PERFORMANCE CONCEPT / N.F.S

N.F.S or Natural Food Source is a complex formula of highly digestible ingredients and derivative meals. N.F.S is full of crunchy shell like ingredients to replicate the carp crunching effect when eating crays and other freshwater shell fish etc. Its slightly salty taste is given from a combination of FISH, MEAT and CRAYFISH meals. It is packed full of various other naturally sourced ingredients that will help naturally replicate Amino signatures that the carp find irresistible. Due to its very fast digestibility, N.F.S will sustain longer periods of feeding as the response from carp is almost a gorging effect. Once in the water N.F.S will immediately start to leak off food signals and attractors from its 100% natural ingredients. Being a Natural bait it will mean N.F.S will lend itself to long sustained baiting approaches and campaigns.

This very successful boilie in the concept range of baits has been producing well for the Starbaits team field testers, culminating in catching some huge carp from varied waters. Packed full of pure fish meals and an advanced Green lipped muscle derivative that is water soluble creating a boilie that is highly irresistible to carp. Combined with other natural shellfish meals, yeasts and livers this creates a very high quality food source that will leak off many feed inducing triggers. This advanced GLM offers anglers a new concept that once eaten by the carp they simply become pre occupied on the source encouraging further investigation to find the boilie. With such tremendous feeding triggers this boilie lends itself to big baiting campaigns. Complete with matching products like pop ups and dips the GLMarine concept offers anglers the chance of big catches and memorable days.

PERFORMANCE CONCEPT / IF 1

When you smell this boilie with its traditional fish catching aroma you will instantly feel it's a winner. Packed full of the usual fish catching ingredients like liver and yeast etc this bait is packed with new hidden extras, superb soluble meat meals and ingredients both aquatic and botanical coupled with super ground spices and natural sugars. The livers used in this bait are presented from soluble powders, resourced extracts and liquid compounds, there is an element of winterised oils and a presence of Betaine. You can use this boilie all year round and it will respond to heavy mass baiting due to the amount of soluble liver that will be present in the lake from the boilie. With the inclusion of several meat organ meals and emulsions this bait is classed as a full 100% meaty boilie that carp respond to dramatically. Look out for a lot of big carp caught using this bait.

PERFORMANCE CONCEPT / SPICY SALMON

Another great bait developed and tested by the STARBAITS team. This new generation bait has been developed to meet the nutritional needs of carp. Hyper soluble fish concentrates, vitamins . salts and other seafood extracts have been blended to create a bait that works particularly well over long baiting campaigns. So good is this for carp that they end up half addicted to these baits!

Mixing these base ingredients with cryo ground spices (a process that keeps the full flavour of the spice intact) creates an interplay between appetite inducement and easy digestion. These baits also work fast and can be used for spot fishing.

A high percentage of top quality salmon flours boosted with Robin Red H simply confirm the quality ingredients being used here. These ingredients work together to mimic closely the triggers and tastes of natural food. Add to this a fantastic crunch texture and you have a bait sure to be a winner over the years to come!

PERFORMANCE CONCEPT / RS1

RS1 brings together a combination of the most devastating carp catching ingredients. No one can doubt the performance of Robin Red (Haiths) and Crayfish meal extract (Starbaits). Both these ingredients have been crafted together along with some of finest complimentary ingredients creating a pure carp catching machine of a bait. During tests of this bait anglers reported outstanding catches often quoting multiple catches when normally a single caught carp was the normal occurrence. RS1 is a combination of Robin Red and crayfish meals in association with various vegetable extracts and refined mineral compounds generating a pure carp catching machine.

Signal is another completely natural bait in the Performance Concept Range. Signal boilies continues to offer a superb soft palatable food based bait. Packed full of natural ingredients found within the carps freshwater environment and food table. The boilie has been developed using large particles such as Oyster shell and Egg shell to optimise the crunch factor when the carp eat the boilie. Ingredients like crayfish meal, bloodworm extract or gammarus meals, water soluble proteins and various forms of salts and spices have been blended to offer a boilie that's as near to the carps naturally occurring food supply as possible. We are so impressed with the levels of naturally occurring items within «Signal» we like to think of this boilie as an «Original Food Source» for carp. Signal contains NO artificial ingredients or flavours and is crafted from 100% naturally derived products. Signal has proved to be an all year round boilie showing superb field testing results to those lucky enough to have used some.

PERFORMANCE CONCEPT / SK 30

SK 30 has been formulated using a stringent selection of the highest quality heat resistant fishmeals, soluble fish proteins and marine extracts -in particular squid and krill extracts. As SK 30 has a soft palatable, self coloured appearance it enables high levels of leakage from the soluble proteins and amino compounds making it extremely attractive to fish. SK 30 has balanced levels of natural oils which help rapid digestibility once consumed; this promotes heavier feeding situations and healthy fish. SK 30 has shown during testing to have extraordinary results during heavy baiting-lending itself to pre baiting campaigns.

Demon Hot Demon is one of the new breed of Performance Concept Boilies developed to provide carp with all their nutritional needs. There are only the highest grade natural ingredients used with no artificial colourings or flavours. Hot Demon has proved through long term exhaustive field testing to be a tremendous fish catcher with outstanding cold water results making it a perfect winter boilie. The bait is rich in pre-digested fishmeals and low temperature water soluble fish and spice oils, matched exclusively with selective crushed spices, vitamins and mineral extracts creating an appetite stimulating food source.

PROBIOTIC / PEACH & MANGO

Another superb carp catching bait from the Probiotic range. A sweet delicate smell of tropical fruits with a hint of something behind it (N-Butyric Acid) A delicate pink colour that matches well the aroma. The ingredients used to formulate this boilie are naturally derived from yeasts, liver, crushed organic material and seeds, high mineral meals along with oils, betaines and of course N-Butyric Acid. Pro Peach is so high in nutritional value it will easily be recognised as a food source. Because of its sweet pungent aromas the Pro Peach will work well instantly but due to its high food value it will lend itself to long term baiting campaigns. Probiotic-good for them means good for you.

What a carpy blend Maple syrup and Golden syrup make, over the years many carp have been caught using these syrups, both are high in sweet sugary taste. These two syrups have been blended to create a subtle balance that mixed with the high quality general ingredients behind Probiotic boilies, will give a very successful carp catching bait. Ingredients like Yeast, liver, Betaine and other selective feed inducing ingredients make this bait an all-round winner, a must for those long term baiting campaigns and able to create that fast feeding response that creates a quick hitting bait for those quick short sessions. A super bait with a smell and taste full of a rich sweet creamy aroma. Pro-biotic Good for them is good for you.

PROBIOTIC / PRO PINEAPPLE

Pro-Pineapple continues to provide a highly nutritional recognisable food source for carp. Following the lines of all Probiotic boilies, Pro-Pineapple is packed full of natural ingredients and derivatives like, Yeast's, betaine's, liver's, minerals and oils that carp need and find irresistible. High quality ingredients are stringently selected to keep all the Probiotic range at the peak of performance. By mixing these high quality feed ingredients with comprehensive attractors make the Pro-Pineapple an extremely attractive boilie to carp.

Pro-Pineapple lends itself confidently to long term baiting campaigns, using the delicately fragranced dip/glug the Pro-Pineapple can give instant success. During testing some serious catch rates were achieved consistently.

PROBIOTIC: Good for them is Good for You!

