**RIGGA CVA HOOKS**

The CVR pattern is the ultimate aggressive curved shank hook. The mechanics of this pattern ensure that it twists the instant that the hook bait is mouthed by a browsing carp.

**PAGE 9**

**RIGGA BCR HOOKS**

BCR Rigga hooks are the perfect beaked point Chod/Stiff/Multi rig hook Pattern. They offer the best combination of features to ensure that more pick ups are converted into fish in the net.

**PAGE 9**

**HAND SHARPENED MUGGAS**

The legendary Mugga hook, now with a perfect honed point.

**PAGE 10**

**HAND SHARPENED CONTI-MUGGAS**

The extra strong Continental Mugga hooks with an amazing hand crafted point.

**PAGE 10**

**HAND SHARPENED CHOD HOOKS**

The ultimate Hinged-Stiff and Chod Rig hook, now hand sharpened to perfection.

**PAGE 10**

**SIZE 5 COVERT DARK INCIZOR**

A barbed size 5 version of our extremely popular and versatile hook pattern.

**PAGE 11**

**SILICONE SWIVEL SLEEVES**

A lower diameter c-thru silicone sleeve that's perfect for use with all Kwik-Lok and C-Lok swivels.

**PAGE 16**

**XT KWIK LOK SWIVELS**

These adjusted size 12 XT Kwik Lok Swivels are ideal for attaching hooks onto German and Ronnie rigs.

**PAGE 18**

**LONG FLEXI BAIT SCREWS**

Flexi Bait Screws are the fastest and most convenient way to securely mount hook baits. Each screw is mounted on a Rig Ring that increases the free movement of hook baits.

**PAGE 19**

**FINE BAIT NEEDLE**

A finer gauge needle, specifically for small, delicate baits.

**PAGE 22**

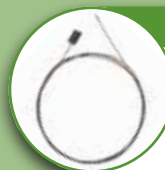

**RIG BLADES**

These compact scissors are ideal for intricate rig work and will cleanly cut skinned/coated braids, copolymer and fluorocarbon monofilaments and all braided Dyneema lines.

**PAGE 23**

**RIGID RIG TUBES**

A vital rig component often used by specialist and predator anglers as a means of reducing tangles and ensuring good bait presentation.

**PAGE 23**

**LO-BORE TUBE THREADERS**

Low diameter, twisted wire tube threaders, that are designed to go down narrower bore anti tangle tubing and tungsten tubing.

**PAGE 23**

**TUNGSTEN FLYING BACK LEADS**

Super dense removable non toxic tungsten-polymer flying back leads.

**PAGE 27**

**DUMPY BACK LEADS**

Low profile coated back leads supplied with snag safe 'Weed Clips' fitted.

**PAGE 27**

**BOTTLE BOMB LEADS**

The Bottle Bomb offers distinct advantages in terms of bolt rig efficiency as the shape and flat faces create maximum impact.

**PAGE 30**

**INLINE BOTTLE BOMB LEADS**

An inline version of the legendary Bottle Bomb, these are useful when fishing on hard spots.

**PAGE 30**

**FLAT PEAR INLINE LEADS**

The inline flat pear is accepted as offering the greatest possible resistance for its weight thanks to its massive surface area.

**PAGE 30**

**FLAT PEAR SWIVEL LEADS**

The high surface area of the Flat Pear swivel ensures excellent rig mechanics (just like the inline version) in a pendant style format.

**PAGE 30**

**DISTANCE PEAR LEADS**

An elongated distance pear shape with a rounded nose that casts superbly and offers a perfect balance between aerodynamics and efficient bolt/rig mechanics.

**PAGE 30**

## DISTANCE SWIVEL LEADS

A tournament/Zipp shape lead for extreme range fishing.

PAGE 30

## GRAPPLE LEADS

This super stable, condensed shape gives the best possible grip for its weight.

