

ADVERT CATALOGUE 2017-18

IT'S A SAVAGE WORLD

Get ready for some horror top water attacks!
We proudly present the new **3D Bat** !

 
ICAST 2017
BEST NEW HARD LURE

3D Bat, the most realistic and incredible Crawler you have ever seen! The 3D Bat will amaze you with the perfect 3D scanned details, superior crawling action, with a distinct plopping sound, that will call in predator fish from wide and far! Hard ABS body, with Stainless steel wings - built to withstand brutal attacks! Retrieve will see the lure scatter over the surface, like a Bat in trouble trying to swim to shore! Change retrieve speed once in a while and throw in a spin stop, or try just to steady retrieve all the way to the bank! Keep rod tip relative high on retrieve. Great lure for Bass, Pike, Musky and big brutal catfish!

 /savagegear
www.savage-gear.com **SAVAGE GEAR** 

IT'S A WEIRD SAVAGE WORLD

Soft hollow body duckling. Frog style. **What The Fruck!**

The Fruck! (3D Hollow Duckling)
The huge success with the 3D Suicide Duck, has led to this weedless version that can be fished in heavy cover and weed - giving you even more options with this superb duckling imitation. Great side-to-side action, with perfect details on the spin stop! Now you can fish closer to snags, in tight spots, over mats and cover and in drifting weed - this will result in even more attacks from Big predator fish!

 /savagegear
www.savage-gear.com **SAVAGE GEAR** 

**IT'S A
SAVAGE WORLD**

The **3D Rat's** scanned details will fool even the most wary predator fish and ensure you brutal attacks

This 3D rat imitation is so radical - we just had to call it the "Rat" it's loaded with innovative features. Hard ultra-strong ABS body. Nylon Mesh joint with soft ears feet and tail. Attach the lure on the Bill / lip and fish on the top, like a Rat swimming with a big waking and sub surface rolling Scurve action. Attach the lure in the nose and it will dive down and swim super realistic under the surface - make a spinstop and the lure will pop straight up to the top, with it's high buoyancy - a brilliant way to really provoke crazy strikes. The Soft Ears, feet and tail, truly set a new standard for a rat imitation lure. The tail is reinforced with a braided cone and clips on to the body with an innovative and smart clip design - that make it easy changeable.

 /savagegear
www.savage-gear.com

SAVAGE GEAR 

**THE LINE THRU
SANDEEL**

Created using a **3D scan** of an actual sandeel to achieve the most natural looking lure possible. Our signature Line-Thru System presents the **perfect casting lure** that looks and behaves exactly like a real sandeel on the retrieve.

The 3D LT Sandeel swims with a seductive and slim 'Scurve' action. On the spin stop, the lure flutters and rolls backwards - mimicking a fleeing sandeel that's digging itself into the Sand. When twitched, the lure darts and flashes. This is literally as close as it gets to imitating a real life sandeel!"

SAVAGE SALT
by **SAVAGE GEAR** 

THE 4TH DIMENSION

The detailed **Photo Chrome** skin print on the **4D Line Thru Perch** is so lifelike it will be even harder for the predator fish to resist a full committed attack!

The 4D Line Thru Perch is designed with a larger Ø Line thru channel, so it is possible to change the trace easily. It comes pre-rigged with the Carbon49 wire trace, mounted with the Line modifier clip. The 4D Perch has enhanced details and a gat slot for scent paste or a trout pellet. The perfect, realistic Scurve swimming action combined with the with the immaculate Photo chrome skin print and Scent, will make an incredible lure even more effective. The line thru channel through the nose gives the lure a swimming action very close to a Real Perch and on those days where the perch is on the Pike and Musky Menu - this lure will catch a monster!

SAVAGE GEAR 

IT'S A SAVAGE WORLD

It is said that a great top water strike, counts for 10 regular hits – tie on the **3D Suicide Duck** and find out!!