Pro-Biotic takes a new turn into the fish category, keeping the Pro-biotic nutritional goodness and stringently selected ingredients like Yeast, Betaine, Liver, salts, and selected oils, pro-Monster adds selected fish ingredients and various successful crab derivatives. This pungently fragranced bait still offers the fish a highly nutritional food source that carp will look for. Pro-Monster works exceptionally well both long term and instantly. During intensive testing in many countries the Pro-Monster appeared to be very big fish selective and showed some exciting captures, it was found that being crushed within a solid PVA bag was a tremendously successful method, the crushing intensified the attractors and feeding triggers which carp zoned in on very quickly. A good all round bait that offers big fish action. PRO-BIOTIC: Good for them is good for you!

PROBIOTIC / PRO COCONUT

In the advancement to keep Pro-Biotic baits at the pinnacle of bait design we have moved this boilie into the super-visual category. Keeping to the philosophy that Pro-Biotic baits offer nutritional goodness for the fish by stringently selecting high quality ingredients from the finest supply, ingredients like yeasts and livers, various salts and spices with increased use of refined digestible oils. Pro-Coco-Vap has the added ability to blanket the lake bed in your baiting campaigns with a highly visible white covering that carp have found irresistible to investigate. In shallower water the hi-viz effect of the white colour will increase the light refraction and pull all fish to investigate the change where upon the effective feed stimulants and hunger triggers help the fish to investigate further and encourage them to gorge on the food. The subtle enhancement from the various ingredients from the coconut family and that creamy essence provided by the flavour oils of Evaporated milk have proved the huge down fall of carp during our vigorous testing. A great all round boilie for any weather conditions and for all baiting techniques from the huge dumping pre-baiters to the careful and delicate PVA baggers. A complete range of pellets, dips, pop ups and different sized boilies will make this Pro-Biotic bait a real winner.

FEEDZ

This new baiting concept from Starbaits gives you the opportunity to use boilies designed as additional baiting feed, all the boilies contain either seeds, nuts or other particle ingredients in various forms. The baits have no artificial aromas or scents and smells only of the ingredients inside its make up. These boilies will breakdown at the same rate as any other boilies from the Starbaits stable, they are not quick dissolving or fast breakdown, they will however absorb water and quickly send out natural attractors and food signals all around them. They are very useful when you want to bait with Maize or Hemp etc and other nuisance fish attack your baiting mix, obviously it is harder for the smaller fish to take on the boilies. When the carp start to feed on FEEDZ there will be a considerable amount of seeds and nuts etc that will pass straight through the carp like the tiger nut scenario and also aid your baiting technique. Use feedz successfully with any other boilies you wish to. Feedz if you desire can be used as hook baits and will last on the hair. If used on the hook try glugging the hook bait in one of the many Starbaits liquid additives.

GRAB AND GO GLOBAL

G&G Global boilies are boilies that can be used absolutely anywhere to great effects. They are packed full of quality ingredients and have been matched with popular feed inducing stimulants and attractors to create a strong feeding response amongst carps.

Because of the G&G Global's high digestibility, and the chosen ingredients used, it's an extremely palatable food source for carps, which will in turn create longer feeding spells making the carp easier to catch. G&G Global lend themselves to serious, high input baiting campaigns in any climate, hot or cold.

A large bed of these boilies will leak off a soft, comfortable level of attractors encouraging the fish to investigate the source. Used with a matching dip/glug G&G Global makes an excellent stand-alone single hook bait.

PREPARATION X / TRIPPLE X PELLETS

Triple XXX Pellets means Attractive, Nutritional and Versatile, the 3 X's. All the flavours used in these pellets have been selected to complement all other bait strategies from method fishing to fishing over boilies. Only the finest ingredients and liquids have been blended together to make this excellent feed pellet, with high level of feed inducing attractors used in these pellets all the fish will find them attractive and feed well on them, great for loose feeding, in PVA bags, ground for powdered pellet or scalded for method mixes. Sold in a larger volume so heavier feeding can be presented. High quality feeding pellets.

PREPARATION X / SQUIRTZ

PREP X SQUIRTZ

0469 / A115004

Squirtz's are a selection of ingredients and flavours to create a PVA friendly liquid that will increase attraction of whatever it is used on. Because of the blended formulation of secret ingredients the squirtz liquid will increase feeding stimulation and improve the attention paid to the baited area by the fish. Use with stick mixes, pellets, method mixes, mix ground baits with squirtz instead of water, try as a glug on both boilies and plastic artificial baits or just use as a soak in your bag of boilies. Because its PVA friendly use direct in a solid PVA bag or pour over mesh PVA sticks.

PREPARATION X / EAZI SPOD MIX

The ready-to-use spod mix! The EAZI-SPOD concept is simple. To offer you a spod mix straight from the packet without the hassle of having to prepare it yourself.

All the EAZI-SPOD mixes have been prepared from first class ingredients that have been selected, ground and prepared separately before being blended into the final mix. Easy to use - each of the mixes only needs a quick soaking before being ready to spod!

EAZI SPOD READY SALTED

5198 / A1801

READY SALTED SPOD MIX has been enriched with different salt minerals such as cooking salt. Salt has only recently been recognized as an excellent fish attractor which will draw fish in from a surprisingly long distance. Once in the feed zone carp will stay on the grains and particles which make up the rest of this spod mix.

EAZI SPOD READY MILKY EXPLOSION

5199 / A1801

MILK EXPLOSION SPOD MIX is based on traditional spodding ingredients to which we've added cream and dairy based attractors to boost their appeal.

		Weight (kg)
5KG 59406		5

EAZI SPOD READY NATURAL SEED

5200 / A1801

NATURAL SEED SPOD MIX is the simplest mix in the range. Based on ground hemp seeds with a mixture of other particle baits, this is the perfect base spod mix for adding boilies and pellets.

		Weight (kg)
5KG 59407		5

EAZI SPOD READY STICKY SWEET

5201 / A1801

STICKY SWEET SPOD MIX has all the base ingredients and additives needed to bring a sweet taste and smell to your feed. Ideal on soft or muddy bottoms as the sweetness encourages the carp to actively bottom feed.

		Weight (kg)
5KG 59405		5

ADD IT / SPOD CLOUD

ADD IT SPOD CLOUD GENERATOR

8540 / A1219

The Spod Cloud Generator is a dye mixture that you stir into your spod mix to produce a clouding effect as the spod hits the water, a devastating aid to Zig fishing if used alongside neutral buoyant ingredients, use in stick mixes also for a clouding effect

		Inhold (g)	Color
GREEN 350GR 20386		350	Green.
YELLOW 350GR 20387		350	Yellow
WHITE 350GR 20388		350	White

ADD IT / ADD IT LIQUID

N ADD IT COMPLEX OIL INDIAN SPICE

500ML

1871 / A1219

A unique 100% natural ingredient that can be used in a multitude of ways. Add this oil to either your base mix of paste base at a rate of approx. 10-20ml per KG of mix. This will increase both the aroma of the mix and the palatability. Indian Spice oil can also be used as a dip or soak or placed directly in a PVA bag, if you wish to soak your baits then try adding to your baits about 10 days in advance. When cooking particle try adding this Indian Oil to the pot after the boiling process has finished making sure to regularly stir as the particle cools. Full of Fish Oils, essential oils and other ingredients like unsaturated fatty acids, make this oil and all round winner.

		Vol. (ml)	Color
20047		500	Red.

ADD IT LIQUID BLOODWORM

1340 / A1219

		Vol. (ml)	Color
500ML 07870		500	Red.

