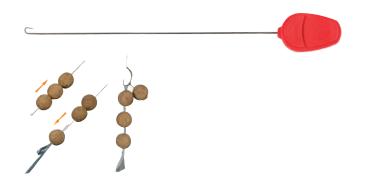

The Carp Spirit range of needles all feature high quality stainless steel needles and soft touch comfort grip handles. Each needle is colour coded to provide easy recognition.

STRINGER NEEDLE

 Designed for making PVA stringers, its pointed crook ensures the string or tape is held securely whilst feeding baits off the needle.

BRAID AND HARD BAIT NEEDLE

 Perfect for use with braided hairs, the open needle reduces hair damage and the point is perfect for hard baits such as tiger nuts or air dried boilies.

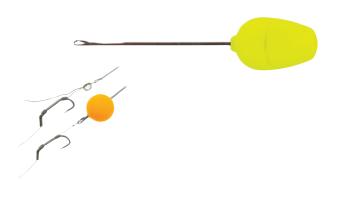

HEAVY LIP CLOSE NEEDLE

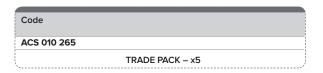

- This 'all round' needle is suitable for most particle and boilie baits.
- The hinged gate securely holds the hair whilst sliding the bait up into position and is also a great little tool for tying small loops in short hairs.

FINE LIP CLOSE NEEDLE

- Designed for use with small boilies or soft baits, the fine wire hook greatly reduces the chance of splitting the bait.
- Also ideal for splicing leadcore or threading on fine silicone tubing onto braid.

STICK & STRING NEEDLE

- Designed primarily for threading hooklinks through PVA mesh sticks, the hinged gate closes to ensure that the hook doesn't catch or damage the mesh whilst pulling the needle through.
- Also perfect for making PVA stringers.

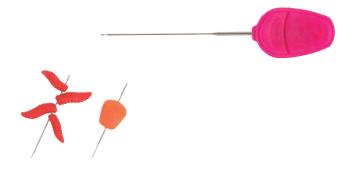

Code	
ACS 010 266	
	TRADE PACK – x5

MAGGOT & ULTRA FINE BAIT NEEDLE

• Ideal for use with fine line or braided hairs, the ultra-fine pointed and hardened stainless steel needle reduces the chances of splitting fragile baits such as maggots

ALL PURPOSE NEEDLE SET

- Covering every possible angling situation our range of baiting tools incorporate high quality stainless steel needles and feature ergonomically designed 'comfort grip' handles.
- Colour coded using high visibility handles to provide Stick & String Needle Set.

LOCK IN SNAP

- Lock In Snaps have a multitude of uses and are ideal for quick change of many terminal tackle parts and rigs.
- Each lock in snap has a dull, non-reflective, matt-black finish to prevent spooking the fish.
- Available in standard or mini size.

RINGS

OVAL RINGS

- Oval Rings are perfect for making combi style rigs and joining different materials together such as fluorocarbon and braid.
- Each ring has a dull, non-reflective, matt black finish to prevent spooking the fish.

ROUND RING

- Round Rings are perfect for creating 'D' rigs or 360 style rigs by threading onto the hook shank and securing in place with our hook rig stops.
- Each ring has a dull, non-reflective, matt black finish to prevent spooking the fish.
- Available in 2 sizes: 3.5mm and 3.7mm.

TEAR DROP RING

- Tear Drop Rings have a multitude of uses.
- Ideal for crate combi style rigs, joining different materials together or finishing off PVA stick rigs instead of a traditional loop.
- Each Tear Drop Ring has a dull, non-reflective, matt-black finish to prevent spooking the fish.

TRADE PACK – x12			

- Camo Weed leads offer the ultimate in end tackle camouflage.
- Each Camo Weed lead is put through a special process to impregnate the surface with thousands of tiny weed green bristles.
- Firstly, this helps by breaking up the outline shape of the lead by giving it a true 'texture' and removing any smooth surface. Secondly, the green bristles perfectly mimic the first stages of settling algae weed, creating the effect of an 'aged' lead.
- Camo Weed coating is tough and durable but also short enough to avoid hooklinks tangling in the bristles.
- Available in a full range of shapes, weights and sizes.

