CATALOGUE - PREDATOR

2018

EDITORIAL

With the 2018 edition of our catalogue, we are proud to present the new products that we have developed with the utmost care and in tight collaboration with our R&D specialists and the technical expertise of our Pezon & Michel team.

True to the most traditional fishing techniques of our country, you will discover our new ranges of rods and reels, specially designed to enable you get the most out of your passion.

Our new « EAUX VIVES OSMOSE » range of dedicated salmonids rods will enable you to cover a wide variety of techniques. The mere fact of holding one of these rods is sufficient to make you instantly want to find a river and try to catch a fish with it!

The new « SPECIALIST » reels have been entirely rethought in order to meet the highest standards that match and feeder techniques require.

2018 will also be marked by the arrival of Gaël Even on our team. The talented angler and renown fishing guide is now a consultant for our brands.

His vast knowledge of different ecosystems, species and impressive technical skills are just a few of the assets he will use to present our products and to give advice and detailed explanations on how to fish with them throughout the year. Be sure to follow him through his articles on our website, his blog, <http://www.gaelevenpeche.fr>, and make the most of his advice at trade shows and fishing conventions.

Working with our specialists and our R&D department, he will actively take part in the every step of the product development process: range orientation, product conception and extreme field testing in order to validate them.

We sincerely thank you for the trust you have honoured us with over the years and wish you a great season for 2018.

The Pezon & Michel team & J.Riffaud.

SPECIALIST

N SPECIALIST MXC FR 350 REEL

9762 / V3010

Compact reel well suited to waggler fishing with rods from 12-14ft. Perfectly balanced, the reel has a particularly smooth rotor which makes fishing fluid and comfortable. The micrometric drag can be fine-tuned to suit different hooklength diameters. The wide spool is fitted with Long Cast lips not only guarantees excellent casting performance but protects your reel line from wear! A classy product that is sure to find favour with demanding match anglers.

Plus points:

- Body and rotor in light and strong composite material
- Infinite anti-reverse
- Aluminium spools "shallow lip" and LC (long cast) lip*
- *designed for a more fluid line transit over the spool lip for better casting performance.
- Metal line clip
- Spare aluminium spool
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- One touch fold away handle
- «Sensigrip» handle

		Spare Spool	Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
SPECIALIST MXC FR 350 REEL 08584		1	0.20mm/ 200m	283	5.5/1	85	1	5

N SPECIALIST MXC FV 350 REEL

9763 / V3010

Rear drag version of the MXC model. This reel is very compact and has been developed for distance casting. The retrieve ratio has been increased to help get waggles in and out of the water quickly. Perfectly balanced, the reel has a particularly smooth rotor which makes fishing fluid and comfortable. The micrometric drag can be fine-tuned to suit different hooklength diameters. The wide spool is fitted with Long Cast lips not only guarantees excellent casting performance but protects your reel line from wear! A classy product that is sure to find favour with demanding match anglers.

Plus points:

- Body and rotor in light and strong composite material
- Infinite anti-reverse
- Shallow aluminium spool
- Metal line clip
- Spare aluminium spool
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- One touch fold away handle
- «Sensigrip» handle

		Spare Spool	Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
SPECIALIST MXC FV 350 REEL 08591		1	0.16mm/150	286	6.0/1	93	1	6

N SPECIALIST FTM FD 350 REEL

9764 / V3010

The ultimate versatile reel! Perfect for anglers who can't decide between a classic match reel and a feeder reel. This model lets you swap between the two techniques. The gearing is smooth and powerful and the long armed handle makes winding easy. Fitted with a free-spool function that is perfect for targeting big fish on bolt rigs and method feeders. The fighting drag is fitted with carbon washers and designed to handle big fish. This model will cope with every situation!

- Plus points:
- Body and rotor in light and strong composite material
 - Infinite anti-reverse
 - Shallow aluminium spool
 - Metal line clip
 - Spare aluminium spool
 - S-curve spiral oscillation system
 - Long life pick-up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Progressive micrometric drag system
 - Aluminium Long-arm handle
 - "Sensigrip" handle

		Spare Spool	Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
SPECIALIST FTM FD 350 REEL 08601		1	0.16mm/ 150m	338	5.0/1	78	1	6

N SPECIALIST FXC FV 450 REEL

9765 / V3010

A high quality reel that has been developed for competition feeder anglers. Tough and powerful are of course key qualities and our field testers have had considerable input into exactly what else feeder match anglers are looking for. The Speed Control drag button lets you go from free-spooling to fighting drag position with a ¾ turn of the button. This is a real bonus when targeting carp or barbel in particular. Fitted with two metal line clips to help you keep your fishing distances accurate all through a session. The gearing is smooth and powerful – ideal for anglers who regularly land big bags of fish or fish at long range with heavy feeders. A thoroughbred feeder reel!

- Plus points:
- Body and rotor in light and strong composite material
 - Infinite anti-reverse
 - Aluminium spool LC (long cast) lip* and shallow spool with anti-slide band
 - *designed for a more fluid line transit over the spool lip for better casting performance.
 - 2 Metal line clips
 - Spare aluminium spool
 - S-curve spiral oscillation system
 - Long life pick-up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Progressive micrometric drag system
 - Speed Control drag button goes from free-spool to powerful fighting drag in less than a turn
 - One touch fold away handle
 - Separate double handle
 - "Easygrip" handle

		Spare Spool	Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings

LUXOR FS FV 3500 MATCH REEL

8859 / V3000

This is our very latest reel for the demanding waggler angler. Top quality engineering mounted on stainless ball bearings coupled with a compact and elegant modern design. Precise and smooth gearing coupled with a wide aluminium spool guarantees great cross spiral line -lay. This is vital for smooth long distance casting and helps your mono last longer! The reel has a super smooth action that you will feel even when winching in hard fighting fish. This is a reel to delight the most demanding waggler anglers. Supplied with a double handle for optimum comfort. Fast high ratio retrieve, titanium anti twist line guide and a solid pick up arm. Spare aluminium spool supplied with a spare one touch handle that folds in at the push of a button.

The plus points!