PAGE 30

## SURE PRO PURPLE

Sure Pro Purple is a high performance multi discipline main line that is perfectly suited for almost any carp, coarse and sea angling situation.

PAGE 33

## SURE SHOCK BULK SPOOLS

Bulk 1kg spools of our copolymer shock leader with excellent tensile and knot strength and high abrasion resistance. Available in Neon Orange.

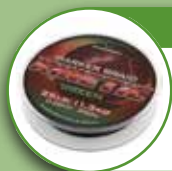

PAGE 33

## KINETIC SPOD BRAID

Spod braid is designed for use with powerful Spod Rods and fully loaded large spods (and Spombs). It's strong enough to use without an additional leader.

PAGE 34

## KINETIC MARKER BRAID

This material has specially been developed for use on marker rods, but is also a great option where a thinner diameter braid will assist baiting at long range.

PAGE 34

## SPECI-STRAIGHT POINT HOOKS

Target Speci-Straight Point Hooks are a great pattern that's perfect for a wide range of angling methods, with particular emphasis on ledgering, bolt and feeder techniques.

PAGE 41

## SPECI-BEAKED POINT HOOKS

Target Speci-Beaked Point Hooks are a great all round pattern. The design offers superb strength and exacting performance.

PAGE 41

## MODULAR TACKLE SYSTEM

The flexible design of this system enables the inter-connecting zipped and clipped pouches to be used as a set or separated.

PAGE 43

## ASYLUM MAT

The mat's unique design ensures ultimate fish care, whilst allowing amazingly compact storage when collapsed.

PAGE 47

## CAMO MESHES

These Camo replacement landing net meshes are manufactured from super soft fish friendly dual mesh.

PAGE 48

## CARP DUVET COMPACT

A new 'standard' bedchair sized version of our hugely popular Carp Duvet Plus, that is perfect for year round use.

PAGE 49

## CAMO CRASH BAG

An ultra lightweight 'DPM' camo style '3 season' sleeping bag, for use in warm weather or in conjunction with a Thermal Bedchair Cover.

PAGE 49

## CARP DUVET PLUS

A new model of our extra large, multi layered DPM sleeping bag that is perfect for year round use.

PAGE 49

## CAMO THERMAL BEDCHAIR COVER

Super-sized bedchair cover, finished in a dark "DPM" camo pattern.

PAGE 49

## BAIT TUBS

Popular, multipurpose bait tubs, supplied with perforated/branded lids. Perfect for use with most baits, including maggots.

PAGE 52

## GLO PRO 2ND GENERATION

Improved formula Glo Pro 2G is a luminous Hi-viz line marker that can be applied to your line, marking distances so you can fish accurately during the day and the night.

PAGE 54

## TLB PLUS

The introduction of the new TLB+ brings the awesome TLB buzzer right up to date, by making it fully compatible with the V2 and Deluxe ATTx Receivers.

PAGE 67

## DELUXE HATS

Deluxe Fleece Beanie: 100% soft-touch acrylic, 52% Acrylic 48% Polyester, double layer knit, Thinsulate™ lining.  
Deluxe Knitted Beanie: 100% soft-touch acrylic, vintage styling, double layer knit.

PAGE 69

## LO-LITE SUNGLASSES

These new sunglasses have been developed specifically for use in low light conditions. The lenses have a minimal brown tint, with maximum balanced polarisation to help visibility in low light / cloudy conditions.

PAGE 70

### ATTx CRYSTAL DELUXE RECEIVER

This Crystal version of the ATTx Deluxe Receiver matches the great looks of the Crystal ATTs heads, whilst retaining all the same benefits and functions of the ATTx Deluxe Receiver.

- 10 volume selections with new SSI (tm) "Silent Step Incrementing".
- Over 20 tones per channel.
- Double programming per channel means up to 10 heads on one receiver.
- Stub antenna - Improved range/penetration of foliage, etc.
- 2 AA Batteries for even longer battery life.
- Extreme water resistance.

