## “FOR A BETTER CATCH”

The company Zfishing Sport Wholesale was established in 2007. At the beginning we focused primarily on Czech market as a wholesale distributor of popular european brands. In 2015 own brand Zfish was born and because of its friendly ratio quality/price became Zfish brand very quickly popular not only in Czech Republic but also in other european countries. In 2017 we joined EFTTA (EUROPEAN FISHING TACKLE TRADE ASSOCIATION).

Many members of our team are experienced and passionate anglers, which means we care a lot about our products and we make sure our products satisfy the highest requirements of demanding anglers. We are wholesale company. We offer over 3500 products which are available year-round. Every year we add new items and we follow modern fishing trends.

We rebranded ZFISH identity in 2019. New modern logo in natural green colors represents our values and dynamic development over last years. ZFISH is here for a better catch!

### Our visions are clearly defined.

- ▶ We provide our bussiness partners with excellent trade conditions
- ▶ Most of our products are always available in our warehouse
- ▶ Our headquarters is in the middle of the EU which means we can deliver products for best possible prices or for free
- ▶ Products will be sent within 24 hours after placing the order. Most of the EU orders will be delivered within 2-4 days

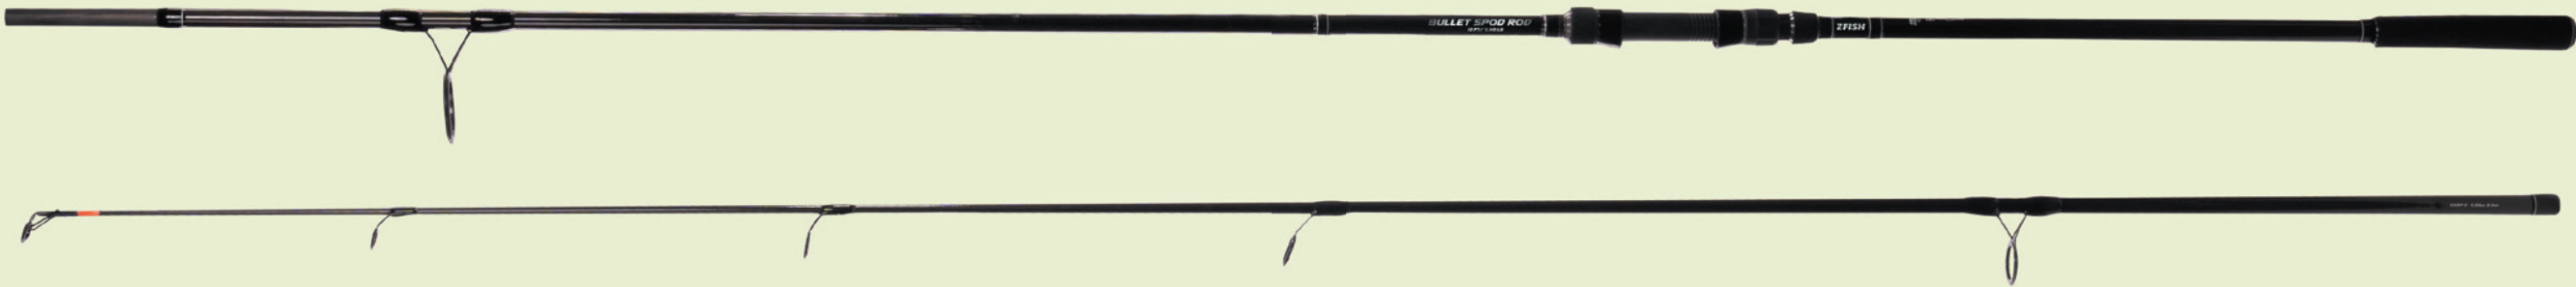

### We successfully cooperate with distributors in these countries

- Czech Republic, Slovakia, Poland, Germany, Denmark, Belgium, Netherlands, Italy, Spain, Portugal, France, Croatia, Slovenia, Greece, Austria, Hungary, Romania, Latvia, Bulgaria.

