RITUAL SLO

Large waters and monster fish require the ultimate fighting equipment. Now, carp anglers can present their bait where others cannot even begin to look. The Ritual SLO also impresses with its high-performance gears, making it your future partner for extreme requirements. Thanks to the slow spool stroke, line distribution is also of the highest standard, allowing the thinnest braids to be used and flow effortlessly from the spool.

RADICAL CARP TEASER BR

This run control reel has been designed for die-hard angling. We have deliberately dispensed with all of the frills. Whether on the big French reservoirs or the wild rivers of Eastern Europe, this reel impresses with its extreme and unprecedented robustness. The reel has enormous drag strength that will reliably stop even large specimens in their tracks. The drag kicks in reliably and cleanly. A masterpiece among carp reels!

STANDARD TECHNICAL EQUIPMENT:

- Housing produced in aluminium to be completely distortion-free
- Oversized multi-stack drag system
- Finely adjustable run control system
- Non-twist line roller
- Thick bail arm for optimal balance
- Gears made from a super-hard stainless steel alloy
- Continuous anti-reverse

OLD SCHOOL III TRADITIONAL
Top-class fully parabolic rods with incredible power reserves. Finished with elegant cork handle, ALPS rings and FUJI reel holder. The woven-mesh blank was tested by our team angler Robin Illner on waters throughout Europe. The verdict: indestructible!

OLD SCHOOL III HARD RIVER
Hard, harder, Hard River! That is the motto of the dynamic and extremely powerful river rod for taming violent river carp. Robin Illner has tailored the rod to the requirements of river fishing. The result is a parabolic yet highly powerful woven-mesh blank that can withstand the harshest conditions. The rod provides security and fighting pleasure on even the largest rivers in Europe. Additional equipment includes ALPS rings and an FUJI reel holder.

OLD SCHOOL III BATEAU CARPE
Carp angling from a boat is highly popular at the moment. However, long rods have no place on boats. Short rods offer the ability to tame fish from the boat while making handling far easier. Rigs can also be dropped into wood-filled swims or weed with precision. The elegant rod with cork handle, ALPS rings and FUJI reel holder has been equipped with a powerful 3.5-lb woven-mesh blank.

AFTER DARK
The new ultra-cool carp rod for fanatics for whom no session is too hard-core. With its fantastic casting action and huge range, the model also boasts sufficient backbone to break the resistance of specimen-size carp.

WARCHILD TELE CARP III
Carp angling is becoming ever more global. A few years ago, many carp anglers were content to explore their own country and their closest neighbouring country. Now, tours extend to Morocco, Africa and even Australia. With this in mind, our team has developed an outstanding range of telescopic rods. The action of these telescopic rods is so impressive, it is barely distinguishable from that of traditional rods. The Warchild has enough in its armoury to overcome any opponent!

WARCHILD 3G
A fantastic, slender carp rod with a pleasant, semi-parabolic action. As well balanced for casting as it is during a fight. Limitless power without compromising on sensitivity. Classic, two-piece design in the increasingly popular length of 3 m (10 feet). Ideal for fighting from the boat.

16005 393	Warchild Spod	3,90 m / 13'	2	2,01 m	5,00 lbs	417 g

WARCHILD SPOD
The Radical Warchild Spod Rod is tough and rigid on the take. The spod rod punches out even heavy bait rock-ets and spombs to your swim, proving its backbone. An outstanding alternative to boats and bait boats.

HIGHWAY TO SMELL BOILIE

Our test anglers’ expectations of this boilie were more than demanding and set us a genuine challenge: as many insects as possible in different variations, enriched with blood meal, egg albumen and natural flours. This is intended to produce as coarse a structure as possible, which does not necessarily make matters easier. The result is in front of you: a dream carp bait without rival on the European market! Suitable for any time of year, fast-acting and hence completely suited to short sessions. The result of perfect collaboration between developers and test anglers will also make you a successful carp angler!

PUNKY MONKEY BOILIE

This unique symphony of wild strawberries and tropical bananas with a dash of coconut not only drives apes wild! From the early days of specimen carp angling, you could enjoy some magical moments with strawberry boilies. Today, using the latest knowledge from the fields of biology and feed law, we have designed a two-layer boilie that re-connects to these early successes. With an inner core of banana and coconut and an outer coating of strawberry, this boilie will bring the most cautious fish to your hook even under the most challenging conditions.