A super realistic Duckling top water imitation lure loaded with innovative features! The 3D Scanned details will fool even the most wary predator fish and ensure you brutal attacks! Hard ABS ultra-strong body with semi soft and durable feet. The spinning feet give the lure an incredible lively, splashing action, leaving a great bubble trail and wake calling in the predator fish from distance. 2 styles of action, attach the line to the Beak, and the lure will run with a low discrete posture, like a duckling trying to hide and escape at the same time. Attach the line to the chest and the lure will run higher, with a more panic fleeing action.

JAPANESE 3D LINE THRU TROUT

Limited superb Japanese custom colors - designed
by Taka Morimoto from Savage Gear Japan

3D Trout Line Thru swim bait - made from a super detailed 3D scan of a Real Trout. The innovative line thru Y-system that allows you to put the hooks either on the back or on the belly, depending on how you want to fish the lure. When the fish attacks the lure and gets hooked, the lure shoots up the line and away from the fish - so the fish cannot use the weight of the lure to throw the lure! The swimming action of the lure is as close to the real thing as you can imagine - it literally swims like a live trout and it can trick even the most clever pike to attack! 3 Sizes, 15cm, 20cm and 25cm SS & MG.

**STERI-7
PROTECTION
BETWEEN CLEANS**

STERI-7 Xtra for Aquaculture is a range of modern disinfectants and cleaning products developed specifically for aquaculture producers and processors. UK - Bio-security company STERI-7 Worldwide has developed STERI-7 Xtra for Aquaculture use. Independently tested against aquaculture pathogens, the product range provides highly effective products for full hygiene programmes in all fish farming and aquaculture situations. And, has been added to the Defra Aquaculture Disinfectant Listing Scheme CEFA.

STERI-7 XTRA FISH CARE ANTISEPTIC SPRAY

Clinically proven to disinfect mouth and body wounds, and incorporates STERI-7 Reactive Barrier Technology (RBT). STERI-7 Fish Care Spray is formulated to eradicate harmful bacteria and viruses. Upon application, STERI-7 Fish Care acts quickly, killing 99.9999% (log6) within seconds to ensure wounds are free of bacteria, when the fish are returned to water.

STERI-7 XTRA PERSONAL NET DIP CONCENTRATE

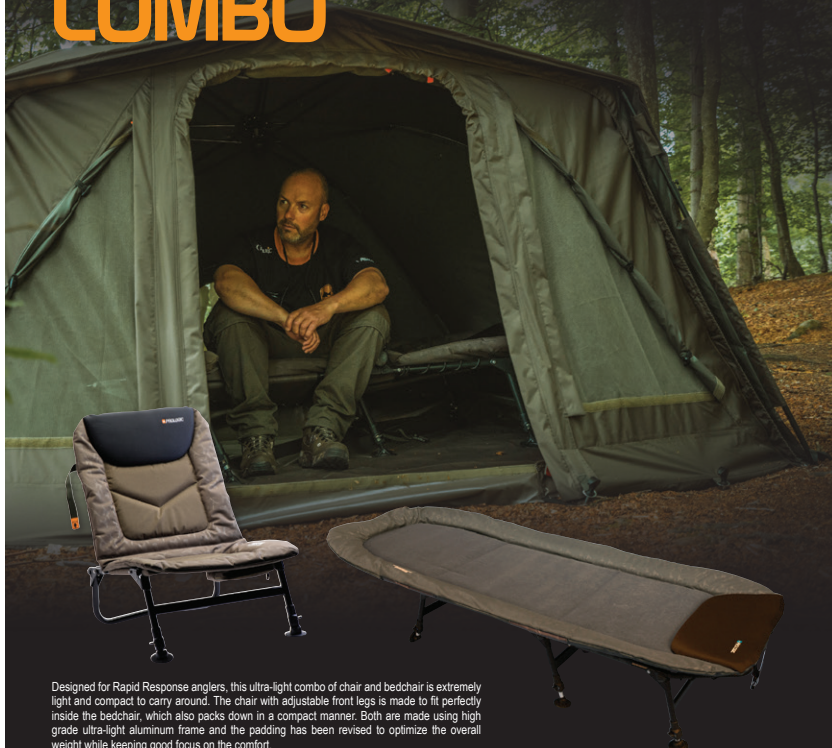

Is a High Level Broad Spectrum Concentrate disinfectant provided in a dispenser bottle, allowing measured dosage of STERI-7 Xtra to be mixed with water and added to sink bags for instant disinfection of nets and slings, eliminating potential disease transfer between fisheries, including KHV, along with unpleasant odours.