ADD IT LIQUID MAGGOTS

1341 / A1219

		Vol. (ml)	Color
500ML 07880		500	Brown

ADD'IT HEMP OIL

8534 / A1219

a nutty smelling and tasting greeny brown liquid, cold pressed hemp provides the freshest oil, superb in bait manufacture, method mixes or as a binder in a stick mix. Carp find hemp oil irresistible. Try adding a few mls to you cooked particle, it will create the perfect attraction when spodding and will flatten the water surface even in the roughest of conditions.

		Vol. (ml)	Color
500ML 03794		500	Dark Green

ADD'IT SALMON OIL

8536 / A1219

Scottish Salmon oil is a basic ingredient in many pellets and commercial baits, it is full of protein and minerals and will increase the food value of boilies and stick mixes it is added to. Another oil product that works better in the warmer months.

		Vol. (ml)	Color
500ML 03800		500	Orange

ADD IT STARMINO

1345 / A1219

		Vol. (ml)	Color
500ML 07887		500	Brown

ADD'IT LIQUID LIVER

8537 / A1219

a pure thick liquid liver that can be used within any baiting application or just neat in a PVA bag. Liquid liver is a thick pungent smelling liquid that carp find irresistible. it will enhance any bait.

		Vol. (ml)	Color
500ML 03802		500	Brown

ADD'IT SARDINE OIL

8535 / A1219

Sardine oil is one of the leading liquid ingredients to add to a fishmeal base mix, method or stick mix, it increases the food value of anything its added to but is best used in the warmer months, try pouring 10ml of oil over 1kg of boilie to increase the attraction levels.

		Vol. (ml)	Color
500ML 03796		500	Brown

ADD'IT ROBIN RED LIQUID

8538 / A1219

Take the famous Robin red ingredient and imagine it as a PVA friendly liquid, that's exactly what this fantastic product is, all the colour attraction and spiciness of Robin Red in a bottle.

		Vol. (ml)	Color
500ML 03805		500	Red.

ADD-IT LIQUID HYDROLYSAT KRILL

9201 / A1219

The finest Atlantic krill is used to harvest the purest form of hydrolysed Krill protein. Easily dispersible in water making a superb addition to any bait. Can be used in any volume.

		Vol. (ml)	Color
500ML 09502		500	Orange

ADD IT LIQUID CSL

9202 / A1219

A very clean preparation collected from the steeping of maize. Packed full of protein's, mineral's and amino compounds that has proved it's self over the years as a great carp catcher. Use as a boilie ingredient or to enhance a Dip/Glug.

		Vol. (ml)	Color
500ML 09510		500	Brown

ADD-IT LIQUID MOLASSES

9203 / A1219

Molasses is a by-product of sugar cane or sugar beet extraction. Very rich in vitamins, minerals and carbon hydrates and totally irresistible to carp! Can be used in boillies, as a dip or as a soak for seed baits.

		Vol. (ml)	Color
500ML 09520		500	Black

AD IT LIQUID SPICY LIVER

9204 / A1219

Put two timeless classics together and create an awesome force, the chilli and spices release more of the derivatives from the liver and add a little extra to the bait, carp love liver and they love spices, enough said!

		Vol. (ml)	Color
500ML 09550		500	Red.

ADD IT LIQUID CRAYFISH LIQUID

9205 / A1219

Like Krill the extracted liquid from crayfish is packed full of attraction, vitamins, amino's and feed inducing triggers, the carp chase and eat crayfish in their natural environment so this extract can only significantly improve the carp's response to your baits.

		Vol. (ml)	Color
500ML 09560		500	Brown

ADD IT LIQUID HEMP JUICE

9209 / A1219

A pure bottle of hemp is the only way to describe this amazing liquid. Cooked hemp with added extra thick hemp oil blended like a milk shake. A real hemp smoothie, add to method, stick or spod mixes to give them that extra hemp boost, pour straight into a solid PVA bag or just use it as a dip. Set to be the No1 in liquid foods.

		Vol. (ml)	Color
500ML 09586		500	Dark Green

ADD IT / ADD IT BASE MIX

A selection of boilie base mixes in different styles like bird food, fish meal etc. Each mix is stringently prepared so you don't have to mix loads of separate ingredients together, it's all done for you, just add your chosen liquids like flavours, attractors and sweeteners with the eggs and mix into a stiff bread like dough, then just roll out your desired size boilies, boil for a few minutes and leave to dry. Perfectly made boilies which are as good as anything you can buy and at a lower homemade price, nothing feels as good as catching a personal best carp on a bait you've made yourself.

ADD IT / STARBAITS BAIT ADDITIONS

SB ESSENTIAL OIL

1616 / A12130

Often obtained by distilling, these natural plant and fruit extracts work differently in water. Since they have a lower density than water, they are released from the bait and disperse reaching all layers of the water. These highly concentrated natural products must be used sparingly and kept out of the reach of children. Available in 20ml bottles.

		Vol. (ml)
GARLIC 25291		15
ASA FOETIDA 25301		15
BLACK PEPPER 25311		15

SB MEGA SWEETNER

1629 / A1219

Liquid sweetener from a combination of natural sugars and an intense sweetener. Add to your ingredients (eggs) to improve the taste. Use 1-2ml per 500g to make boilies and 1 dessertspoon per 500g of seed/particles.

		Vol. (ml)	Sweet/ Salty
50ML 26801		50	sucré

SB OIL EMULSIFIER

1635 / A1219

Widely used in the farming industry, this molecule buster as it's known, separates oily acid molecules using hydrophobic (water-repellent) and hydrophilic (absorbent) elements to help release the attractants found in oil-based flavours into cold water (essential oils and complex oils). Available in 100ml bottles. Use 2-5ml per 500g mixed with eggs to boost your liquid additives.

TUNGSTEN SINKERS

1782 / J105

These sinkers are made from Tungsten giving them sufficient weight to hold line or hook links hard on the lake bottom preventing rig rise or looping, a great advantage with today's highly alert carp.

		Color	Qty/pack
L 39545		Black	9
XL 39546		Black	9

TUNGSTEN TAPERED BEADS

1783 / J105

These tapered beads are more in a shape of a tear drop, they have a large bore hole completely through which lends itself to sliding over tubing and thicker lead core. The large bore will also sit well over swivels etc and sit neatly on the barrel. The added weight of the tungsten helps to keep everything pinned down tight on the lake bed.

		Color	Qty/pack
15451		Black	15

TUNGSTEN ANTI TANGLE SLEEVES.

1784 / J105

Made to the same dimensions and specification as normal rubber anti tangle sleeves but with the added benefit of tungsten to keep everything pinned and weighted to the lake bed.

		Color	Qty/pack
39548		Black	10
39549		Black	10

BOILIE GUARD

2004 / J105

Boilie Guard is a low temperature shrinking plastic tube that will envelope your hook baits creating a transparent guard against nuisance fish breaking the bait down. Use steam carefully to reduce the plastic and grip the boilie. Available in 2 sizes. Large will take baits up to 28mm in diameter and the small will accommodate a bait of 20mm in diameter. When steam is applied the large Guard will shrink down to approximately 15mm and the small Guard will shrink to approximately 11mm. Laying the guard out completely flat the large Guard is 45mm wide and the small is 34mm wide.

		Color	Qty/pack	Ø mm

POP UP FAKE CORN

8798 / J105

Beautifully formed little corns, in 3 sizes and in 4 colours. Each corn will have enough buoyancy to make your hook bait boilie stand up. They also offer a unique, easy to see, bait for the fish to home in on. Use as a stack for a stand-alone corn hook bait or just as a topper over a boilie. This corn also offers you the chance to use as a soft boilie stop knowing that the hook bait will not travel along the Hair

HOOK LINKS

SUPER FLOSS

5037 / J1003

This new supple braided floss allows you to present your bait in a very natural way. Fish struggle to detect floss because of its absence of density

15LB/20M
39898

25LB/20M
39899

ENIGMA

5034 / J1003

Tight pulled braiding and a fixed coating make this hooklength material perfect for anti-eject rigs particularly for distance fishing. Good resistance/ diameter ratio this is a versatile braid suited to many different venues. Colour green/khaki.