- Body and rotor built in light and strong composite material
- Compact design
- Infinite anti reverse
- Wide shallow aluminium spool
- Spare wide aluminium spool
- Double handle
- Spare «one touch» collapsible handle
- S-Curve oscillation system
- Long life pick up spring
- Consolidated handle
- Titanium anti-twist line guide
- Micrometric progressive drag system
- Easy grip handle

SPECIAL TEAM SENSAS FV REEL

9521 / V3010

Hyper compact and extremely light, this reel has a wide rotor and spool to reduce as far possible the number of turns of line on the spool. This results in better line lay and improved casting performance that you will appreciate when you start using with the reel. The mechanism is fluid and smooth and the high gear ratio helps make fishing efficient and precise. The micrometric drag system is very accurate and progressive so you can set it exactly to suit whatever hooklengths you are using. Supplied with a spare aluminium spool and one touch folding handle.

Plus points:

- Body and rotor built from a light composite material
- Compact design
- Infinite anti-reverse
- High speed ratio
- Wide aluminium spool (shallow spool)
- Spare wide aluminium spool (shallow spool)
- "Long cast*" spool lips
- * The angle of the spool lip is designed to minimise friction with the reel line.
- Spare « one touch » folding handle»
- S-Curve oscillation system (cross spiral)
- Long life bail spring
- Consolidated bail arm
- Anti-twist large Titanium line roller
- Micrometric progressive fighting drag
- «Sensigrip» handle

OCEANER

SWM OCEANER ZI FV REEL

9517 / V309
Our new OCEANER collection has all the vital ingredients needed for a great sea fishing reel. The materials used have been carefully selected for their longevity and reliability. The main shaft and bearings are made from stainless steel. All the metallic elements have been treated against corrosive effects of salt. The elegant design conceals a tough and reliable mechanism. This range covers a variety of sea techniques from lure fishing, surf casting and ledgering with baits. Pick a size that corresponds to your style of fishing. Don't forget to rinse your reel thoroughly in tap water at the end of every fishing session.

- OCEANER ZI FV
Plus points!
- Body and rotor built from a light composite material
 - Stainless bearings
 - Main shaft in stainless steel
 - Treated against corrosion
 - Infinite anti-reverse
 - Aluminium spool
 - Spare aluminium spool
 - "Long cast" spool lips
 - * The angle of the spool lip is designed to minimise friction with the reel line.
 - S-Curve oscillation system (cross spiral)
 - Long life bail spring
 - Consolidated bail arm
 - Anti-twist large Titanium line roller
 - Micrometric progressive fighting drag
 - «Easygrip» handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings

OCEANER ZI FV REEL 700 SW 07365		0.35mm/320m	664	4.5/1	91	1	5

SWM OCEANER ZI FV 800 LC REEL

9572 / V309
Designed for surfcasting the OCEANER ZI FV 800 LC has double oscillation worm shaft gearing for perfect line lay. The stainless steel shaft coupled with a powerful and smooth drag mechanism gives you all the power you need to fish heavy and tackle big fish. This low maintenance reel needs only a good rinse after every trip and will give you reliable performance time after time.

- Product Plus Points
- Rotor and body in light and strong composite material
 - Stainless steel bearings
 - Stainless steel main shaft
 - Anti-corrosion treatment
 - Infinite backwind
 - Profiled Long Cast spool
 - LC* lips on the spool
 - * Long cast lips designed to reduce nylon friction when casting
 - Worm shaft double oscillation system
 - Long life bail spring
 - Consolidated pick-up arm
 - Anti - twist Titanium line guide
 - Powerful and progressive drag
 - Suergrip handle

REDOUTABLE

N REDOUTABLE RED REELS

9760 / V3020

Great reel for all sporting lure fishing. The REDOUTABLE red front drag models have several advantages. Light, compact and reliable - these are a joy to use! The smooth gearing is perfect for intensive lure fishing and the micrometric drag allows precise drag control depending on the line diameters and hooklengths you are using. Top level performance and great value for money!

Plus points:

- Body and rotor in light and strong composite material
- Versatile performance
- Infinite anti-reverse
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- One touch fold away handle
- "Easygrip" handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE RED REELS FV 20 61388		0.20mm/ 240m	275	5.2/1	71	1	3
REDOUTABLE RED REELS FV 30 61389		0.25mm/ 200m	287	5.2/1	76	1	3

N REDOUTABLE RED FV 15 REEL

9759 / V3020

Great for all "toc style", UL and finesse tactics! This compact and light reel is a joy to use. The smooth gearing is perfect for intensive lure fishing and the micrometric drag allows precise drag control depending on the line diameters and hooklengths you are using. Top level performance and great value for money!

Plus points:

- Body and rotor in light and strong composite material
- Versatile performance
- Infinite anti-reverse
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- "Easygrip" handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings

N REDOUTABLE RED FR REEL

9758 / V3020

The REDOUTABLE RED rear drag reels are supremely versatile. Light, compact and robust. The smooth gearing is perfect for intensive lure fishing and the micrometric drag allows precise drag control depending on the line diameters and hook lengths you are using. Top level performance and great value for money!

- Plus points:
- Body and rotor in light and strong composite material
 - Versatile performance
 - Infinite anti-reverse
 - S-curve spiral oscillation system
 - Long life pick-up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Progressive micrometric drag system
 - One touch folding handle with button
 - “Easygrip” handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE RED FR REEL 30 61368		0.25mm/ 270m	290	5.2/1	71	1	3
REDOUTABLE RED FR REEL 40 61369		0.35mm/ 160m	378	5.2/1	84	1	3

N REDOUTABLE RED FR 10 REEL

9757 / V3020

Great for all UL and finesse tactics! This compact and light reel is a joy to use. The smooth gearing is perfect for intensive lure fishing and the micrometric drag allows precise drag control depending on the line diameters and hooklengths you are using. Top level performance and great value for money!

- Plus points:
- Body and rotor in light and strong composite material
 - Versatile performance
 - Infinite anti-reverse
 - S-curve spiral oscillation system
 - Long life pick-up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Progressive micrometric drag system
 - “Easygrip” handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE RED FR 10 REEL 61189		0.18mm/ 150m	168	5.2/1	58	1	3

REDOUTABLE TRX FV REEL 9640 / V3020

New generation TRX reels are even smoother than before and offer great performance and excellent value for money. Ultra slim body design, reliable and precise gearing and an exceptional drag mechanism make for smooth running reels that are comfortable to fish with all day long. If you are in the market for a modern reliable reel for lure fishing situations then check these TRX FV reels out!