STERI-7 XTRA HIGH LEVEL BIOCIDAL WIPES

High power disinfection and sanitising performance with the convenience of a wipe. Used on hands it guards against Leptospirosis, and safe to be used on any surface including material and may also be used to clean and disinfect cookware and utensils.

LAST METER**

A COMPREHENSIVE RANGE
OF TERMINAL TACKLE
ABLE TO COPE WITH THE
HIGH TECHNICAL
SPECIFICATIONS NEEDED
FROM EVERY MODERN
CARP ANGLER

The rigs used in carp fishing have evolved dramatically during the last few years, so we have been fine tuning each product in our Last Meter range, down to the smallest detail. We have used mostly TPU material, which is the best Eco-friendly plastic that can be used for this kind of products, reducing the usage of traditional PVC to very few items. Even the packaging has been studied to be totally user friendly; most boxes can be used straight in your tackle box, and thanks to the special sticker that provide product information and image on the front and on the top it will be easy to recognize the product you are looking for in any moment, than each box can be re-used in many ways to store other small accessories.

STERI-7 Xtra for Aquaculture is a range of modern disinfectants and cleaning products developed specifically for aquaculture producers and processors. UK - Bio-security company STERI-7 Worldwide has developed STERI-7 Xtra for Aquaculture use. Independently tested against aquaculture pathogens, the product range provides highly effective products for full hygiene programmes in all fish farming and aquaculture situations. And, has been added to the Defra Aquaculture Disinfectant Listing Scheme CEFA.

**STERI-7
XTRA FISH CARE
ANTISEPTIC SPRAY**

Clinically proven to disinfect mouth and body wounds, and incorporates STERI-7 Reactive Barrier Technology (RBT). STERI-7 Fish Care Spray is formulated to eradicate harmful bacteria and viruses. Upon application, STERI-7 Fish Care acts quickly, killing 99.9999% (log6) within seconds to ensure wounds are free of bacteria, when the fish are returned to water.

**STERI-7 XTRA
PERSONAL NET DIP
CONCENTRATE**

Is a High Level Broad Spectrum Concentrate disinfectant provided in a dispenser bottle, allowing measured dosage of STERI-7 Xtra to be mixed with water and added to slink bags for instant disinfection of nets and slings, eliminating potential disease transfer between fisheries, including KHV, along with unpleasant odours.

**STERI-7 XTRA
HIGH LEVEL
BIOCIDAL WIPES**

High power disinfection and sanitising performance with the convenience of a wipe. Used on hands it guards against Leptospirosis, and safe to be used on any surface including material and may also be used to clean and disinfect cookwear and utensils

X-STRETCH stocking foot waders

Revolutionary technical breathable chest wader in 4-way stretch abrasion resistant shell fabric for the ultimate performance and freedom – you've never felt this free!

- Durable 3-layer 100% polyester fabric in 4-way stretch construction
- 100% waterproof with more than 12,000mm and highly breathable with over 4,000mpv
- 100% taped seams inside
- Great design and fit with rubber belt loops and wide neoprene wading belt with YKK buckle for comfort and support
- Deluxe front pocket design with water-repellent YKK zipper
- 2 D-rings for various tools
- Elastic adjustable suspenders with slim modern YKK buckles
- Great inner pocket with zipper and mesh pocket
- Built-in durable gravel guards with corrosion-free lace hook
- Superior fitted 3.5mm neoprene socks with logo printed footbed
- Delivered with separate 100% waterproof camera/mobile bag