HAIR BRAID

5036 / J1003

Developed to stand up to the rigours of distance casting, this fine, supple braid will give your bait great freedom of movement on a hair. Ideal for discrete whipping along the shank of your hook.

15LB/20M
39939

FIBRE-TEC WEEDY GREEN

7770 / J1003

Fibre Tech is a high-tech, next generation multifilament braid, made from the toughest filament known to man: DYNEEMA. Fibre Tech boasts a superior diameter to breaking strain ratio coupled with great suppleness. This high suppleness allows you to set up the most delicate rigs with smaller hooks. It works a treat with PVA bags or the method feeder, and offers an unequalled level of discreetness. Fibre Tech is available in 3 colours which have been carefully selected to blend perfectly into the vast majority of lake beds, lending your rigs the perfect camouflage.

X CORE

Lead core is widely used for modern rig making. X-CORE helps discrete rig presentation and will mimic perfectly the colour and nature of any bottom by carefully selecting the correct camouflage colouring. The other great plus of X-CORE is because of its diameter and stiffness it acts as an anti tangle too! Available in weedy green and gravel. 25M spools are also supplied with a threading needle.

N FURY

1788 / E1230

A superb mottled Brown/Green line manufactured to give greater abrasive qualities. A very strong line in diameter to breaking strain giving the angler greater confidence in tricky situations. Where extreme snags are met try adding the FURY snag leader to the mainline to give even stronger end game. 1000mtr spools

		Color	Ø mm	Length (m)	Power (lbs)	b.s.(Kg)
FURY 0,28 (1000 m) 41568		Brown	28	1000	13,5	6,15

N FURY SNAG LEADER

1789 / E1230

Fury Snag Leader is manufactured to offer another, higher level of abrasive qualities to allow the angler to have greater level of confidence when fishing in snaggy areas. The greeny-brown colour offers a level of natural camouflage and if used with FURY main line gives you a very refined line set up. Remember to get maximum strength when tying FURY leaders to main lines use plenty of water as lubricant when constructing your knots. available in 50mtrs length and in various diameters:- 0.40mm 0.50mm 0.60mm 0.70mm

		Color	Ø mm	Length (m)	Power (lbs)	b.s.(Kg)

BRAIDED MAINLINE

QUEST BRAID MAIN LINE

9575 / J1002

Sometimes you just want to use a good solid braid with normal braid diameters and good strength ratios. Well Quest braided main line is just that braid. Larger multi strand braids are twisted and braided together to make this round khaki green braid, it is a fantastic all round braid that will keep you in touch with your fish and rigs without any problem. A good performing general purpose braid. Remember always use a finger stall when casting braided mainlines.

		Line cap.	Color	Ø mm	Power (lbs)	b.s.(Kg)

RADAR MARKER BRAID

9573 / J1002

A main line reel braid with the emphasis on marking your swim. Most anglers now that a braid will transmit the feeling of the lead on the lake bed better than nylon line. By using various cores of fine braid and weaving them tightly together we have created a round neutral density braid that will send all the feeling from the lead back through the rod. Because of the round finish and low diameters the braid casts very well as a bonus. Its neutral density means the braid has neutral buoyancy and will when in the water settle gently over weed and debris. Made in a general Khaki green this braid is as near as you can get to using a radar in your swim. Remember to always use a finger stall when casting.

		Line cap.	Color	Ø mm	Power (lbs)	b.s.(Kg)
20LB/300M 62870		300 m	Dark Green	0.20	20	9

OBLIVION REEL BRAID

9576 / J1002

Manufactured as a neutral density, round multi core braid with a matt Khaki green finish. An extremely hi-class reel braid with strength and low diameters allowing the angler to cast great distances and know that the Oblivion Braid will do a strong job. The neutral density creates a neutral buoyancy that will as it takes on water become slightly heavier than the actual lake water. The larger diameters offer tremendous strength when towing out your rigs on those huge in land sea like waters keeping you well connected with your target fish and feeling every knock and turn like it is just in front of you. An exquisite braided main line for the tactical specialist who has high demands from his reel braid. Remember always wear a finger stall when casting braided main line.

		Line cap.	Color	Ø mm	Power (lbs)	b.s.(Kg)
0,17MM/300M 63032		300 m	Green.	0.17	31.5	17

0,25MM/300M 63034		300 m	Green.	0.25	52.8	24
0,30MM/300M 63035		300 m	Green.	0.30	66	30
0,25MM/600M 63038		600 m	Green.	0.25	52.8	24
0,30MM/600M 63039		600 m	Green.	0.30	66	30

FLYING RED SPOD BRAID

9574 / J1002

A spod braid has to have several different characteristics from other main line braids. It should be buoyant so it sits high in the water when on the retrieve and when the spod lands in case you have a run while spoding. It should be bright in colour so you can see it at all times and it wants to have a high strength to low diameter ratio so it flies through the air well and can cope with the stresses applied on a reel braid when casting spods. As the name suggests flying Red is Red in colour and covers all those needed characteristics. Basically a nice braid designed perfectly to aid your spoding. Remember always use a finger stall when casting with braid.

		Line cap.	Color	Ø mm	Power (lbs)	b.s.(Kg)

HOOKS SB6

7996 / E100

The SB6 series is indispensable for both zig-rigs and finer rigs with smaller baits such as grains. Manufactured to the highest quality in Japan and featuring an in-swept point and micro-barb, this hook is incredibly robust given its low diameter. It has all the qualities of the the STARBAITS range of hooks, notably an anti-reflective PTFE coating. A great, versatile hook that you can't afford to be without.

Power+Plus hooks are made from a superior carbon and steel formula giving you unrivalled strength while keeping a refined low diameter and weight ratio allowing delicate balanced rigs with extra force to be made. Power+Plus when you need to hook and hold.

POWER HOOK POWER SNAG

1036 / E103

This is the beast of hooks, super strong, prickly sharp and curved for maximum penetration. A true hook and hold hook.

SIZE 2 34466	
SIZE 4 34467	
SIZE 6 34468	
SIZE 8 34469	

POWER HOOK CLASSIC BOILIE

1037 / E103

A slightly wide gaped hook for stringent self-hooking rigs. A big asset when creating long haired rigs and combination rigs. The super sharp and strong all rounder.

SIZE 2 34476	
SIZE 4 34477	
SIZE 6 34478	
SIZE 8 34479	

POWER HOOK CURVED SHANK

1038 / E103

With a traditional curve across the shank of the hook this shape gives superior hooking characteristic and lends itself to rigs where the hook wants to be pushed away from the boilie on the hair.

SIZE 2 34496	
SIZE 4 34497	
SIZE 6 34498	
SIZE 8 34499	

POWER HOOK CHOD

1039 / E103

A traditional Chod shaped, super strong and sharp hook for creating those stiff rigs and short chod rigs, a slight out turned eye gives the correct position on the hook link knot.

SIZE 2 35272	
SIZE 4 35273	
SIZE 6 35274	
SIZE 8 35275	

POWER HOOK LONG SHANK

1040 / E103

When the fish are hard to pick up or have bad mouth damage then a long shank is the answer, suitable for a multitude of blow back rigs and long hair variations, very strong and sharp.