RAZOR point rig

CHOD RIG (LONG AND SHORT)

- Our range of ready to use chod set ups, provides you the ideal solution for not having to realize that set up by yourself.
- Including our hook with very pungent point Razor Point SRC (Stiff Rig/Chod), each set up is equipped with our unique transparent twist to quickly and easily fix your pop up without dental floss.
- Mounted with our Riga-Mortis[™] line which allows you to form the "D" for optimal presentation of your pop up and increase your chances of catch.
- Originally designed such as for the conventional chod in a Lead Core, that set up can also be used to create a rigid set up by simply adding a junction Riga-Mortis™25lb.
- It is also perfectly adapted to a PVA bag by simply tying the bag with a braid section Re-Action™ and create a very attractive set up with a perfect presentation once the bag is dissolved.
- To face all kind of situations we have created these set ups in 2 sizes, a short one of 5.75cm and a long one of 8.25cm, both are equipped with our swivel flexi mat 11 size.

360 RIG

- The 360 Rig is regarded as one of the ultimate big fish pop-up rigs.
- The name is derived from the hooks ability to spin a full 360 degrees within the swivel loop, increasing the chances of the hook point getting a hold from whatever angle the fish takes the bait from.
- A Razor Point MCS (Medium Curve Shank) hook is used as its slightly down turned eye gives perfect presentation.
- Expertly hand tied, using Carp Spirit Camo Core hooklink and Carp Spirit components throughout.
- A quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

HINGED STIFF RIG

- The Hinged Stiff Rig is a popular choice due to its excellent hooking efficiency and anti-tangle properties.
- Expertly hand tied, using Carp Spirit Riga-Mortis™ hooklink, the short curved stiff section further aids hooking efficiency.
- A Razor Point SRC (Stiff Rig Chod) hook is used due to its oversized and slightly in-turned eye to give perfect presentation.
- Expertly hand tied, using Carp Spirit components throughout.
- A quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

SIT UP & BEG RIG

- The Sit Up & Beg Rig is constructed using Camo Core hooklink and a Razor Point LS (Long Shank) hook.
- The preformed 'Kicker' safely creates a 'bent hook' effect making it very difficult to eject.
- A split shot and putty sits directly under the hook, making the point heavy, for perfect presentation. Additional pop putty can be added if required when fishing large pop ups.
- Expertly hand tied, using Carp Spirit components throughout.
- A quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

		TRADE PAG			

BLOW BACK RIG

- The Blow Back Rig is constructed using Camo Core hooklink and a Razor Point LS (Long Shank) Hook.
- The long shank pattern is perfect for the micro ring to slide along when the fish tries to eject the bait leaving the hook point clear and increasing the chances of finding a hold.
- A Carp Spirit Kicker line aligner is also added to the rig to aid rapid turning of the hook point.
- This versatile rig is perfect for use with both bottom baits and pop-ups.
- Expertly hand tied, using Carp Spirit components throughout, a quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

FLUOROCARBON 'D' RIG

- Fluorocarbon 'D' Rig is super inconspicuous.
- With Fluorocarbon having similar light refractive properties to water and no tubing present, the rig almost disappears when immersed in water.
- A Razor Point SCS (Short Curve Shank) Hook is used for perfect presentation and the Fluorocarbon hooklink is passed through the front of the eye for rapid turning of the hook point.
- The Fluorocarbon 'D' rig is perfect for bottom baits, slow sinkers or snowman style setups.
- Expertly tied using Carp Spirit components throughout, a quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

RAZOR point rig

KD RIG

- The KD Rig is tied in such a way so that the eye of the hook becomes light and the hook point heavy.
- Best fished with slow sinking critically balanced baits or a pop-up with a small split shot directly under the bait to act as a counter balance.
- The hook retains an incredible amount of free movement making this a very effective rig that is renowned for good hook holds and has accounted for numerous big fish.
- Expertly tied with using Carp Spirit Camo-Core hooklink material and a Razor Point SCS (Short Curve Shank) for perfect presentation.
- A quick change size 8 swivel is used with a Mini Anti-tangle Sleeve for added neatness.

CARP SPIRIT RIGS

We have developed this range of ready-to-go rigs for the anglers who wish to use technical rigs without spending too much time tying themselves. For these rigs, we have used the best components. All of these rigs have been tested, approved and used by our TEAM. These rigs are delivered in blister packs of 2 with a complete explanation of the rig at the back.

TECHNICAL RIG

- Designed in conjunction Pascal Kowalik after several years of underwater observation; the Technical Rig is made using Combi-StiffTM Hooklink making it highly tangle resistant.
- A small section below the hook has the coating stripped back to allow full movement of the bait and hook whatever angle the fish takes the bait from.
- The Tungsten Putty can be adjusted to counter balance pop-ups and also makes the hook point heavy, increasing the chances of the hook getting a hold.