# Bullet Spod Rod 12 ft/5 lb

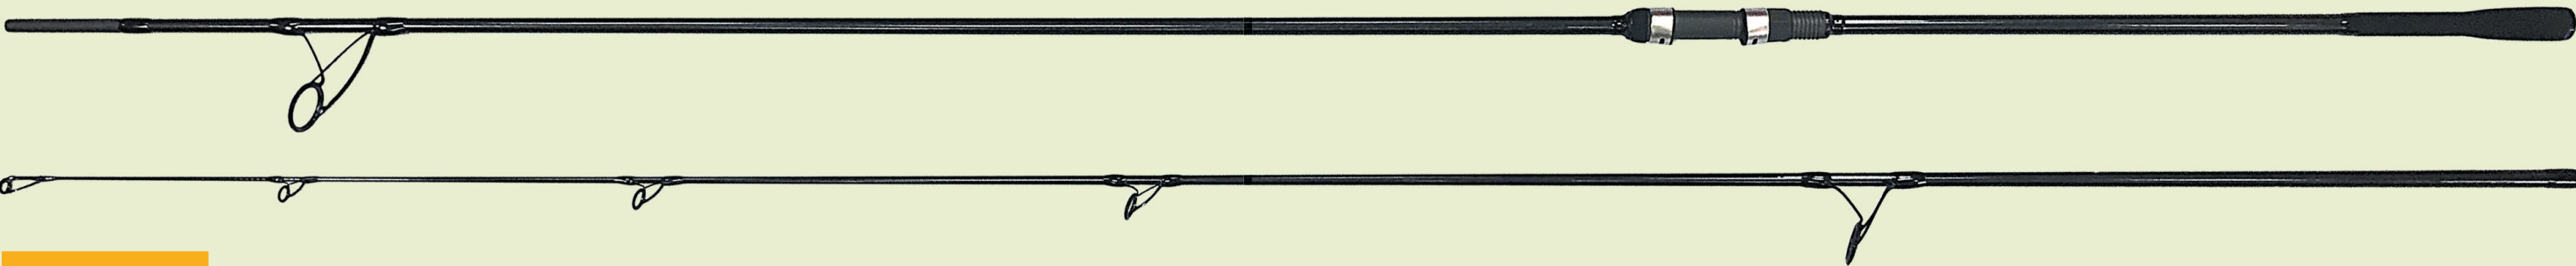

ZFISH Bullet 12 ft/5 lb is a spod rod designed for casting the heaviest feeder rockets. Despite a relatively slim and light blank at first look, it is a real powerhouse that will not disappoint you even with the biggest “rocket” filled with particles. The thick-walled blank made of high-quality carbon is really light, yet it has a large power reserve and allows a very high cadence of casts without the slightest feeling of overload. The rod is equipped with strong double

foot eyes with SiC fillings, end “funnel eye” and 50 mm first guide eye. Of course, a proper reel was also thought of with this rod, so the reel seat is extended and thus allows the use of even the largest surf and bottom reels. The rod is made in an elegant black and silver design that completes the overall impression and suggests that this is no outsider. With this spod rod of ours, you will really enjoy the feeding!