SIZE 2 35496	
SIZE 4 35497	
SIZE 6 35498	
SIZE 8 35499

ROD PODS / SOLIDZ

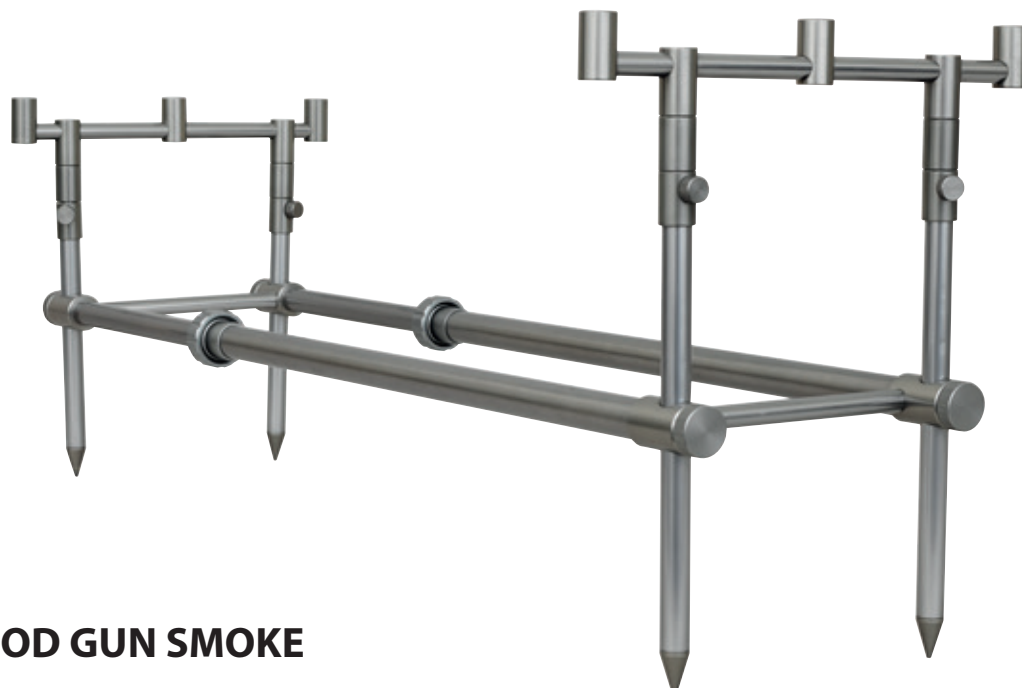

The Solidz pod is a traditional adjustable goal post style system, it is available in various different rod versions or can be used with the rests and alarms connected straight to the bank stick, manufactured from the very strong Alloy compound in either natural gun smoke or Matt Black. The Alloy makes this pod extremely light weight and very rigid. The goal post pod has extending centre bars to increase the length. The pod is very compact unit but can be stretched out to a full metre when extended. Adjustment is simply made with dual locking wheels on the centre bars. The pod is supplied with 2 plus 2 (4) bank sticks and appropriate buzz bars, it has its own zipped protective bag that can take the buzz bars with alarms fitted. A very sexy pod with amazing practicality weighs a super lightweight.

03467

Solidz buzz bars are available individually and sold separately enabling you to make either a 2 rod set up or a 3 rod set up. Each buzz bar is made from an extremely strong Alloy compound and is either finished in natural Gun Smoke or a Matt Black Finish. Each set of buzz bars has been designed so the rods are very slightly splayed and look great. These buzz bar designs match that of the bank sticks and all pods in the Solidz range.

ROD PODS / ROCK POD EXPERT

The Rock series of pods is unique to Starbaits, using our own moulded fittings and designed cam actions you can fish confidently that any pod in the range will do the job you ask it to with a professional feel and stylish looks. The absolute brute in the range of Rock pods has to be the Rock Expert pod, it is everything that the Rock Tiny pod is but supplied with an extra-long, adjustable centre manifold poles and longer Rock bank sticks. The additional length in the centre manifold poles and bank sticks enable the pod to be used with the front section very high in a fashion needed for fishing those huge inland sea like waters. Adjusting the front bank stick boss so the sticks face back towards the rear offers the perfect angle when the pod is used in extremely high positions at the front. For even higher elevation needs use the longest Rock bank sticks available as an extra. Supplied with 2 plus 2 (4) long Rock bank sticks and a set of Traveller buzz bars, all in a cloth bag.

ROD PODS / ROCK POD TINY

The Rock series of pods is unique to Starbaits, using our own moulded fittings and designed cam actions you can fish confidently that any pod in the range will do the job you ask it to with a professional feel and stylish looks. The Rock Tiny Pod takes the Rock pod range into another level with the ability to use as a Pontoon Pod but with an additional leg system that creates a splayed adjustable legged goal post system. Beneath the adjustable dual centre manifold poles sits a front and rear bank stick boss that can be adjusted to any leg angle allowing the SB rock adjustable bank sticks to sit in any position. The bank sticks can be unscrewed from the boss and used in the moulded Y section to create a goal post set up like the pontoon. The Rock Tiny pod is an extremely versatile pod indeed. Completely adjustable in many positions. Supplied with 2 plus 2 (4) Rock bank sticks and a set of Traveller buzz bars, all in a cloth bag.

BANKSTICKS ROCK RANGE

ROCK BANKSTICK DIAM.16

9571 / J1090

An extremely light wide bore (19MM) cam action bank stick with 3/8 BSF head thread. These bank sticks come in various lengths and are made adjustable with the Starbaits moulded cam action adjuster. The wide body of the stick creates a very rigid bank stick when pushed into the ground, although a very light bank stick it can handle a tremendous amount of physical punishment to push it well into the ground. Fished in a black satin finish to match other alloy items within the Starbaits range.

ROCK BANKSTICK DIAM.19

9570 / J1090

		Color	Ø mm	Size (cm)	Length (cm)	Weight (g)
ROCK BANKSTICK DIAM.19/30CM 34932		Black	19	30	30/47	124
ROCK BANKSTICK DIAM.19/50CM 34933		Black	19	50	50/90	140
ROCK BANKSTICK DIAM.19/80CM 34934		Black	19	80	80/150	211

Take the standard rock bank sticks and replace the point with an aggressive spiral ground screw and you have the Rock Power Drill. By simply applying downward pressure will turning the stick the bank stick will effortlessly screw into the ground offering an even greater rigid bank stick. Remember to un-twist the stick to remove from the ground, just pulling on the bank stick to remove it will take extreme effort that's how effective the power drill is.

ALARMS/BITE INDICATION / D TEC

The D-Tec alarm system offers beautiful design with a solid sense of practicality. By manufacturing the bank stick thread into the rear alarm plate in one solid piece of metal, it creates amazing strength especially when fishing in violent bite areas like locked up snags. Fitted with state of the art digital electronics and well thought through angler usability. The radio equipment used within the head enables easy compatibility with the D-Tec receiver, it has transmitting distance suitable for any fishing situation and will travel through thick vegetation. Simple to use 3 way sensitivity ON/OFF toggle switch and simple to rotate volume and tone wheels even in the wet. Highly illuminating, latching LED roller wheels visible on the brightest of days. Cut down on bulky indicator mounts and screw all your swingers and dangles straight into the front of the alarm. A simple butt ring guard so the rod will not damage the roller wheel in fast bite scenarios. No need for additional snag ears, the rod fits snugly into the top rest which has soft touch rubber grips for even the windiest of days. You can use the alarm in the harshest of weathers knowing that the electronics are sitting safe in the main body compartment, simple back removal to change the batteries when they do eventually need replacing. Soft tones and adjustable sound makes the De-Tec alarm a real pleasure to use, even able to turn the sound off in the head with only the receiver bleeping or vibrating. When you pack the alarms away if you forget to switch off the toggle switch the protective rubber case has a built in modifier that will switch the alarm off for your once placed on the alarm.