<b>Deluxe Receiver</b>	1	V2ATTXDR	6944	125.00

To identify if a Deluxe Receiver has the latest firmware installed (all current/future stock has this already): Hold + and - buttons down and switch on the unit. If the Deluxe Receiver reacts a few seconds later by the LEDs flashing from the outside towards the centre and making an audible output it has the latest firmware. If it has got the latest firmware this action will also "factory reset" the Deluxe Receivers meaning a loss of any programmed settings.

\*Customers requiring the upgrade should send their Deluxe Receivers to Gardner (£25 + £5 return P&P).

### DELUXE RECEIVER LED LENSES

A range of LED lenses for the Deluxe ATTx Receivers. These can be inserted by the user to change the colour of the light array on the receiver, matching it to an alarm set-up or any combination that is required.

THE RIGGA HOOK PROJECT WAS INITIATED IN 2013 WITH THE ULTIMATE AIM TO BRING TWO BRAND NEW HOOK PATTERNS TO THE HIGHLY DISCERNING 'CARP' HOOK MARKET.

THE PROJECT BROUGHT TOGETHER DECADES OF IN-HOUSE HOOK DESIGN EXPERIENCE - TO ARRIVE AT TWO NEW PATTERNS THAT WE FELT WOULD COMPLEMENT THE HUGELY POPULAR COVERT DARK HOOK RANGE, WITHOUT NECESSARILY SUPERSEDING EXISTING LEGENDARY PATTERNS.

AFTER LONG TERM RIGOROUS TESTING THE RADICAL / AGGRESSIVE CURVED SHANK 'CVR' PATTERN WAS APPROVED AFTER PHENOMENAL RESULTS ON A NUMBER OF WATERS, AS WAS THE EXTREMELY STRONG, SUPER SHARP AND RELIABLE BEAKED POINT 'BCR' CHOD HOOK PATTERN.

THE ELONGATED POINTS, MICRO BARBS AND EXTRA STRONG DOUBLE TEMPERED FORGED HIGH CARBON STEEL USED ACROSS THE HOOK RANGE MEANS THAT THEY ARE SUITABLE FOR ALL TYPES OF CARP ANGLING BOTH IN THE UK AND LARGE CONTINENTAL WATERS WHATEVER APPROACH THE ANGLER IS USING.

### RIGGA CVR HOOKS

The CVR pattern is the ultimate aggressive curved shank hook. The mechanics of this pattern ensure that it twists the instant that the hook bait is mouthed by a browsing carp. Naturally, the hook holds with this pattern are nothing short of amazing!

- Super sharp long tapered chemically etched point ensures these hooks take hold immediately.
- The angle of draw between the in-turned eye and straight point pulls the hook cleanly home.
- A medium curved shank, wide gape and non reverse bend. Awesome with the Ronnie Rig.
- 20° in-turned eye ensures optimum performance with soft hook links.
- CVR Rigga hooks are available in either barbless or micro barbed format.
- Dull PTFE Coating protects the metal from corrosion, aids penetration, reduces glare and aids camouflage.
- Manufactured in Japan from the finest double tempered, forged high carbon steel.

### RIGGA BCR HOOKS

BCR Rigga hooks are the perfect beaked point Chod/Stiff/Multi rig hook pattern. They offer the best combination of features to ensure that more pick ups are converted into fish in the net.

- Super sharp chemically etched sweeping beaked point ensures early hooking and the best penetration.
- The angle of draw between the eye and beaked point pulls the hook cleanly home.
- A wide gape and non reverse bend gives rock solid hook holds.
- 20° out-turned eye ensures optimum performance with any monofilaments.
- BCR Rigga hooks are available in either barbless or micro barbed format.
- Dull PTFE Coating protects the metal from corrosion, aids penetration, reduces glare and aids camouflage.
- Manufactured in Japan from the finest double tempered, forged high carbon steel.