Plus points:

- Ultra slim body design
- Body and rotor in light and strong composite material
- Stainless steel central shaft
- Versatility
- Infinite anti-reverse
- Aluminium "LC lips"
- *designed for a more fluid line transit over the spool lip for better casting performance.
- S-curve spiral oscillation system
- Long life pick up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- One touch single button fold away handle
- "Easygrip" handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE TRX FV REEL 20 61164		0.20mm/ 300m	253	5.2/1	65	1	6
REDOUTABLE TRX FV REEL 30 61165		0.25mm/ 270m	265	5.2/1	70	1	6
REDOUTABLE TRX FV REEL 40 61166		0.35mm/ 160m	346	5.2/1	79	1	6

REDOUTABLE CAM FD REEL

8847 / V3020

Built around a reliable and solid mechanism our freespool REDOUTABLE CAM reels are designed for ledgering for big fish (pike and carp). The drag is sensitive and very accurate and lets you precisely set line tension. Comes with aluminium spool, consolidated handle and a micrometric fighting drag. Specimen anglers will appreciate the camouflage finish on these reels!

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE CAM FD REEL 40 61048		0.30mm/ 195m	316	5.1/1	82	1	3
REDOUTABLE CAM FD REEL 65 61049		0.45mm/ 195m	449	5.1/1	85	1	3

REDOUTABLE THR FD REEL

9639 / V3020

Classy modern looking reels with an extremely sensitive free-spool function that can be set to a wide variety of tensions very easily. Designed for fishing styles where zero friction is an advantage (ledgering dead baits for predators, for example) or where you need a lot of tension on the free-spool function (for example carp fishing near snags) to get fish away from danger quickly.

- Plus points:
- Body and rotor in light and strong composite material
 - Infinite anti-reverse
 - Metal line clip
 - Long cast profiled aluminium spool
 - S-curve spiral oscillation system
 - Precise free-spool function
 - Long life pick up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Progressive micrometric drag system
 - “Suregrip” handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
REDOUTABLE THR FD REEL 40 61308		0.25mm/ 230m	353	5.1/1	70	1	3
REDOUTABLE THR FD REEL 60 61309		0.40mm/ 230m	475	4.9/1	79	1	3

OSCILLIUM

Range of reels with high performance long lasting gear mechanisms. Covers most current styles of fishing. Great looking reels with modern aesthetics and refined graphics. Top quality reels at remarkably reasonable prices!

Plus points:

- Very versatile
- Excellent value for money
- Body and rotor in composite materials
- Aluminium spool
- Micrometric drag
- Computer balanced drum
- Infinite anti-reverse
- Long life pick-up spring

INVITATION TRANSFER

Our new range of **TRANSFER** rods reflect the meticulous mix of tradition and modern design that defines all **INVITATION** rods. There is a rod for every technique in the range each with a precise action and ergonomic cork handle designed for optimal bait control and comfort. Cork remains the most comfortable handle material particularly during winter. All the blanks are made on quality **MI** carbon which is known for subtle power and control both for casting and playing fish. The length of each handle has been designed to suit different techniques- longer handles for distance casting, shorter handles for more precision in the rod movements. Ceramic **SIC** anti-tangle rings again are adapted to fishing styles. Long Leg rings for finesse styles where smooth line transit is essential and Short leg rings where power is more important. The spigots have been reinforced with carbon weave so they can stand the pressures of playing hard fighting fish. **INVITATION TRANSFER** rods are technical fishing tools, each finished with modern and understated graphics. Definitely worth checking out!

INVITATION TRANSFER CAST 9652 / C31200

Three rods designed for light fishing situations where casting performance in terms of precision and discretion are vital. The progressive action lets you follow a lure through the air and feather it into exactly the right spot. Perfect for light lures and spinners. **SIC** Long Leg rings. **MI** carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER CAST 180L 58180		2	94	180	115	2-7
INVITATION TRANSFER CAST 210ML 58181		2	109	210	127	3-12
INVITATION TRANSFER CAST 210M 58182		2	109	210	136	5-18
INVITATION TRANSFER CAST 240M 58183		2	124	240	149	7-21

INVITATION TRANSFER MINNOW 9653 / C31200

Series of rods designed for minnow wobbling for trout in small to medium sized rivers. Fast tip action with a nervous, responsive blank. The perfect balance makes controlling your bait and striking on bites pure pleasure! We have fitted **SIC** Long Leg rings for improved casting performance which helps especially when using light rigs and fragile baits! **MI** carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER MINNOW 240M/MH 57082		3	86	240	149	5-25
INVITATION TRANSFER MINNOW 270 M/MH 57083		3	97	270	159	5-25

INVITATION TRANSFER TACTILE 9657 / C31200

These TACTILE rods are designed for anglers who specialise in light sink and draw fishing – a tactic that often saves the day when other methods fail! The tip is made from solid coloured fibreglass for ultimate sensitivity. The quality blank is made on a wrap of MI carbon and has a progressive tip action that will cast lures a fair way and soak up violent takes without cracking off – which is always a danger when you come down in line diameter to try and get bites! SIC Long Leg rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER TACTILE 270M/MH 57835		2	140	270	152	5-25
INVITATION TRANSFER TACTILE 300MH 57836		2	155	300	169	7-30

INVITATION TRANSFER VERTICAL 9658 / C31200

Lovely rod designed expressly for vertical fishing. The action is versatile and can be used on many different waters. Everything from the ergonomic handle to the position of the reel seat has been designed to perfectly balance the rod so you can animate soft baits with unrivalled precision. The soft tip will pick up on the tiniest of knocks and helps absorb the initial impact of savage takes avoiding sudden hook pulls. The resonance in the blank is an asset on big reservoirs and there is enough power to handle winter fishing on flooded rivers. Profiled SIC rings. Carbon MI wrap on the blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER VERTICAL 190MH 57701		1+1	160	190	132	10-28