- Continuous strong thread to body metal casing
- Very strong bank stick connection
- Aesthetically looking
- Locking bank stick nut
- Adjustable volume 0-10 sound
- Adjustable tone
- 3 stage toggle ON/OFF/sensitivity switch
- Power out socket
- Illuminated LED roller Wheel
- Latching LED illumination
- Digital radio Transmission
- Easy compatibility with D-Tec Receiver
- No Vegetation or foliage distortion to radio signal
- Different lashing levels for a run or drop back bite
- Various fluoro coloured roller wheels
- Long battery life
- 5mm thread for indicators
- Ceramic piezo speaker for crisp sound
- Butt ring to roller wheel protection bar
- Anti-slip high protection rubber rod grip
- Sealed internally
- Simple battery replacement
- Soft touch casing
- Rubber protection case with ON/OFF modifier

D-TEC E PACK

MILSPEC BLUE LINE

Starbaits rods are now accepted as High quality efficient carpfishing tools. The range offers you every possible rod need for your every day carpfishing. Starbaits rods have been designed by anglers with an extensive knowledge of both rod design and manufacture, as well as the highest ability in the quest for carp.

With in the Starbaits range we have rods capable of fishing delicately in the margins and extremely powerful rods like the Milspec LCR affording you the opportunity to cast in excess of 200 meters giving you the total range for all eventualities.

MILSPEC LCR BLUE LINE 8784 / C1135

The Blueline range of rods doesn't fail to live up to its name: it's been designed to launch lines out of sight. These robust rods are a development of the famous LCR range. Long casts are facilitated by the 50mm butt ring and the 20mm tip ring. The 18mm Fuji reel seat comfortably accommodates the larger spools of all specialised big pit reels. A Blueline's vast reserves of power from butt through to tip allow you both to fish at ultra-long distance and to tame the biggest carp towards your net. The carbon blank in matt black along with the highly refined finish make for an unbeatable long-distance rod.

M5

The M5+ (plus) is an outstanding performer as well as being elegant to look at. With a matt graphite, carbon weave blank fitted with 3 legged guides finished in high gloss whippings and a DPS reel seat. Available in 3 lengths, 10ft, 12ft and 13ft. Both the 12ft and 13ft rods are all fitted with 50mm butt rings and the 10ft having 40mm. Choose your length and test curve wisely as the more powerful versions in 12 and 13ft rods are more than capable of punching a lead a very long way. Elegance and performance are what stands out from these rods.

M4

Following the Starbaits M-Series of fishing rods the M4 offers the angler a unique feel to the performance of accurate casting and fish playing. A stylish powerful blank with a carbon weaved top cloth to the but section and a smooth ground tip section all in a matt finish. A large DPS reel fitting with the butt ring and 2nd intermediate guide of the 3 legged design with the last 3 guides as single legged fittings which are all wrapped in high gloss epoxy whippings. Another superb member of the M-series range of distinctive rod design.

The name Talos comes from the Greek Mythology of Gods. He was a bronze metal god of extreme power and versatility much like Starbaits Talos reels today. Whether you pick the Free spool version or the standard Talos reel or Spod reel you can be sure you have a strong, well performing reel that can be used in any situation. With high performing retrieves and strong aluminium spools these reels will be a pleasure to use and look at.

FISH CONSERVATION

Without a doubt carp sacking has to be done with greatest of care, sacking carp can be devastating and can lead to death of a carp if it is not done correctly, follow these simple but important steps to safely and successfully sack your catch. There are many different types of carp sacks available but here at Starbaits we have manufactured a variety of different sacks to offer you a safe and carp friendly product, use our traditional style sacks like the Clip sack or the Specimen sack knowing that the carp will be held safe and secure during use, use our Specialist carp sack to offer the carp the highest level of support and more importantly an exceptional amount of water exchange through the sack net material, a massive factor in the warmer months. Please remember that if you have any doubts while sacking that there may be a detrimental effect on the carp's welfare then «DON'T DO IT», look after your fish and you will reap greater rewards.

N DELUXE CAMO CARP HAMMOCK

1812 / M1111

A 6 leg folding frame with adjustable legs and movable feet. The adjustable legs offer enough height so that anglers with back difficulties have an easier time holding the fish for photographs. Fitted with a well padded camouflage, easy wipe hammock mat that will support the heaviest of carp comfortably and securely. Several side pockets and a cover held by Velcro. The folded Hammock fits neatly into the supplied carry bag.

N CAMO UNHOOKING MAT

1736 / M1111

A camouflaged patterned, folding beany mat with 6 ground securing D rings, 2 carry handles and a Velcro strap to keep all tight together. Filled with poly balls to offer a comfortable experience for any fish. An easy wipe fabric in traditional DPM Camo. An all round universal fish mat.

CAMO UNHOOKING MAT
39350

CAMO UNHOOKING MAT XL
39351

N CAMO MONSTER WEIGHT SLING

1737 / M1111

A large camouflage weigh sling in original DPM pattern. Large enough to take huge fish and support it with its 2 weighing handles and 4x extra support carry handles. 4x large mesh water exchange panels and various intermittent water flow holes. A continuous 2 way zip traveling up both sides and across the top of the sling. Strong stitching and material used throughout. Two long support rods hold the frame rigid, these also being covered in flotation foam so the sling can be used as a short term recovery sling.

14941

CARP HAMMOCK XXL

8298 / M1111

The carp hammock XXL is a very large raised unhooking mat that offers the fish full support and protection from the fact that it is raised above the ground. The mat is suspended within a strong tubular aluminum frame with extra padding around its circumference. The mat has a velcro and clipped top cover to keep the fish safely held within the cradle at all times, The outer legs fold inward to allow simple folding for storing and carrying within its separate carry bag. A very safe mat for large carp.

- Safe Suspended mat in a raised frame
- Easy Folding legs and main frame
- Easy Slip fabric
- Safety cover sheet with Velcro and clips
- Supplied Boxed

CAMOUFLAGE CONCEPT LUGGAGE

Starbaits Concept range has been moving with the trends and now we can offer a range of our Concept luggage using Camouflage patterned material. We have used DPM 95 which is a Camo pattern used around the globe, its known as Disruptive Pattern Material 95, British Soldier woodland (DPM95). We have in some models mixed it with our unique original Khaki olive material to give you a strikingly sexy looking piece of luggage. All the new Camo luggage is manufactured to our stringent requirements using modern, strong accessories like zips, handles and other necessary add on's, giving you confidence that the luggage is strong and long lasting.

CONCEPT LUGGAGE

Just when you think you've seen everything by way of carp luggage Starbaits launches the revolutionary Concept range. Thanks to our new Pouch system our luggage can be modulated to exactly how you want it. At last luggage that adapts to your needs rather than the other way round! In terms of quality Starbaits has specified this luggage to the highest standard. Indestructible X-Strong zips, reinforced handles, strong rip proof cloths... Concept luggage is what the NG2 is to bivvy - products to use with total confidence!