### Phaeton 12 ft/3.25 lb

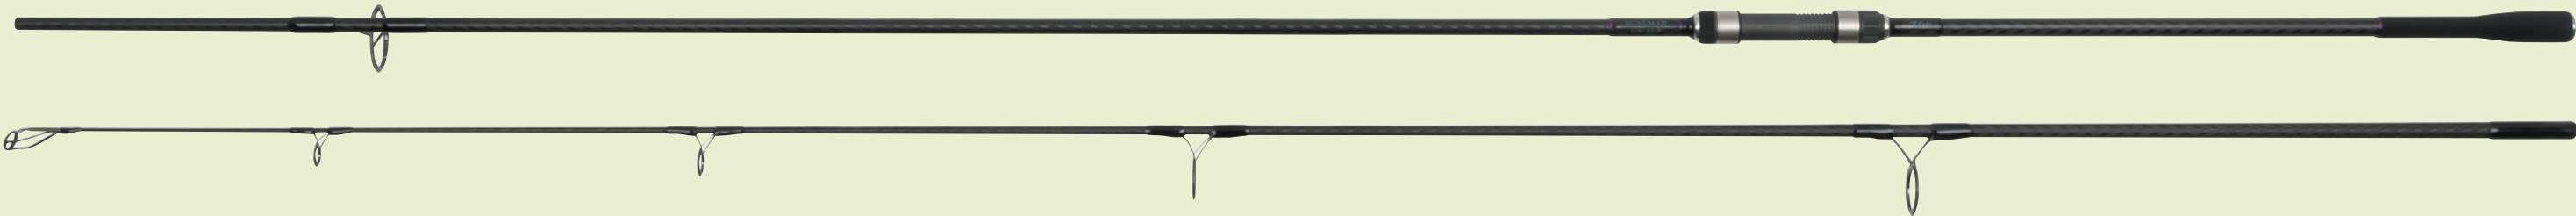

Phaeton is on top of our technological evolution. This carp fishing rod consists of 2 parts, the length is 12 ft and test curve 3.25 lb. Elegant and thin design with Fuji components will amaze you at the first sight! Double-ended Fuji Alconite guides are sloped to prevent wobbling of fishing line while casting. Reel seat is also from japanese brand Fuji. As soon as you take the rod to your hands, you will be shocked by incredibly low weight – only 274 grams. Thanks

to high quality carbon the rod is suitable both for long casting and fighting with smaller fish. This Phaeton Rod create perfect couple with our Sygna reel. We are pretty sure that Phaeton has great quality / price ratio and will be popular choice amongst all anglers.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-7017	Phaeton	12ft/3.60m	3.25lb	186cm	274g	2	6

## Signum LD Carp 12 ft/3.25 lb

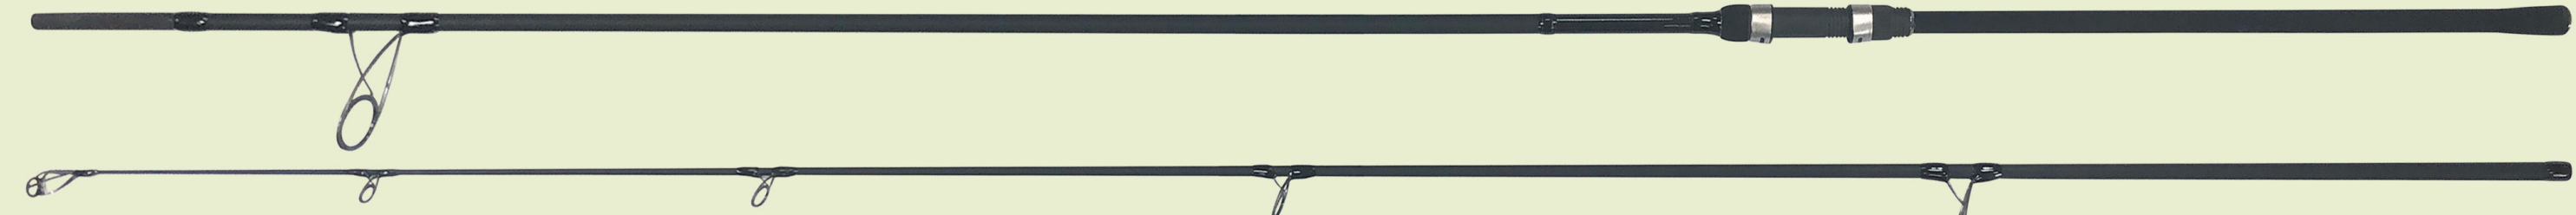

The rod is designed especially for discerning fishermen who want to fish at greater distances from the shore and transport their rigs further than others. With this rod you will also be able to experience parabolic test curve. The blank is made of an exclusive carbon fiber material that reduces the torque and looks like the letter X. The blank itself is made of high quality and durable carbon fiber under the designation C626H. All other parts of the SIGNUM LD are made of exclusive materials to meet

the highest demands. The share in the production of this rod is partly manual, which indicates the quality. The rod is fitted with a FUJI reel seat, a quality and elegant duplon handle for optimal grip when cast. SIC guides were used for this rod. The first butt guide is 50 mm in diameter and a top guide of 16 mm in diameter. These two large-diameter guides will help you make far-reaching throws.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-2579	Signum LD Carp	12 ft (3.60 m)	3.25 lb	186 cm	350 g	2	6