INVITATION TRANSFER HARD&SOFT 9654 / C31200

These are versatile rods par excellence. Designed to cover all modern lure techniques whether with hard or soft baits, from the shore or boat. The blank has enough backbone to cast accurately yet remain extremely sensitive and responsive. Great rods for active fishing and prospecting big waters alternating between fishing plugs and scraping soft baits along the bottom. SIC Long Leg rings. MI carbon wrap on the blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER HARD&SOFT 190M/MH 59014		2	100	190	117	5-25
INVITATION TRANSFER HARD&SOFT 210MH 59015		2	109	210	129	10-30
INVITATION TRANSFER HARD&SOFT 240MH 59016		2	124	240	143	10-30
INVITATION TRANSFER HARD&SOFT 270MH 59017		2	139	270	159	10-30

INVITATION TRANSFER HARD&SOFT 9655 / C31200

These are versatile rods par excellence. Designed to cover all modern lure techniques whether with hard or soft baits, from the shore or boat. The blank has enough backbone to cast accurately yet remain extremely sensitive and responsive. Great rods for active fishing and prospecting big waters alternating between casting plugs midwater and scraping soft baits along the bottom. SIC Long Leg rings. MI carbon wrap on the blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER HARD&SOFT 210H 57811		2	109	210	148	10-40

INVITATION TRANSFER HARD&SOFT 270H 57813		2	139	270	184	10-40

INVITATION TRANSFER POWER 9656 / C31200

Designed specifically for "heavy" fishing with lures or rigs. The power in the butt section is coupled with a sensitive tip action that is perfectly balanced and limits the chances of hook pulls. The length of the handle has been designed to give you better leverage so it is less tiring when fishing with bigger lures after pike or zander for several hours. This extra control also helps keep lures on track and at the right angle to get quicker takes. SIC profiled rings. MI carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
INVITATION TRANSFER POWER 230XH+ 57825		2	119	230	175	15-70
INVITATION TRANSFER POWER 260XH+ 57826		2	134	260	205	15-70

INVITATION TRANSFER TRIP 9659 / C31200

Range of rods designed for the travelling angler to cover most European fishing situations. The rods pack away small and can easily be carried with your luggage. The sections are spigotted and the blank reinforced with a carbon weave to help preserve a crisp powerful action. These technical rods are surprisingly good value for money and sure to find favour either as a main or a backup rod for the travelling angler. Spanish zander and Irish pike beware! SIC profiled rings. MI carbon blanks.

INVITATION TRANSFER TRIP 190XH+ 59626		3	68	190	149	20-80

INVITATION TRANSFER ZANDER 9660 / C31200

Developed specifically for anglers in Eastern Europe, these rods are simply exceptional! Great for tackling big rivers where the extra power allows you to strike positively and not pull out of fish in stronger flows. The blanks are long and powerful and can cope with working heavily weighted lures with sharp animations whilst keeping the line tight at all times. Profiled SIC Long Leg rings. MI carbon blanks.

REDOUTABLE

REDOUTABLE MICROMASTER ROD 9489 / C31202

Fishing with small and very small lures has become something of a European institution. European anglers have come up with ever more ingenious methods and rigs to fish small baits and so naturally the rods we use have evolved to suit. A great example is our Micromaster range. A series of rods of different lengths and strengths designed specifically for finesse styles of fishing. Fast action MI carbon blanks with solid carbon tips. Technically brilliant and great value for money too!

EAUX-VIVES OSMOSE - NATURAL BAITS

EAUX VIVES ROD 3.90 7483 / C3121

These new Feather weight rods have shed several grams in weight yet gained a few more rings! 17 rings in total now to guarantee a perfect flow of line and let you fish as light as possible. Their light weight helps you fish for hours without fatigue and the discrete matt finish is a must for anglers fishing clear waters. Top of the range rods, perfectly balanced and built on high modulus carbon blanks.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
EAUX VIVES ROD 3.90 FEATHER WEIGHT 56387		3	134	390	158	5-25

N EAUX VIVES FEATHER WEIGHT ROD 9778 / C3121

Great rod developed for fishing with natural baits. Light and perfectly balanced slender blank- perfect for accurate casting. The tip action gives you total control when trotting and is great when casting fragile baits like insect larvae. Fitted with offset SIC guides that cast brilliantly so you can land baits accurately and delicately. The rod has the perfect balance of sensitivity for picking up bites with progressive power in the blank to handle bigger fish. Matt finish, ring reel seat and cork handle.

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)

EAUX VIVES FEATHER WEIGHT ROD 390 FT 51859		3	137	395	16	169	5-25

N EAUX VIVES LINK ROD 9777 / C3121

Tippy action and powerful blank make this the perfect rod for roving on small to medium rivers. Covers a wide range of loadings so handles everything from spring floods to low level summer conditions. Great balance, cork handle, offset SIC rings, ring reel seat and matt finish

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)
EAUX VIVES LINK ROD 390 51819		3	135	390	16	166	10-30

N EAUX VIVES NATURELLE ROD 9776 / C3121

A lovely rod for traditional « toc » fishing. Light and well balanced, this rod can be used effortlessly for hours. The blank has plenty of power in reserve to handle bigger fish. Great value for money! Ring reel seat, SIC rings and a matt finish.

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)
EAUX VIVES NATURELLE ROD 390 51809		3	136	390	16	173	10-30

EAUX-VIVES OSMOSE - INTERNAL LINE-TELE-ADJUSTABLE

N EAUX VIVES CIBLE ROD 9779 / C3121

Inline rod fitted with no less than 20 spacers all placed by artisan rod builders in France who are masters at ensuring perfect line flow. The progressive tip action is great to handle and helps with pinpoint accurate casting. Cork handle. Ring reel seat. Ml carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
EAUX VIVES CIBLE ROD 51822		3	136	373	189	5-25

N EAUX VIVES CIBLE ROD 9780 / C3121

Great inline 3 section rod that can be adjusted for length along any of the 3 sections. No less than 28 spacers have been used to keep line flowing freely. The ideal rod for coping with changing swims from small overgrown sections to more open river beats. The spacers are made and installed in France. HM carbon, cork handle, ring reel seats and matt finish.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
EAUX VIVES CIBLE ROD 400 INLINE TLR 51832		4 / 2 Adj.lock	140	220-391	211	5-25

N EAUX VIVES CONTACT ROD 9782 / C3121

Compact tele-adjustable rods that cover a wide range of operational lengths thanks to the self-locking rings along the blank. Great for anglers who fish a wide range of waters. Ml carbon, cork handle and ring reel seat.