N CONCEPT ROD SLEEVE LITE

1723 / M1110

Concept Lite sleeves offer you a less padded version of the fantastic standard Concept individual sleeves. The Lites can still take all rods easily especially rods with those awkward 50mm butt guides. With the padding removed the Lites do not take up so much bulky space while in transit but will still offer full protection to your valuable rods. Supplied with full length zips and strong carry handles.

			Width (cm)	Length (cm)	Weight (g)
10FT 42259			30	173	544
12FT 42260			30	200	615
13FT 42261			30	217	648

CONCEPT INDIVIDUAL ROD SLEEVES

0083 / M1110

Concept sleeves offer the most expensive rods and reels individual protection. With its strong outer fabric with soft touch nylon inner material and sumptuous padding between them your rods are well protected. The large double zipper is fitted along the straight edge of the sleeve making it easier to place the rods inside. An increased head cavity created by sculpting the shape of the sleeve allows for those fragile 50mm butt rings and big 20mm tips to fit into the sleeve effortlessly. Available in various rod lengths and fitted with a storage alloy hanging ring to keep your valuable rods off the floor.

			Width (cm)	Length (cm)	Weight (g)
12FT 02833			30	197	820
13FT 02834			30	206	950

CONCEPT DELUXE ROD SLEEVE

8257 / M1110

A well padded rod sleeve system that enables multiple rods to be carried set up without the need to join the sleeve to a seperate quiver hold all. Well padded compartments for the rods and reels all with zips to keep the rod secure.

External pockets to carry banksticks and metalware, additional open pockets and velcro straps to allow extra rods to be carried on the exterior of the sleeve, good padded handles and removable shoulder straps.

• Large tank Zips for strength • Padded compartments • Exterior pockets for banksticks and metalware • Hand carry handles • Detachable padded shoulder strap • Identification label pocket

		Width (cm)	Length (cm)	Weight (kg)
12FT 2/3 RODS 23854		42	200	2,1
13FT 2/3 RODS 23855		42	212	2,25

CONCEPT BUZZ BAR BAGS

0088 / M1110

These buzz bar bags offer added protection to your buzz bars and alarms, extra padding and double puller zips create a very protective bag. The additional size means that everything can be placed safely in any of these bags with ease, the bags are made in several lengths to accommodate every eventual buzz bar length. And match the Concept design.

		Width (cm)	Length (cm)	Weight (g)
2/3 RODS 02836		20	51	460
3/4 RODS 02837		76	20	919

RUCK PAC

8775 / M1110

Another addition to an already immense range, following on from the Tac Pak this Ruck Sack keeps the unique stringent design parameters of all concept luggage, it will except any of the storage bags and pouches and is detachable allowing easy stowing when in use under the bed chair. Comfortable shoulder straps, good back support padding and a good strong carry handle make the ruck sack a pleasure to use. When used with the pouches the Ruck Pak will carry a huge volume of tackle. When separated the Ruck Pak becomes three individual storage areas.

		Dim.	Weight (kg)
26393		60 x 38 x 22	2

CONCEPT QUIVER STRAP

0087 / M1110

A simple but excellent idea encumbering a large webbing shoulder strap with two adjustable loop straps at each end of the shoulder strap. These loop straps adjust around any number of rod sleeves above and below the reel cavity on the sleeves. It is tightened sufficiently around the multiple sleeve's to hold them fairly tight together, once both have been tightened you just carry the sleeves just like any other rod bag with the shoulder strap over your shoulder. When you arrive at your destination you simply release the two locking clips on the two loops and the strap will fall away giving effortless access to any sleeve you wish. Sleeves of varied lengths and different brands can be held together at the same time with the concept quiver strap, simple but so effective.

01744

CONCEPT CARRY ALL

8282 / M1110

A large internal compartment with pockets to three sides and a large long pocket to the top. Each external pocket can take either sized pouches or a combination of two. The large compartment can accommodate all the standard and large utility pouches. All pockets have double (train track) zips for easy access,

- 1 x Exterior Mesh Pocket • 4 x External zipped pockets • Large Tank Zip for strength • 2 x carry handles • EVA rigid base • 50 ltr main compartment • Coloured Box with images

		Hight (cm)	Width (cm)	Length (cm)	Weight (kg)
23843		40	40	70	3.0

CONCEPT BARROW BAG

8283 / M1110

The Barrow bag has some unique and practical features, It has a solid EVA foam base for added protection and easy cleaning, It has rigid flaps that fold up onto the internal sides to make the Barrow bag a rigid box bag, these flaps can be unfastened again to enable you to fold the bag flat. As well as a zipped flat lid the Barrow bag has another zipped entry front door so the bag can be stowed under bedchairs etc still allowing easy access to the bags contents. There are no external pockets so two or more Barrow bag can fit snugly on the carp barrow, There is no shoulder strap but two hard plastic handles at each end of the bag for easy lifting from car to barrow and two long standard carrying handles on each side for ease of walking with the bag.

- 1 x Exterior mesh Pocket • Large Tank Zip for Strength • 4 x handles • Rigid EVA base • Internal Rigid side panel stiffeners • Front panel, zipped opening • 55 Litres compartment volume • Coloured box with images

		Hight (cm)	Width (cm)	Length (cm)	Weight (kg)
23844		31	30	58	2.5

CONCEPT TAK PAC

8291 / M1110

The Tak Pac is the centre piece of the concept luggage range, it can carry enough tackle for a short day session or for long stay events, principally designed for all your small items like tackle boxes, hook boxes, baiting equipment etc. All pockets are secured with strong large zips and are capable of taking various other Concept pouches. The Tak Pac opens out flat to enable under bedchair storage with strong clips and zips to keep the pac together while in transit. The 2 halves of the Tak Pac can be separated by means of un zipping the large joining tank zip. Make your own choices as to which pouches you use within the pockets or just use the pockets as they are, that's the CONCEPT.

- 3 External Zipped pockets
- Heavy Duty Tank Zips
- 2 Padded Carrying Handles
- 2 Large Components
- 16 Ltr Main Carrying Compartments
- Large compartments separated via zip
- supplied in a annotated colour box

		Hight (cm)	Width (cm)	Length (cm)	Weight (kg)
23856		35	37	40	1,5

DISCOVERY BAG

8776 / M1110

The discovery bag is the total accessory, it caters for all things. There is a cavernous holding area which can be used for either tackle and fishing equipment or a cooking kit. The 2nd compartment has a separate zip able lid and is insulated, the insulation is finished in a dull bronzed finish so again if you want to use that compartment for tackle it still looks like a fishing bag but if you wish to carry fresh food it still has a thermal capability, it also makes a good area for baits as the fabric is easily wiped clean. There are two round removable bags at each end of the bag which will easily carry drinks bottles, gas canisters, bags of bait just about anything you can think of. There is a very large front pocket and a side pocket at each end of the bag, these pockets will accept the concept pouches. Continues carry handles for strength and a robust shoulder strap. A large and stylish bag.

		Dim.	Weight (kg)
DISCOVERY BAG 26394		70 x 44 x 34	2.7

CONCEPT THERMAL TOTAL BAG

8569 / M1110

The Concept Total Thermal Bag has been designed to comfortably transport baits of all quantities and sizes in optimal conditions. If you've got to take 20kg of boilies with you, the front and side pockets offer scope to carry yet more, and are perfectly shaped to carry any of the pouches from the Concept range. With a main section divided into three segments, you can fit in no less than six 2.5kg packets or even eight M bait boxes (note that this bag is supplied with two of these boxes).

		Hight (cm)	Width (cm)	Length (cm)

CONCEPT LEAD POUCH

8292 / M1110

The concept lead pouch is another unique design, it is actually 5 bags in total, 4 small lead bags that take your leads, which then fit into the outer pouch, the larger outer pouch follows the dimensions of the standard utility pouch so it fits into all the bags pockets.