Code	Length (cm)	Breaking Strain (lb)	Hook Size	Swivel Size	Quantity

COMBI-SOFT™ RIG

- Expertly hand tied, the Combi-Soft[™] Rig features a stripped back section directly behind the hook to allow for full movement of the bait and hook whatever angle the fish takes the bait from.
- The micro ring on the hook shank is free to slide, so when the fish tries to eject the bait, this leaves the hook point clear and increases the chance of a hook up.
- The angled shrink tube over the hook eye also aids rapid turning of the hook point.
- A highly versatile rig, perfect for use with bottom baits, pop-ups and snowman presentations.

RE-ACTION™ RIG

- A simple, classic but highly effective rig tied using our fast sinking Re-action Braid.
- The soft and supple make up of Re-action Braid make this the perfect choice rig for when using PVA bags.
- It can be fished with either bottom baits,pop-ups or snowman presentations by simply adding Tungsten Putty or a split shot onto the braid to counter balance the bait.

Code	Length (cm)	Breaking Strain (lb)	Hook Size	Swivel Size	Quantity

OPTI-MEX™ RIG

- Opti-Mex rigs are pre-tied using the highest quality 100% Fluorocarbon Opti-Mex hooklink.
- The light refractive properties of fluorocarbon are very similar to that of water making them almost invisible.
- Excellent anti-tangle properties, they feature a slightly in-turned hook point design, ideal for fishing over gravel and particularly well suited to bottom baits or snowman style set ups.

RIG WINDER

- Ideal for storing pre tied rigs.
- The soft rubber moulded grips at each end will hold hooklinks securely in place without damage.
- Will also fit inside our Carp Spirit tackle boxes.

RAZOR POINT HOOKS

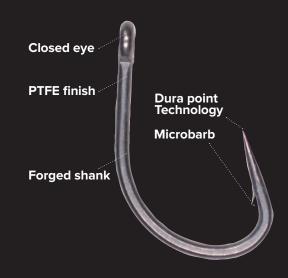

The Carp Spirit Razor point range of hooks has been designed from scratch.

Unlike many carp fishing hooks that are simply repackaged examples from hook manufacturers, these carp hooks have been designed and created using experience and vast knowledge of our team.

The comprehensive range ensures there's a perfect hook pattern for the optimum rig and situation you are facing.

Refined to minute details to ensure perfect performance, we believe our range of Razor point carp hooks are the most advanced on the market – something we are extremely proud of.

- Dura-Point Technology Produces one of the sharpest and longest points in the carp hook world, even after multiple uses.
- Japanese Carbon Steel The highest quality steel available for producing carp hooks, providing strength, durability and reliability.
- Non-Glare PTFE Finish Special coating ensures each hook blends in with the venue bottom therefore minimising spooking of fish.
- Closed Eye Careful attention to detail means each hook eye is perfectly created so no damage will occur to your hooklink.
- Micro Barb Tiny barbs ensure minimum damage upon entry coupled with an extraordinary hook hold during the fight.

LONG SHANK - LS

- A very popular pattern, the Long Shank features a straight point and is another very versatile pattern as it can be used for many different presentations however due to the length of the shank.
- This hook is often combined with some kind of anti-eject/sliding ring set up.

BOILIE BEAK POINT - BBP

- Featuring an in-turned point, this pattern has been based on a hook that Terry Hearn used to adapt by modifying another hook on the market.
- With a wide variety of applications, this hook can be used for both bottom bait or pop-up presentations and is particularly useful when fishing over gravel as the in-turned point is far less likely to damage when you retrieve.

MEDIUM CURVE SHANK - MCS

- This is a brand new pattern which has been created by combining short and long shank curved hooks resulting in a very effective hook.
- Featuring a slightly downturned eye, this hook turns the instant you tighten the hooklink ensuring that it hooks up straight away.
- Suitable for a wide variety of rigs, it will also prove very popular for use with the 360° rig.