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)
EAUX VIVES CONTACT ROD 350 TLR 51850		6 / 3 Adj.lock	85	198-349	7	216	10-30

EAUX-VIVES OSMOSE - ROVING AND MIGRATORY FISH

N EAUX VIVES ESCAPE ROD 9786 / C3121

Packs away to only 54cm! This is the perfect rod for the hiking/roving angler. Versatile enough to handle live baits working upstream or cast bombettes in alpine lakes. MI carbon, 8 SIC rings and ratchet reel seat.

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)
EAUX VIVES ESCAPE ROD 360 51799		10	54	342	8	165	10-40

N EAUX VIVES SALMO RUSH 9667 / C3121

Super rod designed for migratory game fish with a progressive tip action that effortlessly casts the lightest of lures. The blank has plenty of power to absorb the initial rush of a hooked fish. The perforated reel seat keeps you in direct contact with the blank so even the most timid of knocks can be felt. The handle has been designed so as not to stick out from under your arm so you can get down overgrown banksides. SIC profiled rings. MI carbon.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
EAUX VIVES SALMO RUSH 300H 59644		3	107	300	265	15-45

EAUX-VIVES OSMOSE - MINNOW WOBBLING & COREGONE

N EAUX VIVES MINNOW ROD 9788 / C3121

As its name suggest the perfect rod for minnow fishing! Light and perfectly balanced. The progressive action is soft enough in the tip to absorb the lunges of a hooked fish whilst having the power in the butt to keep you in control. SIC profiled rings, screw reel seat, Ml carbon and matt finish.

		Section	Size (cm)	Length (cm)	Guides (Qty)	Weight (g)	Power (gr)
EAUX VIVES MINNOW ROD 270 51779		3	95	270	8	171	10-30

N EAUX VIVES SONDE ROD 9789 / C3121

Developed for targeting coregon and char where precision is a key to success. We have paid particular attention to the ergonomics and responsiveness of the rod. Comes with 3 interchangeable tips of different strengths and a tip action that blends progressively through the rod for perfect bite transmission. The tips are colour coded yellow, red and green and fitted with micro rings whipped with alternating coloured threads (yellow, black, green and orange) so they stand out no matter what the light conditions. The handle has a wooden section to improve bite transmission. Light, sensitive and well balanced. The rods come in different lengths and even have an extension section on a couple of models to help cope with the diversity of high altitude lakes. SIC rings, Ml carbon and cork and wood handles.

EAUX-VIVES OSMOSE - LURE AND SPINNER

EAUX VIVES INSTINCT ROD 8933 / C3121

We have paid close attention to the finish of these rods to ensure that they follow the great tradition of top end trout rods where only the finest materials (the best cork, top grade anodised aluminium etc.) have been used. Within the range we have identified two «labels» one for fishing with lures the other spinning.

The Lure Label rods are built on a noticeably tippy blank. Fast and responsive they guarantee quick movement of your lure. The rods are superbly balanced and precise they feel like a natural extension of your arm!

The Spin Label rods have a softer, more progressive action that allows delicate casting which helps when using very small spinners. Great not just with spinners but with metal spoons as well.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
EAUX VIVES INSTINCT ROD 180 UL 59737		2	93	180	86	0.5-3

OCEANER SURF CASTING

OCEANER APOLLO 9674 / C3131

Great value for money surf rod with a responsive well balanced blank. SIC twin leg rings, enclosed ceramic tip ring, anti-slip grip, screw down tubular reel seat. MI carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER APOLLO 420 57985		3	147	420	649	100-200
OCEANER APOLLO 450 57986		3	157	450	702	100-200

OCEANER BOOSTER 9676 / C3131

Comfortable rod whose power is balanced with some give on compression to ensure optimal long distance casting performance. SIC twin leg rings, enclosed ceramic tip eye, anti-slip grip, tubular screw down reel seat. MI carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER BOOSTER 420 58025		3	148	420	512	100-200
OCEANER BOOSTER 450 58026		3	158	450	543	100-200

OCEANER EDGE 9677 / C3131

Top of the range performance from a rod designed with a dynamic low diameter blank. Handles superbly and has the power for distance casting. SIC twin leg rings, enclosed ceramic tip ring. Anti-slip grip. Screw down tubular reel seat. HM carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER EDGE 420 57975		3	148	420	557	100-200
OCEANER EDGE 450 57976		3	158	450	544	100-200

OCEANER EDGE 9678 / C3131

Great casting rod with a particularly low diameter at the butt. The solid tip makes bite detection from delicate fish easy. Fitted with SIC Low Ryder rings. The butt ring has been inverted for more power when casting. Anti-slip grips, tubular screw in reel seat. HM carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER EDGE 420 FEELING 58045		3	154	420	572	100-200
OCEANER EDGE 450 FEELING 58046		3	158	450	545	100-200

OCEANER EDGE 9680 / C3131

Light and very well balanced. The carbons used to make the blank have been selected for their power and responsiveness to compression. Great casting rod that is very sensitive thanks to the solid carbon tip. Great for targeting delicate biting fish. SIC twin leg rings, enclosed ceramic tip eye, screw tube reel seat. HM carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER EDGE 420 TELE 58033		5	154	420	397	80-120

OCEANER ROCKET 9679 / C3131

The ROCKET is a versatile rod designed for the roving surf angler who needs to adapt quickly to changing tides and fish displacements. The rod is not too long but the blank is responsive and dynamic – for accurate distance casting and the rod is sensitive enough to pick up delicate bites. SIC twin leg rings, enclosed ceramic tip eye, screw tube reel seat. MI carbon wrap.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER ROCKET 390 TELE 58023		5	140	390	427	80-120g

OCEANER LURE

OCEANER BUDDY 9681 / C3130

Great value for money lure fishing rod. Top class casting performance and fish playing action for a modest cost. SIC rings. Carbon composite. EVA handle.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER BUDDY 190H 58675		2	105	190	152	10-40
OCEANER BUDDY 210H 58676		2	111	210	371	10-40

OCEANER ELITE 9683 / C3130

Great range of technical rods each with a progressive tip action and plenty of reserve power in the butt section. The balance and length of these rods is perfect for accurate casting and tireless fishing. Different lengths and power ratings cover all your plug and/or soft bait seas fishing scenarios. SIC rings. High density EVA. MI carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER ELITE 210 MH 58713		2	111	210	129	7-28
OCEANER ELITE 210 H 58714		2	111	210	136	10-40
OCEANER ELITE 240 H 58716		2	126	240	149	10-40
OCEANER ELITE 270 XH 58718		2	141	270	184	10-50