X-TECH 20000 stocking foot waders

- Extremely tough & durable 5 layer polyester micro fabric for entire leg part mixed with same triple-layered fabric on upper body
- Supreme WP of more than 20,000mm and high breathability over 4,000 mvp
- 100% taped seams inside with extra wide tape for maximum durability
- Taped with structured Japanese premium tape on outer seams
- Innovative zipper side gussets at upper chest for perfect fit and comfort
- Technical laminated 3D front pocket w/WR zipper
- 2 fleece-lined hand-warmer side pockets w/WR zippers
- Adjustable wading belt with fixed laminated belt straps and strong buckle
- Padded shoulder design with elasticated adjustable suspenders for ultimate comfort
- D-ring upper back
- Zipper inner pocket with detachable 100% WP mobile or camera pocket
- Durable built-in flexible gravel guard with corrosion-free hook
- High quality 3.5mm neoprene sock with strong tape and dotted footbed
- Full range with short/long size versions for perfect fit

AERIAL

wf floating/intermediate/long belly

Weight distributions that combine presentation capabilities with distance potential in a way that will astound you. Truly triangular front- and rear tapers and top shelf coating qualities are part of the explanation, but we believe the main reason is our unwavering urge to design excellent fly lines. These lines are all equipped with front loops. If you are looking for a world class floating WF-line for different kinds of single hand fly fishing, look no further! Welded loops in both ends.

BIG FLY II

wf floating/sink3

As the name suggests, these WF-lines are designed to carry really big flies to their intended destinations. Our unwavering goal was to design lines with shorter front tapers (to turn over big flies more easily), without compromising with neither loop control nor presentations. Fantastic lines that will give you the upper hand when hunting bloodthirsty predators. Welded loops in both ends.

BROOK II

wf short belly floating

A series of five short-headed floating WF-lines (# 2-6) that are designed to fish smaller rivers (or brooks) and other kinds of cramped fishing conditions. The heads are short, but incredibly well balanced, to ensure slow turnover capabilities and feather light presentations. Nevertheless, if you need that extra meter or two, the Brook II will provide. No Loops.

SCIERRA

BIG FLY singlehand / 4 sections

Predators! This word is weighed with a certain archetypal ability to instill fear. If we close our eyes and whisper "predator" in our minds, most of us will feel a certain kind of paranoia creeping along our spines. The ruthless killers at the top of different food chains have been lurking around our forefathers for eons and every time we watch "Jurassic Park", we just KNOW the feeling of being prey. It's time for humanity to strike back. Beware all you toothy predators living in water; we are coming for you with a new series of fly rods that can carry really big flies, handle difficult wind conditions and force you giant killers into submission before the ultimate release. Three powerful, single hand, nine foot rods for the heavier weight classes that are more than ready to accompany humans into battle! Watch out, predators; we're coming for you!

scierra.com | facebook.com/scierrallyfishing | youtube.com/scierrallyfishing | The difference between a good day and a great day!

Stillwater perfection

SRX V2 singlehand / 4 sections

Designed for UK stillwater trout fishing, in cooperation with our British Pro Staff Members Russell Owen (world champion) Phil Dixon (English national champion) and the team at Sierra Pairs. The rods in this series are made to handle teams of flies, heavy winds, sinking lines, long casts while retaining the finesse to be able to handle fish close in on lighter tippets. The SRX V2 range of rods covers all aspects of UK Stillwater fishing with the larger sizes being powerful enough to handle any conditions or methods on the largest reservoirs while the shorter lengths are perfect for closer range fishing on our smaller still waters. In short the new range SRX V2 is Stillwater Perfection.

Available in 9' #5 - 9'6" #6 - 9'6" #7 - 10' #7 - 10' #8 Prices from £109.99

SRX V2

SCIERRA

Traxion-hjulserien er designet med udgangspunkt i de til tider ugestrengte forhold ved de danske åer, søer og kyststrækninger. Dette er en serie fluehjul med fokus på funktionalitet og pålidelighed – så du kan fokusere på det, som betyder noget: At udleve dine fluefiskeoplevelser!

