A very warm welcome to the 2018 Dynamite export catalogue and a big thank you to everyone who has supported Dynamite throughout the last 12 months. 2017 was an exciting year but ultimately was all about the fantastic ComplexX-T. If you have not tried this bait you really should - It's proven itself to be a fantastic all year round boilie that really gets the fish on the feed and also has the knack of picking out the bigger ones. The Mulberry Plum boilie was also another highlight that got anglers talking and reels screaming across Europe!

2018 will soon be upon us and we have an equally impressive line-up of new innovative products. The new boilie for the season is the impressive Hot Fish & GLM, developed in conjunction with big fish angler and former world record holder Emir Caro. This boilie simply has years of experience and testing under its belt - being one of his own favourite pre-Dynamite recipes. We just had to bring it up to date and share just one of Emir's secrets of his success!

There are also a range of premium quality oils with innovative injector nozzles – perfect for pva bag work or adding to spod and particle mixes. A range of tuff pastes to complement our premium hero boilie range – ideal for adding extra attraction around your lead or if you just need a bigger hook-bait. We are also introducing a Complex-T feed pellet with all the attractants of the boilie in 4, 6 & 8mm plus Tiger Nut Pellets in the same sizes for something a bit different. For the particle anglers check out our new range of natural cooked in the jar premium pulses and particles.

On the match/feeder side be sure not to miss the new Swim Stim soft durable hook pellets in 4mm and 6mm. They are super attractive and are really quick and easy to use so we are sure they will put more fish in your net!

All new products in the catalogue are ready to order now.

Once again the WCC at Lac De Madine proved to be an epic match with the lead changing hands several times throughout the week. The match was finally decided on the last night when UK angling legends Tim Paisley and Lee Jackson landed 2 cracking fish to take the top spot. Fantastic result and well done. We look forward to seeing them at our factory to develop a special boilie. Dynamite were happy taking 2nd place and 3rd place in the WCC team event – a great achievement and very happy in the fact that every angler on the lake using Dynamite bait caught fish – 59 pairs didn't manage this!

At the World Carp Masters it was an even better result with the Dutch Shimano pair of Frank Wijnands and Jan Jaap Hiemstra smasing the competition at the first time of asking using our Frenzied Tigers and Monster Tiger Nut Red-Amo boilies!

Enjoy the catalogue and the new season. Tight lines..... **DYNAMITE**