OCEANER SPEED 9682 / C3130

Responsive rods that handle superbly. The perfect choice for distance plug fishing where casting accuracy and power are important. The rods are versatile enough to handle soft bait fishing styles as well. Great value for money for such technical rods. Try these out bass fishing around our coasts. MI carbon blanks. SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER SPEED 210 H 58693		2	113	210	162	15-40
OCEANER SPEED 240 H 58694		2	124	240	207	15-40
OCEANER SPEED 240 XH 58695		2	124	240	224	20-60
OCEANER SPEED 270 XH 58697		2	141	270	279	20-60

OCEANER TRACK 9684 / C3130

This rod has the right length and action for classic soft bait fishing. Fitted with twin leg SIC rings. The blank is very responsive so you can pick up on discrete bites and strike quickly yet still has plenty of reserve power to handle hard fighting fish. MI carbon blank. High density EVA handle.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER TRACK 240 XH 58701		2	125	240	175	30-80

OCEANER LURE & JIGGING

OCEANER EGJIG 9685 / C3130

A light and accurate blank designed for fishing small jigs and squid jigs "eging" style. The solid glass tip is ultra-sensitive. MI carbon blank. SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER EGJIG 195 58579		2	102	195	147	30-120

OCEANER JIG 9687 / C3130

Dedicated jig rods with the right length and power for fishing European coastal waters. The action is progressive through the trip and powers up in the butt. Single piece blank with detachable butt section. Twin leg SIC rings. MI Carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER JIG 165 58445		1+1	109	170	260	50-80
OCEANER JIG 185 58446		1+1	129	189	271	40-120

OCEANER JIG & FIGHT 9688 / C3130

Fantastic jigging rod especially in deep water. Perfectly balanced with plenty of reserve power through the butt section. Designed for jigging over wrecks yet versatile enough to handle big soft bait fishing as well. Single piece blank with detachable handle. SIC twin-leg rings. MI carbon blank.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER JIG & FIGHT 200 XH 58465		1+1	146	200	264	60-180
OCEANER JIG & FIGHT 200 XXH 58466		1+1	146	200	278	80-250

OCEANER SONIC 9686 / C3130

Designed for light jigging with light to mid-weight metal jigs as well as madaj and Inchiku jigs. The solid glass tip is very sensitive and coupled with a responsive extra fast blank. Particular attention has been paid to making the handle as ergonomic as possible for greater control and comfort. MI carbon blank. SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER SONIC 180 58589		2	95	180	99	30-120

OCEANER BOAT & BAIT

OCEANER BLOCK 9690 / C3130

The length, power and progressive tip action make for an extremely versatile rod than can be used for light jigging, fishing bottom baits or lure fishing. The perfect choice for anglers who have limited space on their boat and want to take a single rod that can fish any method. Carbon composite blank. Twin leg SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER BLOCK 210 58665		2	111	210	253	30-120/ Jig max 200

OCEANER DENSITY 9691 / C3130

Great rods designed for holding bottom with natural baits. Features a sensitive tip section for delicate bite detection without compromising on power. MI carbon blank. SIC low-ryder rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER DENSITY 210 59167		2	111	210	252	30-250
OCEANER DENSITY 240 59168		2	126	240	275	30-250

OCEANER HARD & SOFT 9704 / C3130

Powerful and well balanced rod that lets you fish plugs or large soft baits accurately. Perfect for light wreck fishing or drift fishing with heavily loaded soft baits. MI carbon blank and SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER HARD & SOFT 210 58666		2	111	210	197	20-100/ Max 200

OCEANER MUTIFEEL 9692 / C3130

OCEANER MULTIFEEL rods are designed for bait fishing either drifting or holding bottom. The perfect marriage between sensitive bite detection and power. Supplied with two different glass tips. SIC rings and MI carbon blanks.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
OCEANER MUTIFEEL 210 59086		2+2	111	210	190	30-250

COMBOS À LA CARTE

Make up your own packs tailored to your local needs. Simply select rods from our CONNECT

XXL/CONNECT TROUT and CONNECT SEA ranges and match these with reels from our CONNECT SG (with or without line) and OSCILLIUM FV ranges. You can mix and match to suit local demand but the number of rods must equal the number of reels. For 20 packs or more you will get a 50% discount on the catalogue price. 100 or more combos will get a 55% discount on the catalogue price.

BOXING & TRACK

TITAN BOXING FV REEL 9642 / V307

Range of reels with an exceptionally thick (6mm) central shaft, a bronze main gear and a multidisc drag with carbon washers. Every aspect of the reel has been built to cope with the rigours of targeting big catfish. Whether you are trolling, vertical jigging, lure fishing or buoy fishing there is a reel that will suit your style of fishing. Tough, smooth engineering keeps you in control when battling big cats. The perfect complement to our Titan Boxing rods!

- Plus points:
- Body and rotor in light and strong composite material
 - Stainless steel central shaft
 - Reinforced internal structure (pinion cast in bronze)
 - Large capacity aluminium spool
 - Metal line clip
 - S-curve spiral oscillation system
 - Long life pick up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Powerful (14kg) multidisc drag system with carbon washers
 - "Suregrip" handle

		Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings
TITAN BOXING FV REEL 500 61348		0.50mm/ 140m	573	4.1/1	80	1	5
TITAN BOXING FV REEL 800 61349		0.50mm/ 250m	674	4.1/1	95	1	5

TITAN TRACK FV REEL 9641 / V307

Great looking reels designed for extreme fishing situations and tackling the biggest of specimen fish. The two sizes will cover all modern catfish tactics from vertical jigging to fireball fishing, big lures to drifting with live baits. The reels are compact and light but deceptively powerful and more than a match for the hardest fighting cats. For such powerful specialist reels they are also great value for money and sure to be a big hit amongst dedicated catfish anglers!