THE TRAXIONS

TRAXION 1

Det er med tanke på den perfekte kombination af en solid og funktionel hjulkonstruktion og et konkurrencedygtigt prisniveau, at Traxion 1 fluehjulene er blevet produceret. Hjulene er forsynet med et vandtæt bremsesystem, som fungerer perfekt til skandinaviske forhold, og med en let konstruktion og god linekapacitet egner hjulene sig til alt fra tørløbe- og nymfelfiske til lyst- og laksefiske.

TRAXION 2

Traxion 2 fluehjulene, som er maskineret ud af 6061 aluminium, er designet til skandinaviske å- og kystfluefiske. De er baseret på et højteknologisk design med en fordybet spole, som i tillæg til fluelinen kan rumme rå mængder bagline. I tillæg er hjulene forsynet med Sierra's ikoniske mikrojusterbare gaitbremse system, som er let at justere selv med de allerfjæreste fingre.

TRAXION 3

Design, styrke og stabilitet er nogle af kodeordene for denne serie af fluehjul. Traxion 3 fluehjulet er udmaskineret af en enkelt blok 6061 aluminium, og det er forsynet med en fuldt integreret og nedsænket hjulflod, der sikrer optimal vægtfordeling og ergonomi. Hjulet er desuden forsynet med en vandtæt og mikrojusterbar bremsegavl, der sørger for en jævn og pålidelig bremseeffekt under udløb.

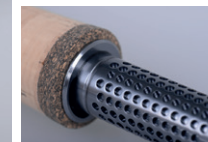

scierra.com | facebook.com/scierraflyfishing | youtube.com/scierraflyfishing | The difference between a good day and a great day!

Traxions

SURGE enhånds / switch / tohånds / 4-6 dele

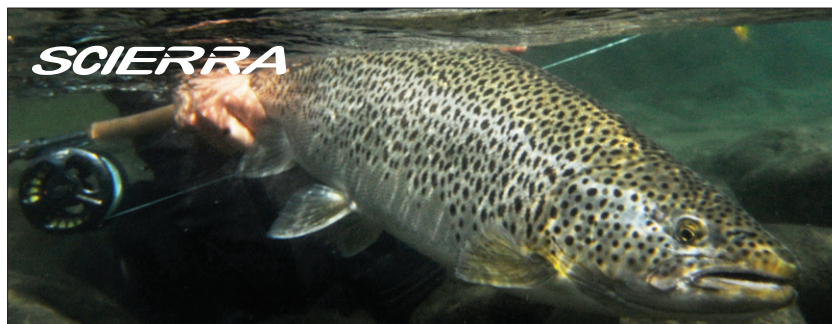

Surge er Sierra's nye topserie – en visuelt slående serie stænger med uforlignelige kasteegenskaber. Stangserien er designet af Sierra's nye produktudvikler, tidligere verdensmester i fluekast, Mathias Lilleheim, og her er tale om en række harmoniske og dybtarbejdede fluestænger med korte slaglængder, som er baseret på de allerletteste og mest kraftfulde materialer tilgængelige på markedet. Stængerne er bygget på 46T japanske carbon-klinger, forsynet med saltvandsbestandige Custom ALPS hjulholder og Pacific Bay øjer, og leveres i cordura-betruckede stangrør.

scierra.com | facebook.com/scierraflyfishing | youtube.com/scierraflyfishing | The difference between a good day and a great day!