NEW FOR 2018, GARDNER TACKLE IS VERY EXCITED TO INTRODUCE A SMALL SELECTION OF EXQUISITELY HAND SHARPENED HOOKS THAT HAVE EACH BEEN INDIVIDUALLY HONED BY THE LEADING EXPONENT AND SHARPENING EXPERT JASON HAYWARD (SPECIALIST SHARPENED HOOKS).

AS YOU WOULD EXPECT, BEING HONED LIKE THIS MEANS THAT THE POINTS ON THESE HOOKS ARE INCOMPARABLE TO EVEN THE VERY SHARPEST MASS PRODUCED PATTERNS - LIKE THOSE IN THE COVERT DARK RANGE. IF AN ANGLER IS DEDICATING TIME, MONEY AND EFFORT INTO CHASING THE ULTIMATE CARP THEN IT MAKES SENSE THAT THEY USE THE VERY SHARPEST HOOKS MONEY CAN BUY. YOU ONLY HAVE TO TOUCH THE POINT TO REALISE THEY ARE SOMETHING VERY SPECIAL AND UNIQUE.

THE HONED POINTS ARE SHEATHED WITH A RUBBER CAP TO PROTECT THEM WHILST THEY ARE IN THE PACKAGING TO ENSURE THEY ARRIVE AT THE CUSTOMER IN A1 CONDITION. THIS MEANS THAT THE EFFICIENCY OF ANY RIG WILL BE ELEVATED AS THE AMAZING POINT WITH TAKE HOLD AND THEN PENETRATE FASTER. IF YOUR RIG WORKED WELL BEFORE, THEN INCORPORATING A SPECIALIST SHARPENED GARDNER HOOK WILL INEVITABLY MAKE IT WORK EVEN BETTER!

SINCE THEIR INTRODUCTION IN 2016, THE COVERT DARK HOOK RANGE HAS BEEN WIDELY ACCLAIMED BY RETAILERS AND CUSTOMERS. THE SHARPER POINTS HAVE BEEN WELCOMED AS A SIGNIFICANT IMPROVEMENT - AND THIS HAS TRANSLATED DIRECTLY INTO HIGHER SALES ACROSS ALL THE COVERT DARK HOOK PATTERNS.

COVERT DARK HOOKS FEATURE MICRO BARBS ON ALL PATTERNS SO THAT THEY CAN NOW BE USED AT A WIDER RANGE OF COMMERCIAL FISHERIES. THIS ADJUSTMENT ALSO HAS THE BENEFIT OF MAINTAINING THE HOOKS STRENGTH AS THE SMALLER BARB REQUIRES LESS METAL BEING USED FOR THE BARB. THE HOOKS NOW HAVE A SINGLE LAYER ELECTRO PLATED MATT FINISH THAT ALSO ENSURES THAT THE POINT STAYS IN PERFECT CONDITION. CUSTOMERS KNOW HOW IMPORTANT HAVING THE SHARPEST POINT IS WHEN FISHING SO THESE HOOKS ARE SHARPER THAN EVER BEFORE.

### COVERT DARK MUGGA

The unique Mugga pattern offers unrivalled hooking potential and is our best selling pattern. A firm favourite with many anglers as they give solid hook holds and legendary performance.

- Features an aggressively in-turned eye, non-reversed bend, sweeping shank and super sharp point. A fantastic hook pattern that has a great reputation.
- Mugga hooks available in Sizes 2, 4, 6, 8, 10 and 12 in Barbed or Barbless.

### POP-UP HOOK ALIGNER

Pop-Up Hook Aligners offer an easy solution to tying tricky D-rigs and create better hook holds by forcing the hook to twist aggressively embedding the hook further into the bottom lip.