- Plus points:
- Compact design
 - Body and rotor in light and strong composite material
 - Stainless steel central shaft
 - Aluminium "LC lips" large capacity spool
 - *designed for a more fluid line transit over the spool lip for better casting performance.
 - Metal line clip
 - S-curve spiral oscillation system
 - Long life pick up spring
 - Consolidated bail arm
 - Anti-spin line guide
 - Powerful (10kg) progressive micrometric drag system
 - One touch single button fold away handle
 - "Suregrip" handle

BOXING

These new additions to our TITAN rod ranges incorporate the latest design improvements recommended by our expert field testers. The handle has been re-designed for extra comfort when playing fish and maximum manoeuvrability. Each blank has been designed to absorb head shakes and lunges from hard fighting fish whilst still have enough back-bone to control specimen fish and get them beaten efficiently. The key words describing these rods are pleasure, comfort, power and control. Enter the ring with our BOXING rods and win every battle with a specimen fish in a single round! SIC twin legged rings with double whippings, IM carbon blanks, high density EVA handle and FUJI reel seat.

TITAN BOXING 9664 / C31201

Great rod designed specifically for dead bait styles. The length, power and weight make for a versatile rod that can also be used for classic vertical fishing with lures and livebaits and even canoe and float tube fishing. The semi-parabolic action and progressive power through the blank make playing big fish simply exhilarating. The blank is both sensitive and responsive and this is the ideal rod for any angler after adrenalin pumping catfish action!

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-200 JAB 51990		1+1	150	200	213	40-120/ Max 160

TITAN BOXING 9665 / C31201

Single piece short rod designed principally for boat fishing but the short handle lends itself to float tube angling as well. Powerful semi-parabolic action that soaks up lunges from big fish. The tip is very sensitive – perfect for methods like fireball fishing. A huge reserve of power can control hooked fish on their first runs. Despite its low weight the rod can be used for catfish angling on long drifts working lipless lures under the boat. One other advantage of being such a short rod is you can easily undo any accidental tangles on your braid around the tip ring- common if you like to hold the line in your hand whilst fishing. Single piece, Low Ryder SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-170 DIRECT 51998		1	170	170	258	80-250

TITAN BOXING S-200 RING 9500 / C31201

This is the rod for close range fishing. Great for fireball fishing whilst drifting from a boat or a float tube. Designed to handle hard fighting fish at close quarters! SIC low-ryder rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
RUTE TITAN BOXING S-200 RING 51992		1+1	139	200	294	30-140

TITAN BOXING S-215 INLINE RING 9561 / C31201

In-line version for anglers wanting to reduce friction from braid rubbing on rod rings every time you get a take.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-215 INLINE RING 51993		1+1	149	215	325	80-200

TITAN BOXING ROD 9562 / C31201

Two souped-up rods with the perfect action for vertical fishing for big cats or power fishing with big lures. The blanks have extra juice built in to tackle the biggest, hardest fighting Wells with total authority. Low-ryder SIC rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING ROD S-210 PUNCH 51994		1+1	149	210	306	100-300
TITAN BOXING ROD C-210 PUNCH 51995		1+1	149	210	308	100-300

TITAN BOXING 9666 / C31201

The BOXING HOOK 3 – 230 is a dedicated lure rod that is light, easy to handle but with plenty of power in reserve. Designed in two unequal sections – (tip and butt) to get the optimal curve in the blank and build in the extra power in the butt section. All materials are of the highest quality. XXL carbon, double whipped profiled SIC rings. The ultimate rod for casting plugs like Gigan 65F, Gappa 130F or Kaju 115, spoons and big spinners. The action will also handle soft baits. Superbly versatile and equally at home boat or shore fishing.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-230 HOOK 51972		1+1	174	230	297	60-220

TITAN BOXING S-225 UPPERCUT ROD 9563 / C31201

This rod will give you the edge you need to catch specimen sized fish. Extremely powerful blank guarantees total control. Capable of handling large livebaits. SIC Low-ryder rings.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-225 UPPERCUT ROD 51996		1+1	154	225	376	150-400

TITAN BOXING S-230 SHOOTING ROD 9564 / C31201

It is great fun to catch catfish in amongst other predators with lighter but reliable tackle. This is exactly what the 230 SHOOTING is designed to do. The perfect rod for lure fishing when predators are grouped tight in certain areas such as faster flows when they need oxygen or in slacker water during flood times.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN BOXING S-230 SHOOTING ROD 51997		2	120	230	254	40-120

TRACK & MAXCAT

TITAN MAXCAT 9661 / C31201

We have worked hard creating a value for money range of rods without compromising on the essential qualities needed to target catfish successfully. Powerful progressive action that will control very big fish. The rods are versatile and cover most techniques used to target big cats – lure fishing, livebaits, drifting etc. Carbon composite blank. Twin legged SIC rings. Enclosed ceramic tip eye. Ergonomic handle with anti-slip grip. Fighting pommel.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TITAN MAXCAT 210 57841		2	113	210	338	80-250/ Max 300

TITAN MAXCAT 270 57843		2	141	270	421	80-250/ Max 300

TRACK FIGHT 9662 / C31201

New generation TITAN rods built for tackling big catfish! Powerful and responsive, the blanks are perfectly balanced and can be used comfortably for hours. This technical range of rods has been developed for targeting catfish with a variety of techniques using live baits and lures. MI carbon blanks. SIC twin leg rings. Enclosed ceramic tip eye. Ergonomic mixed material handle – high density EVA and reconstituted cork. Fighting pommel.

		Section	Size (cm)	Length (cm)	Weight (g)	Power (gr)
TRACK FIGHT 210 57861		1+1	157	210	258	50-180/ Max 250

TITAN LURES

ROLLCAT 70G

9223 / J347

Thanks to its distinctive curves the ROLLCAT twists in the water with an exaggerated rolling action. Catfish can't help but take notice of this lure especially if the sun catches the bait giving off enticing flashes. Casts really well which helps cover plenty of water when looking for fish. Hook 5/0.

SPINCAT 60G

9221 / J347

This turning spoon gives off strong vibrations and displaces loads of water - sure to attract catfish chasing an easy meal. Designed to be cast long distances the SPINCAT is up to tackling big specimen catfish. Protected by 1.6mm stainless steel, hook size 5/0.

SPINCAT TWIN 60G

9222 / J347

Identical design to the SPINCAT 60 but with 2 blades which give off tighter and faster vibrations. This helps vary the signals from your lures which will get extra bites if the fish are proving difficult. Stainless steel protection and a 5/0 hook.