RUBBY DUBBY BOILIE

Fishy, natural and coarse – everything a carp could wish for! A bait for the future because naturalness counts and at Radical we only use natural ingredients. The success of our baits proves us right:

- Real fish- and shrimp chunks for the „crack and crunch“ effect
- Real fish oils for aroma and flavour instead of artificial fish flavourings
- Bait activates and immediately sets to work in the water since it contains no preservatives
- Top quality flours trigger a feeding frenzy in carp and ensure the bait is digested quickly

PINK TUNA BOILIE

Pink and fishy – those are the attributes of our high-end boilie variety. At times during testing, our team anglers were overrun with carp. Whether in southern France in high temperatures or late autumn in Germany, the Pink Tuna will impress with its incredible attraction in any water temperature. Why is that? The mixture of high-quality, protein-rich basic components is enhanced phenomenally with fish meal. The striking colour also makes carp curious. The result? Continuous buzzing from your bite alarms! Special long-session boilie, high level of attraction despite remaining on the hair rig for long periods.

VAMPIRE GARLIC BOILIE

Garlic has been an absolute secret to success for many years. In this boilie, we have combined the crisp taste of garlic with fresh mint. This combination sends the carp into a frenzy! Just as they did with the Pink Tuna, our field testers also achieved incredible catches with the Vampire Garlic. This boilie would strike fear into Dracula but carp just love it! Protein meal has been used as a base to produce a high-nutrient-value bait. The boilie will tempt large specimens both during short-term sessions and over more prolonged feeding campaigns.

BLOODY CHICKEN BOILIE

These “Radical Bloody amazing” boilies have been developed over countless hours of trials by Quantum Radical team members during the 2009-10 season. German carp ace Benjamin Gründer played a major role in arriving at the perfect blend of ingredients to catch the huge European carp. The ingredients of Radical Bloody Chicken have instant impact with the rapid release of its unique set of attractants. In tests it was found that big fish immediately recognised its meaty flavour and there was no need to pre-bait or “train” fish onto this boilie! The Radical Bloody Chicken is based around a top quality meat base mix, which both promotes digestion, and therefore stimulates more feeding. This contributes to its extremely high levels of attraction. Easily digested and relatively quick to break down in water, the boilie can be used all-year-round and loosefed generously without polluting the water.

BASILISK LEAD CORE

When it comes to catching cautious fish, the line has to lie tight to the bottom. Our leadcore sinks reliably to the bottom of the water so that cautious fish are no longer spooked. Leadcore also offers protection from abrasion against mussels, stones and wood.

WEEDY LEADER

Low-stock waters often harbour very big carp. However, these are usually difficult to catch. This makes camouflage an utmost priority. Our Radical Weedy Leaders look so amazingly authentic that, for a moment, we were speechless. Tests on the water showed that the material is practically indistinguishable from real foliage and aquatic plants. The material is also extremely durable. Sharp edges from shells or stones have no effect. Our tests showed that bite numbers increased dramatically. Available in 2 colours and with different rig connectors.

LINE DIVER

On a drop-back bite, the Line Diver dives down deep and so causes every bite to be indicated. The head incorporates a clip design that holds the line securely without damaging it but releases the line cleanly on every run. The head also has a night-glow function that emits bright colours on even the darkest of nocturnal carp sessions. A 2 oz, continuously adjustable stainless steel cylinder slides along the shaft, ensuring that every bite is seen and heard even when fishing at long range.

RADICAL DESPERADO BS HOLDALL

Our Desperado Big Session Holdall provides enough space to transport four rigged up rods to France or Italy. There is even additional room for a further two unriggered rods. The Holdall is a veritable storage miracle. The four rods are no longer packed next to each other but at a 180-degree rotation. This gives the holdall the capacity of a 2+2 holdall, which means it can always fit into even small cars. The robust, thickly-padded side walls and central protective wall ensure your valuable rods are optimally protected. The durable outer pocket also features additional compartments for banksticks, a large umbrella, landing nets and much more besides. Material: 100% Polyester

Our thick padded solo sleeves protect any rod safely and reliably against damage. Individual bags can be convenient and hugely practical at times. What angler hasn't had the problem of the car being packed up to the roof? Individual holdalls can be easier to find room for than conventional large multi-holdalls. Available in 3 different lengths for all rod sizes. Material: 100% Nylon

RADICAL QUICKY QUIVER

Short, one-night sessions are becoming increasingly popular with many carp anglers. Long-winded packing and unpacking of rods, umbrella, landing net, etc. is not what the angler wants during a short session. The new Quicky Quiver caters specifically for the requirements of the "quick" carp angler without making any compromises. The holdall can accommodate up to four rigged-up rods while also offering room for an umbrella, banksticks and a landing net. A robust mesh side-pocket allows wet items in the holdall to dry out. The Quiver also has ultra-robust eyes and carabiners as well as an individually adjustable strap for highly comfortable carrying. Material: 100% Polyester