- The unique preformed 'D' enables anglers to create super effective 'D' rigs in combination with almost any hooklink.
- Covert Pop-Up Hook Aligners are quick and easy to use - no need to steam, shrink or shape before use.
- Small and super neat, they create the optimum angle to make the hook twist without reducing the effective gape of the hook.
- Available in 3 sizes: 'XL' for large hooks, 'large' for hook size 6 and bigger and 'small' for hooks size 6 and smaller.

### SUSPENDER & SUSPENDER XL

Totally unique, our hugely successful Suspender floater-controllers continue to be very popular.

- Both controllers allow the hooklink to be kept above the surface, out of sight of wary fish.
- Counter weight at the base means the original Suspender is fished 'half cocked' giving unmissable bite indication and highly explosive takes! (a very exciting way of fishing).
- The Suspender XL is designed to be used as an anchored floater set up with a running lead on the main line above the controller. When cast out, the line is tensioned lifting the hooklink clear of the water at all times, presenting the bait perfectly.
- Now even stronger with added tapered rubber sleeves to reinforce the stem.
- Full instructions are included and a full demo video is on our website.

### TUNGSTEN FLYING BACK LEADS

Super dense non toxic tungsten-polymer flying back leads can be fitted and removed without having to retackle. These back leads can either be clipped onto the mainline prior to casting or attached and slid down the line like a conventional backlead.

- Concave face assists separation when used as a flying backlead.
- Line glides smoothly through low friction material.
- Matt finish enhances camouflage.
- Available in 2 sizes - 4 grams and 6 grams.

## GT-HD

GT-HD is manufactured exclusively for Gardner Tackle using a unique high grade copolymer formula that gives the line reduced stretch and a crisp feel. By combining this with amazing performance and a great low-viz green colour, 'GT-HD' sets a new bench mark in performance main lines.

- Reduced stretch offers the angler excellent feed back to the rod tip when feeling the lead down.
- Smooth finish and supple feel means supreme casting performance.
- GT-HD is formulated to sink quickly and settle flush to the lake bed.
- This line has exceptionally high knot strength and abrasion resistance.
- We recommend the palomar or "figure of 8" loop knot for best performance.
- Available in 12lb, 15lb and 18lb.

### FLUORO PLUS

The specialist Fluorocarbon and monofilament line conditioner, cleaner and lubricant that is awesome in making braided mainline more manageable too. Either apply a few drops directly onto your reel spool or by using a treated sponge or soft cloth – cleaning your line and treating it at the same time.

- Helps to stop suspended particles from clinging to lines, making them highly visible mid-water.
- Reduces friction, increasing casting range and keeping line in good condition.
- 'Fluoro Plus' is totally odourless, non-toxic and completely environmentally safe.

### MIRAGE

100% Fluorocarbon, available in a wide range of breaking strains suitable as a main line, leader or hooklink material for carp, coarse and sea fishing.

- Fast sinking and lays flat on the bottom at all times.
- Refractive index of 1.42 is virtually invisible in water.
- Unique formula for ultimate casting performance and low stretch enhances bite indication and feedback when your lead hits the lake bed.
- Best linear and knot strength and high abrasion resistance of any fluorocarbon available.
- Non hydroscopic – does not absorb water or lose strength after long periods in water.
- UV resistant – does not deteriorate in sunlight.

# INSIGHT

## MAIN LINES

### INSIGHT GR60X

After the long term success of GR60 which still holds a various number of records, the next generation of Insight line has been launched, GR60X.

- Due to the type of structure in manufacturing of this line, GR60X has a better sinking rate than GR60.
- Does not hug the bottom like some fluorocarbons; this allows GR60X to lift up in the water when striking giving more of a positive strike.
- Superb uniform diameter and non reflective matt finish for less visibility.
- GR60X is more supple than GR60 but still has the same if not better abrasion resistance, knot strength and reliability.

### INSIGHT GR60

Developed to bring together the most advanced features which today's big fish anglers demand. This line has incredible knot strength and good resistance to abrasion, yet it is not wiry in its structure.