Each lead pouch has a clear PVC window so you can identify the leads within the pouch at a glance.

• 1 x Exterior mesh Pocket • Large tank Zip for strength • 2 x handles • 1 x Interior mesh Pocket • Complete with 4 x internal lead pouches • Coloured box with images

AIR DRY SYSTEM

8778 / M1110

Air drying boillie's either frozen or shelf lives has been necessary for years now both these system air dry bags give you total control and variations on how to achieve it clinically. The Standard meshed bag will easily take 3 or 4 kgs but for best drying just use about 2 to 2.5kg this allows plenty of air flow, use in similar terms for the XL meshed bag. The strong rubberised mesh gives a degree of rigidity with the full length flap and strong zips offering easy access, a continuous set of handles make carrying or hanging the bag easy. These mesh bags fit snugly into the same size Thermal pouches making a complete air dry system.

FREEWAY STOVE

8793 / M19

This palm sized cooking stove offers plenty of power in a simple compact folding unit. Simple folding pan rests enable the unit to fold up compactly but still providing a stable pan holding pad. Easily ignited with a piezo ignition at a push of a button. A high output designed burning flute provides an evenly spread flame that can be simply adjusted with a turn of the gas regulator right down to a small flicker. Easy screw green anodised can locating body with rubber gasket. A very well crafted small stove. Supplied with a small plastic carrying box and extra can feet for further stability.

26443

DELUXE STOVE

8794 / M19

A cream of the crop deluxe cooking unit, this stove sits independently of the gas canister by virtue of a 30cm galvanised flexi pipe. A large burning flute provides easily adjusted flames to cover any sensible pan size. The legs of the stove fold and wrap around the main stove body to create a more compact traveling cooker. Once out folded the legs create solid pan support pad. A Piezo ignition simplifies the lighting of the stove and a winter gas warmer pipe sits above the flame flute but below the pan rest for cold weather usage. Supplied with a universal can adapter to fit different gas can tops and a black carry bag, an excellent cooking stove for easy hot food and drink preparation.

26444

FREEWAY COOK SET

8795 / M1110

This well stowed anodised pan set offers many different cooking variants, there are two sized boiling pans and two small frying pans that also double as the larger boiling pan lids, each pan is fitted with folding insulated handles to give stability and ease of use over the flame. The largest pan and pan lid except the smaller pan set within to create a small space saving set which comes in a nice mesh carry bag for transportation.

BARROWS

BULL DOZER BARROW

7505 / M121

The Bull Dozer Barrow has a strong adjustable chassis which will handle an impressive amount of kit! The barrow is also equipped with two all terrain pneumatic tyres to tackle the roughest of tracks and paths. Ergonomically designed so you can push a maximum of gear with a minimum of effort!

Details:

Frame min: • Length: 95 cm • Width: 85 cm • Depth: 30cm

Frame max: • Length: 95 cm • Width : 130 cm • Depth : 30 cm

Interior bag : • Length: 50 cm • Width : 35 cm • Depth : 25 cm

BARROW XL

5467 / M121

Designed to carry all the gear you could ever need! The big advantage of the STARBAITS XL is it's so adaptable! Adjustable sides, legs and handles let you set the barrow just how you want it. Easy to handle, the barrow will cope with most banks and can be used as a single or double wheeled barrow. Despite its impressive size the XL packs away surprisingly neatly in your car!

STARBAITS TROLLEY

4560 / M121

A Carp barrow is a must-have piece of kit when it comes to getting all your gear down to a swim. This model folds down to a nice compact size - fitting easily in your car boot. Once assembled, it is light and easy to handle. Will comfortably get all your gear down the bank for you -even over the roughest of ground!

I GLO LAMP

8815 / M19

I-Glo is a seriously impressive table lamp for fishing, it will sit flat, hang or stand angled anywhere you put it. It has a simple rubber on/off switch located on the side. Its hidden LED lamp is moulded into a small white hard dome which sits flat to the plastic body shell, a half domed, frosted soft touch rubber dome shroud creates the perfect light diffusion to create a soft glow within the area its placed. The soft shroud does not break or crack if anything falls on it. There's no need for batteries with the I-Glo it's simply recharged through a short USB lead in car or on a laptop. The I-Glo goes everywhere.

07348	

EXPERT BIVIE LIGHT

5489 / M19

A bivvy lamp with 23 LED's. The lamp has a magnetic back enabling fixing anywhere within the bivvy or shelter. Supplied with an infrared remotecontrol so you can switch the lamp on and off from any position.

92715	

HEAD LAMP HL 200

8814 / M19

This head torch has been ergonomically moulded to sit at the correct angle on the forehead, it has a short adjustable range so that different angled positions can be achieved if desired. A very powerful lamp with battery level indicator fitted to the front of the lens. A simple rubber on/off button directly at the top of the casing for easy location. A wide, soft elasticated head strap for easy mounting on the head to give a firm location and user stability without feeling awkward. A simple but bright and effective head torch.

BIVVY QG LUXE

8328 / M1010

Developed with a scrupulous attention to detail to maximise ease of use, the QG LUXE bivvy boasts an exceptional living space. Equipped with mosquito nets (featuring contractible flaps) on all sides and a 19mm aluminium frame, which offers incredible stability against high winds. Supplied with a high-quality groundsheet, this is the ideal partner for all your future outings, irrespective of the weather.

DESCRIPTION:

- high-resistance nylon with 5,000mm hydrostatic head
- Stitched seams, welded for guaranteed waterproofing
- High-resistance 19mm aluminium frame composed of four 5-section poles, reducing set-up time
- Detachable groundsheet with heavy-duty clips • Coloured indicators for rapid installation of groundsheet • 2 velcro flaps on the front panel for rod support • Wide door equipped with doubled zips • 4 anti-mosquito windows (3 across the front of the bivvy, one at the rear) positioned to maximise ventilation and to prevent condensation • 1 tension strap for easy installation • double seams on all anchorage

points • plastic clips for securing overwrap to tension bars • 2 anchorage points either side of the door, pinning the shelter tight against the ground • Anti-mosquito windows protected by contractible flaps

SUPLIED WITH: • wide, high-quality carry bag • 1 set of pegs • 1 set of 4 tension bars • 1 heavy-duty groundsheet

OVAL BROLLY G2

OVAL BROLLY G2

6497 / M1013

The Oval G2 is a highly adaptable brolly. The ribs have been lengthened to create a porch area to protect you even during the worst storms. Counter sealed seams throughout guaranteeing total waterproofing. The removable panel made like the rest of the brolly from 420D fabric allows you to make the most of warm starlight nights whilst still having total weather protection when needed. Also fitted with a ventilation grill to eliminate condensation. Supplied with transport bag, pegs, groundsheet and the removable panel. Mosquito net and PVC panels optional extras!

N SESSION HEAD TORCH DISPLAY X12

1778 / J19

- *Fully adjustable comfort head wear
- *5 LED white glow centre light
- *3 settings
- * continuous red illumination
- *red flashing illumination
- *showerproof
- *3 x AAA batteries
- *Good battery life

A comfortable head torch with an adjustable pivot point to obtain maximum light positioning. It has a strong 5 x Cree LED white light output with an additional two red LED settings, one solid and one flashing, the solid red illumination is great for stalking or situations where white light will spook the fish. The flashing red LED's are a great beacon for returning to shore with a boat. A simple crack apart battery insertion that takes 3 x AAA batteries.