NYLON

Top of the range technical nylon which will result in longer smoother casts and better detection of bites, improved line control and more direct contact with our baits. Highly visible thanks to fluoro colour treatments you can easily follow each movement of your bait and pick up very subtle takes-on the drop and sideways pick ups. The surface coatings are smooth and the line has fantastic casting qualities adding metres to your casts. The stretch has been controlled to keep you in direct contact with your baits and improve bite detection through touch.

«PIKE ADDICT» LURES

BUCK PIKE

9226 / J344

Fitted with a fingernail type blade that stays spinning even on very slow retrieves. The Buck Pike is invaluable for any slow prospection for pike. Bucktail teaser with tinsel flash. Translucent red target eye for fish to home in on set above the hook. Stainless 1.2mm shaft.

BUCK PIKE TANDEM

9227 / J344

Tandem version of our BUCK PIKE lure with two nail shaped blades of different sizes that give a complex set of vibrations that provoke takes from pike that are not interested in standard lure signals. Ideal for fishing slowly past obstacles. Teaser in bucktail with tinsel. Shaft made from 1.2mm stainless. Red translucent target ball gives perusing fish a focus to attach right at the level of the hook.

FEATHER PIKE N°1

5365 / J344

The combination of a big willow leaf shaped spinning blade and a bulky feathered teaser make this lure look just like a big prey fish big enough to interest the largest pike! Brightly contrasting colours are the best for provoking aggressive pike attacks.

LA NATURE POUR PASSION

BUCK PIKE TWIN

9228 / J344

This is a lure that gives off plenty of vibrations! The combined action of the twin blades displaces plenty of water and gives off powerful vibrations that won't escape the attention of nearby predators. Use the parachute capability of this lure to give short stops to your retrieves before picking up the rhythm again. These falling phases, slowed down by the twin blades, are often the triggers for an attack! Teaser in bucktail with tinsel. Shaft made from 1.2mm Stainless. Red translucent target ball gives perusing fish a focus to attach right at the level of the hook

SPINNERS

Unlike many of the cheap spinners that flood the market the Rapid range have been extensively field tested and developed to produce the perfect reflectivity in a lure. Alain Foulon has put his considerable knowledge of ultra light spinner fishing into the development of this lure which has a finger nail shaped blade which spins fantastically and gives off powerful vibrations. The triple hook is fitted with a fly to direct an attacking fish to the hook itself.

 LA NATURE POUR PASSION

LANDING NETS

GAMME MASTER

Landing nets made from 6mm PE mesh. Extremely versatile nets that are light and easy to store. Can be used for trout, lure fishing and even pole fishing... these nets will do it all!

P&M MASTER 2 NET

9535 / M340

Telescopic two piece handle with fixing screw to adjust the length. Metal fixings and folding net head.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
S 45602		70	1.50	35	6mm	40x40
M 45603		90	2.00	40	6mm	50x50
L 45604		110	2.50	50	6mm	60x60

P&M MASTER TROUT NET

9536 / M340

Extremely light racket type net. Comes with an elastic cord and fixing clip.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
S 45605		65	0.65	30	6mm	45x30
M 45606		70	0.70	32	6mm	50x40

GAMME SPECIMEN

Top quality landing nets that cover most fishing situations. Rubberised mesh helps the nets last longer as hooks don't get caught up so easily and are kinder to the fish and their scales. This range covers every situation from trout angling, general predator fishing and targeting specimen sized fish either roving, from fixed swims or from a boat.

P&M SPECIMEN TROUT NET

9530 / M341

Racket type net where the net is shaped to safely hold your catch lengthwise.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
M 45586		61	0.61	30	5x5mm	40x30
G 45587		71	0.71	35	5x5mm	50x40

P&M SPECIMEN 2 NET

9539 / M341

Tough landing nets designed to handle big fish. Two different handle lengths are available to suite either boat or shore fishing. Light grey rubberised mesh for extra discretion so as not to panic fish as they are drawn to the net.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
BOAT 45575		60	1.10	55	15x8mm	60x50
BANK 45576		90	2.50	55	15x8mm	60x50

P&M SPECIMEN 3 NET

9537 / M341

The aluminium handle is made from 3 telescopic sections to reduce the packed length but still give you decent reach when you need to get a fish in the net. Metal fixings and folding head.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
S 45571		54	1.50	30	6mm	40x40
M 45572		69	2.00	40	6mm	50x50
L 45573		82	2.50	50	6mm	60x60

P&M SPECIMEN COMPACT NET

9533 / M341

Landing net with folding head. Ultra compact design so it fits easily in the locker of a boat. Once opened the net is very wide and deep so will take the biggest specimen fish. Folding metal fixings and aluminium handle.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
45347		129	1.92	65	12x5mm	70x60

P&M SPECIMEN TROUT 2 NET

9531 / M341

These racket type nets come with a short telescopic handle so you can get fish that otherwise would be just out of reach (on high banks or in deeper pools etc.).

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
M 45588		72	0.80	30	5x5mm	45x35
L 45589		89	1.10	35	5x5mm	50x40

P&M SPECIMEN 2 TGM

9538 / M341

Oversized net capable of handling the biggest specimens! Extra wide opening and extra depth. Strong aluminium 2 piece telescopic handle with adjustable screw. We have used light grey rubberised mesh to avoid spooking fish at the net.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
45574		110	2.50	55	15x8mm	65x58

GAMME MONSTER

Monster by name monster by nature! These big nets are designed for anglers after record sized fish! Extra deep nets with XXL openings that will take huge fish with ease. The design is tough and reliable so you can hold fish without worrying whilst you get your camera gear ready for a few catch shots! Metal fixings, aluminium handle and wide diameter rubberised mesh.

P&M MONSTER XXL FOLDING NET

9532 / M341

Oversized strong fixings secure the head to the handle. Floating foam has been used on the frame of the head to make it easier to move in water.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
45387		98	1.65	80	12x9mm	85x70

P&M MONSTER XXL SECURE NET

9540 / M342

The head attaches to the handle by an ultra-solid fixing system. light grey rubber mesh for total discretion in the water so as not to panic big fish. Metal catches and aluminium handle.

		Size (cm)	Length (m)	Depth (cm)	Ø Mesh	Landing net Size
45221		93	2.50	65	15x8mm	80x70