- Uniform diameter that is super smooth with very little memory.
- The stretch factor has been controlled to an optimum level giving just the right control over hard fighting fish.
- Spooled on large diameter bobbins and produced in small batches at a time to reach you in total 'fresh' condition.

### BUG ARM

This 'swinger' style arm is a great alternative to the ball style chains supplied with the Bug indicators.

- Twin pivot points allow free movement of the Bug indicator.
- Perfect for use with slack lines, with no chance of the indicator tangling.
- Can be screwed on to increase tension when fishing at long range or near snags.
- Incorporates 5mm threads that fit most bobbin heads.

	QTY	CODE		RRP (£)
Bug Arm	1	BUGARM	361	6.50

### BUG CRADLE

Allows you to fish slack lines and keep your bobbins off the floor and out of harm's way.

- Compatible with all Bug Indicators and most other bobbins, integral 5mm male thread.
- Lightweight, hi-impact moulded nylon for high quality finish and strength.
- Versatile two part design (hockey stick and cradle), easily adjusted.

	QTY	CODE		RRP (£)
Bug Cradle	1	BUGCR	277	4.99

### BUG STICK

60° angle gives better clearance for butt rings (important for compact buzzers) and allows you to have the butt-eye tight inside the buzzer when fishing with tight clutches.

- Offers anglers an alternative to the standard hockey stick supplied with the Bug indicators.
- 5mm thread is compatible with all BUG indicators and most other popular bobbins.
- Strong and robust.

	QTY	CODE		RRP (£)
Bug Stick	1	BUGST	111	1.99

### SENSI-CLIPS

These easy to fit line clips, attach using an elasticated o-ring (supplied). They sit between the reel and the bite alarm and ensure the very best bite indication. Reducing the distance between the Sensi-Clip and the bobbin increases the sensitivity of the bite indication.

- Each pack contains 3 x Sensi-Clips and 3 x 25mm UV resistant o-rings.

	QTY	CODE		RRP (£)

Trade prices are given exclusive of VAT. Retail prices are inclusive of VAT at 20%. Gardner Tackle Ltd. reserves the right at any time before delivery to give the buyer notice of any increase in the prices to reflect any cost increases incurred.

## PAYMENT

Payment is due at 30 days net. Debit and Credit card payments are free of charge.

## ACCOUNT DISCOUNTS

We offer a **5% settlement discount** for all payments made within 7 days of receipt of invoice but this is only available to customers who have no other outstanding invoices. We reserve the right to exclude settlement discount, from the invoice, to customers who habitually take the settlement total after the 7 day period.

Further discounts are based on annual net expenditure and are offered in addition to the settlement discount. The discount structure is based as follows:

Annual turnover of:

**£5,000 and over = 5%**

**£10,000 and over = 7.5%**

**£15,000 and over = 10%**

These turnover discounts apply to sales within each calendar year and come into effect in the following year when the next catalogue is released. All Offshore UK and Non-U.K. account discounts will be treated on an individual basis depending on turnover and transport costs (if applicable).

## OVER DUE ACCOUNTS

As per the late payment of Commercial debts Act 1998 (amended 2002).

Compensation entitlement will be added to any debt sent to our Debt Recovery Agents:

Size of unpaid debt	Compensation
Up to £999.99	£40
£1000 - £9999.99	£70
£10,000 or more	£100

In addition to this, interest will be calculated on the Bank of England base rate + 8% from the date each outstanding invoice becomes overdue and added to the outstanding debt. (At the time of going to print this is 0.5%).

## DISHONoured CHEQUES

Dishonoured cheques and payments will be subject to a £5.00 surcharge on each occasion a cheque is represented.

## NEW ACCOUNTS

Two trade and one bank reference are required to open an account plus the full completion of the Gardner account application form. The first two orders will be on a Pro-forma basis and no credit is available until the account opening form is completed and returned.