ALS MARKER

- The Auto Light Static Marker (A.L.S.) features some clever technology.
- Integrated water sensors and Light Dependant Resistors (LDR's) work together so that the Hi-Viz red LEDs will automatically turn on only when the marker is placed in water and when it's dark.
- Perfect for marking key positions from the boat, red LEDs are used to avoid spooking the fish as it's first colour of the light spectrum to disappear underwater.
- Made from a high buoyancy and Hi-Viz material, simply clip a large weight onto the snap link and drop over the edge of the boat to mark a spot.
- A popular method is to fish your baited rig in between a pair of well-spaced markers to reduce the chance of a hooked fish crossing the line.
- Hi-Viz plastic for day time identification
- Automatically sets depth simply place over the edge of the boast and the 'H' shape will rotate as the lead falls to the bottom.
- Anti-Spook red LEDs automatically turn on only when the marker is in water and during the hours of darkness.
- Will not turn on during transportation even when inside a bag.
- Internal master off switch.
- Accepts 2x AA Batteries.
- Up to 100 hours run time.
- Available in 2 colours Hi-Viz Orange and Hi-Viz Yellow.

Code	Colour
ACS 010 385	Orange

DESIGNED AND DEVELOPED IN THE UK

- The Carp Spirit INOX 300 stainless steel range is the result of over 2 year's extensive design, development
- Designed completely from the ground up using CAD (Computer Aided Design) the extensive range covers a multitude of rod support set ups and is machined entirely from ultra-high grade 300 Series Stainless Steel.
- Made to last and provide years of trouble free service, innovative designs and features such as the quick release (QR) 'Pill' system have been introduced, along with some totally unique products such as the 2 in 1 deck stand and 'safe storage' bank stick stabilisers.
- Quality, Innovation and Design The new Carp Spirit INOX 300 Series.

BANK STICKS

- INOX 300 bank sticks are machined entirely from ultrahigh grade 300 Series Stainless Steel and will provide years of trouble free use.
- A 2 in 1 Key Tool can also be purchased separately to further aid with the tightening or the release of thumb screws, particularly useful on wet days or frosty mornings.
- No Loss Tri-lobe thumb screw design.
- Hollow tube inserts for reduced weight.
- Pointed inserts double up as stalking sticks.
- 3/8" BSF Thread.

Code	Length (in)	Length (cm)	Weight (g)

	TRADE PACE	< − x1	

QR BORA POINT BANK STICKS

- INOX 300 QR Bora point banksticks are machined entirely from ultra-high grade 300 Series Stainless Steel and will provide years of trouble free use.
- These banksticks feature the quick release 'Pill' system which allows alarms to be quickly removed or butt rests to be changed in seconds.
- Because the Pill is totally free to rotate before being secured, alignment of alarms is hassle free and only takes a matter of seconds.
- The 'Bora Point' design is perfect for drilling the banksticks into hard ground.
- A 2 in 1 key tool can also be purchased separately to further aid with the tightening or the release of thumb screws (and the QR' Pill' system), particularly useful on wet days or frosty mornings.
- No loss Tri-lobe thumb screw design.
- Hollow tube inserts for reduced weight.
- Pointed inserts double up as stalking sticks.
- 3/8" BSF Thread.

STAINLESS STEEL ADJUSTABLE HEAD

- Easily adjustable support thanks to the two systems of lateral and lower screws.
- It will perfectly support your rod, either in 10, 12 or 13 feet, thanks to a precise adjustment of the spacing of the supporting lamellae.
- The lamellae are even topped with a "soft touch" grip in order to avoid any slipping of the rod and to protect the butt section.
- The whole support is made with corrosion-resistant materials for a longer durability.

ALARM –

Since its launch, the HD5 has become a firm favourite with carp anglers. Incorporating some of the latest technology available in electronic bite indication, the HD5 really does tick all the boxes. Reliability, long battery life and a quality build, nothing has been overlooked. Yet despite its relatively compact size, the HD5 is feature packed, such as the ability to mute the alarm or change the colour of LED's all at the turn of a dial. Available in sets or as individual alarms, the digital rolling code system allows extra alarms to be purchased separately and programmed to an existing receiver.

- Ultra bright LEDs.
- Adjustable multicolor LEDs in 6 different cool colours of your choice (Red, Green, UV-Blue, Yellow, Purple and White).
- Extremely compact design in ergonomically combined materials.
- Remote range self testing whereby you can make 100% sure the alarms and receiver are in remote range.
- Micro adjustable sensitivity.
- Adjustable volume and tone.
- Night light function using a special long life diode that requires very little power.
- 20 seconds afterglow period on both the alarm and the receiver.
- Power out socket for illuminated hangers or bouncers.
- Battery low warning on both the indicators and the receiver.