Surge Rods

SCIERRA

SURGE singlehand / 4 piece rods

The strongest, lightest and most powerful materials on the market were at our disposal. We chose the ultimate mix of materials to build the ultimate fly rods based on our philosophy of depth, smooth, unbroken bending curves and short stroke lengths. A Surge fly rod will bend almost all the way, but the short stroke length will mask the inherent power of its factual depth until the need for longer casts unveils the true nature of a cultivated beast. Available in

TRAXION 3

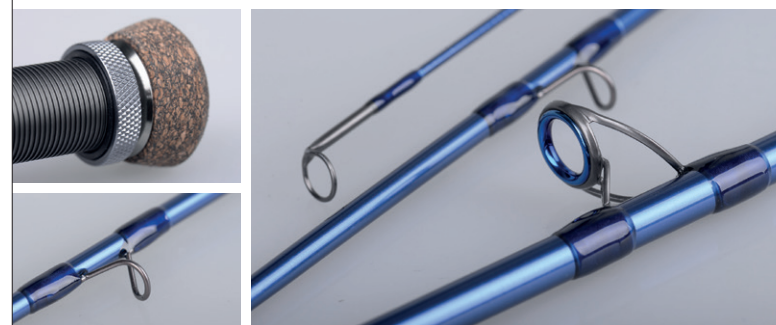

Strength, durability, and design have been the main focal points for this reel range. The Traxion 3 is machine cut from a single block of 6061 grade aluminum. The submerged reel foot is designed as part of the main frame to absorb and transfer power and at the same time placing the reel in a more ergonomic position - closer to the rod. The large, easy grip, drag rim is integrated and micro-adjustable. The drag system is water tight and will secure maximum performance under any fishing condition.

SCIERRA

SALIS singlehand / 4 sections

The Salis rods are designed for the coasts of Northern Europe and for the multitudes of lakes hiding huge pike and other toothy fresh water predators. We have strengthened the deeper parts of these rods to ensure actions that will master the stronger winds, heavier flies and generally difficult conditions connected with these fisheries, but we have not compromised with the curves. The smoothness of unbroken bending curves will always be the crucial part of the definition of an excellent fly rod and the Salis rods are all excellent. Enjoy!

AZORES • DFD: Precision Dual Force Drag system • Precision click drag adjustment for more precise settings • Multi-disc, Carbonite and felt drag washers for DFD • 6HPB + 1RB corrosion resistant stainless steel bearings • Quick-Set anti-reverse roller bearing plus ratchet system • Dual anti-reverse system for maximum security • Azores-40 size only features the Quick-Set anti-reverse function • Precision machine cut brass pinion gear • CRC, Corrosion-resistant coating process • HDGL: Corrosion-resistant, High density gearing • ALC: Rigid diecast aluminum body, sideplate and rotor • MSS: carbon Mechanical Stabilizing System • Machined aluminum, 2-tone anodized spool with LCS lip • Machined aluminum handle arm for added strength • Hydro Block water tight drag seal • Heavy duty, solid aluminum bail wire

MSS

The Mechanical Stabilizing System (MSS) found in Okuma Azores reels is designed to eliminate flexing, reduce corrosion and greatly increase the overall strength of the reel. This system is injected with a high-quality, high-strength carbon material that creates a barrier between aluminum and stainless steel parts and breaks the bond for electrolysis. The MSS system also significantly improves tolerances and internal parts alignment.

Torsion Control Armor

The Torsion Control Armor (TCA) design found on the new Helios SX spinning reels is made with Okuma's C-40X long-strand carbon fiber technology. This not only makes the reel lighter, but also makes the reel extremely rigid which reduces twist and torque and keeps the internal parts in perfect alignment.

CFR: Cyclonic Flow Rotor - The Cyclonic Flow Rotor (CFR) was designed to create a "cyclonic" airflow, which significantly increases air flow through the ported rotor. This thoroughly tested design allows for a much faster drying time if the reel becomes wet, minimizing corrosion possibilities throughout the reel.

IT TAKES MORE THAN 80 STEPS TO MAKE A PAIR OF LENZ SUNGLASSES

In a world where 95% of all sunglasses are injection moulded, Lenz has chosen to produce their glasses 100% by hand – quality rather than quantity. See the difference!

Premium Series

”

I'm lucky enough to get to fly fish some of the most remote and beautiful destinations in the world. When I'm there, however, I don't want to rely on luck. I want to eliminate all the stochastic variables! That's why I only use the best gear available – and Lenz Optics have become an integral part of my gear setup. Lenz Optics keep me sharp and focused when it really counts!