## MINIMUM ORDER

We have decided to continue our policy of no minimum order value for U.K. shops. We would however like to emphasise that this is a non profit making exercise for us designed to assist the retailer in offering a service to the customers. We would be grateful if this service is not abused and we reserve the right to refuse the facility in such an event.

A £200.00 minimum order value may be applied for Non-U.K. accounts in the event that our bank charges are deemed unacceptably high, and therefore uneconomical, but we will endeavour not to have to bring this into effect.

## ORDERS AND DISPATCH

**Orders over £200 net will be delivered free of charge** (U.K. mainland only) on 24 hour delivery. During January and February (only) we drop this amount to £150 net to enable more frequent orders in the quiet winter period.

**Same day order/dispatch - We cannot guarantee completing any orders or additions given to us after 3.00pm. Please advise if you require a same day dispatch otherwise all orders will be sent out the following day.**

Orders under £200 net will incur a carriage charge of £7.00. The minimum postal charge will be £3.60 or £5.00 for recorded delivery service on posted orders worth over £50 net. All orders delivered by our own vehicles are delivered free of charge.

For Non-U.K. accounts we often offer a free-delivery or subsidised carriage service to selected areas depending on certain criteria (size/weight/value of the order and destination country).

## NON-DELIVERY / INCORRECT DELIVERY

The majority of U.K. orders will be dispatched within 24 hours. Please report to us in the unlikely event of not receiving an order within 14 days. Any shortages, errors or damages in a delivery must be reported within 48 hours of receipt of the order. We are unable to rectify any complaints after this time.

## DISCOUNTS

We reserve the right to not supply any customer who advertises unreasonably discounted prices.

## RETENTION OF TITLE

The title of the goods shall not pass to the customer until payment has been made in full. Goods not paid for, and in the customers possession, will be held at the customers total risk. Gardner Tackle Ltd reserves the right to repossess any goods supplied where payment is overdue.

## WEIGHTS AND MEASURES

Weights and measures are intended as a guide only and we reserve the right to modify specifications as part of a continuing development programme.

## RETURNS AND REPAIRS

Gardner Tackle are not liable for postage on any returns. Please hand returns to your rep/agent and discuss the matter with them or phone the office for advice. Returned goods ordered by mistake will incur a handling charge of 15% (subject to prior arrangement). All returned goods must be returned to us in the same condition as originally supplied and without price tags. We cannot accept returned goods that are no longer in our catalogue.

For any ATT or TLB returns, services and upgrades please contact the Gardner Tackle office on tel: **01483 560048** or email: **att@gardnertackle.co.uk**

ATT and TLB products come with a year warranty. ATT or TLB products returned for warranty repair will need a valid "Proof of Purchase" to be eligible.

**PRICES**

Trade prices are given exclusive of VAT. Retail prices are inclusive of VAT at 20%. Gardner Tackle Ltd reserves the right at any time before delivery to give the buyer notice of any increase in the prices to reflect any cost increases incurred.

**PAYMENT**

Payment is on a proforma basis only. Debit and Credit card payments are free of charge.

**ACCOUNT DISCOUNTS**

We offer a **5% settlement discount** for all payments made within 7 days of receipt of invoice but this is only available to customers who have no other outstanding invoices. We reserve the right to exclude settlement discount, from the invoice, to customers who habitually take the settlement total after the 7 day period.

Further discounts are based on annual net expenditure and are offered in addition to the settlement discount. The discount structure is based as follows:

Annual turnover of:

**£10,000 and over = 5%**

**£20,000 and over = 7.5%**

**£30,000 and over = 10%**

These turnover discounts apply to sales within each calendar year and come into effect in the following year when the next catalogue is released. All Offshore UK and Non-U.K. account discounts will be treated on an individual basis depending on turnover and transport costs (if applicable).

**OVER DUE ACCOUNTS**

If an overdue account should arise then standard terms and conditions apply.