- Memory function on both the indicators and the receiver that memorizes all setting when switched off.
- Manual on/off switch.
- Range 100-150m in a non-disturbed area.
- Rolling code function that makes sure that your bite alarm does not interfere with other user.
- Tone off vibration function in receiver.
- Connection ring on receiver to secure it.
- All weather construction.
- Body made our of high impact ABS material and the special reinforced screw part is manufactured out of stainless steel.
- Non-slop rod support for precise indication.
- Extra-long thread to accommodate bobbins and snag ears.
- Both the bite alarm and the receiver operates on a 9V battery (not supplied).

HD5 BITE ALARMS AND HDR5 RECEIVER

- Set features include:
 - x4 / x3 or x2 HD5 bite alarms, with protection covers.

Dip Switch Coding System:

Step 1: The first 4 dips is the purpose of coding with the receiver.

Step 2: Keep both 4 dip switches of alarm and receiver in the same position.

Step 3: The last 4 dips are to color switch to change the color of LED colors.

LED colors:

All dip down = Red colour

5th dip up, 6, 7 and 8th dip down = Green colour

6th dip up, 5, 7 and 8th dip down = Yellow colour

7th dip up, 5, 6 and 8th dip down = Blue colour

ALARM - BLAX

The new BLAX Bite Wireless Alarms and Receiver by Carp Spirit offer outstanding features, value and performance. With fully adjustable Tone, Volume, Sensitivity and a Night Light Facility, the BLAX Alarms have features normally reserved for high end alarms, additionally an LED colour change button allows the anglers to choose between 7 different LED colours all at press of a single button. Sleek and compact design, the body is made from tough and durable ABS body to ensure they will provide years of trouble free and reliable service.

BLAX ALARM

- Adjustable Volume.
- Adjustable Tone.
- Adjustable Sensitivity.
- LED colour change button 7 colours.
- Integrated nightlight LED.
- Ultra-bright 15 Sec. latching and run LED.
- Compact and sleek design.
- All weather design.
- Tough ABS body.
- Simple and easy coding system.
- Low battery alert via receiver.
- Require 1x 9V Battery.

BLAX RECEIVER

- Adjustable volume.
- Adjustable Tone.
- 4x Led Channels.
- Low battery alert.
- Max range 100m 120m in clear areas.
- Requires 3x AAA Batteries or 9V Battery.
- Belt clip.

- After 2 years extensive testing and development Carp Spirit are pleased intro introduce our highest quality bivvy and shelter fabric to date: ARMA-SKIN™.
- Tough, strong and durable, ARMA-SKIN[™] is made to last and also perform.
- With a hydrostatic head of 10,000m ARM-SKIN[™] will keep you dry in the wettest of weather and its breathability rating of 5,000g m²/24hrs will dramatically reduce condensation build up on the inside surface, even when used without the addition of a winter skin.
- Unlike traditional nylon fabric, ARMA-SKIN[™] has a small amount of stretch which will help keep panel tension in varying temperature conditions; the smooth surface also helps reduce set up and dismantling times due to the fabric not sticking to itself which can often happen with traditional PVC coated fabrics.
- All shelters made with ARMA-SKIN[™] feature the ARMA-SKIN rubber badge logo.

ARMA SKIN™ DOLMEN

With its huge footprint, the ARMA-SKIN $^{\text{TM}}$ Dolmen is the perfect bivvy for long endurosessions.

It can accommodate 2 to 3 Bedchairs plus equipment with ease and the generous height means you can even stand up inside.

Supplied with a half Winter Skin as standard, a full Winter Skin is also available separately for added comfort in the most extreme conditions.

- ARMA-SKIN[™] Fabric.
- Hydrostatic Head 10,000mm².
- Breathable.
- Half winterskin incuded.
- Heavy Duty Groundsheet.

- Transom with motor support plate.
- Inflation valves two positions with anti return.
- Bag for flooring and boat.
- Foot pump large volume and repair kit included.

The opinion of P. Kowalik:

"Locating and deposited by boat are techniques that I use very often in my fishing sessions. Today I have the opportunity to use a single boat, reliable and secure namely Black Boat $^{\text{TM}}$. It allows me to carry equipment for several days with a large space available inside. In big lake its extreme stability due to its aluminum floor and inflatable keel make it a perfectally. And what about his jam cleat that stabilizes the boat with an anchor with one hand. In short, a boat that brings me all satisfaction."

Cleat at the front to stabilize the boat even with one hand.

3 stainless steel hook at the front.

Black aluminum floor for stability.

Removable and adjustable benches.

Transom with motor support plate.

Inflation valves with anti return.

Ropes around the edge.