Black Jack 12 ft/3 lb

Based on your requests we created longer version of extremely popular rod Black Stalker. Say hello to Black Jack! His length is 12 ft and test curve is 3 lb. Black elegant blank and thin duplon grip are dominant design elements of the rod. You can count on Fuji reel seat and Sea Guides. Black Jack is made from superb quality carbon 30T because we wanted only

the best. It's unbelievable, but in a stress test he was able to lift a weight of 8 kg without cracking. All carp anglers will surely enjoy parabolic action. Every piece must undergo a thorough test. Same as in previous model the clip above the reel seat is a matter

of course. We firmly believe that you will love Black Jack just like Black Stalker.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-6999	Black Jack	12 ft (3.6 m)	3 lb	186 cm	288 g	2	6

Empire Carp II. Edition 12 ft/3 lb

The Empire Carp model 2018 is the new, innovative successor to its predecessor. This rod is built on a thinner blank, resulting in lower weight at the same parabolic action. This is a high-quality carp rod with an extremely slim cork handle. The rod is made

of premium carbon 30T. We have been testing this rod for a long time before launching, and test results have been stunning. It's incredible what this rod has survived. The rod is fitted with high-quality guides where the first butt guide is 40 mm in diameter and anti tangle top

guide of 12 mm diameter. The blank finish is in a decent matt black design with a red ribbon and a carbon design over the reel seat. The rood action is parabolic. Overall, the rod has a very luxurious look.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-3561	Empire Carp II. Edition	12 ft (3.60 m)	3.00lb	187 cm	290 g	2	6

Onyx Carp 12 ft/3 lb/3 sec

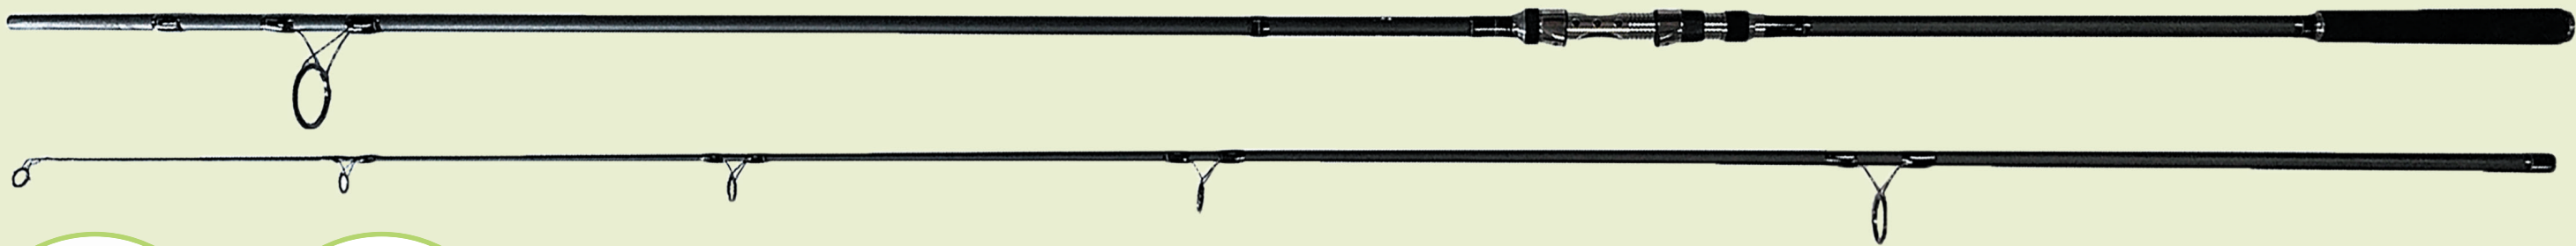

The Onyx Carp is a brand new addition to our range of carbon rods with cork handle, designed for short-haul fans. The rod is built on a 24T blank and has a parabolic action. The rod is fitted with high-quality guides, where the butt guide is 40 mm in diameter and a anti tangle top

guide of 12 mm diameter. Both the blank and the cork handle are incredibly slim. The blank finish is in a decent matt black design with a red ribbon and a carbon design over the reel seat.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-4584	Onyx Carp	12 ft (3.60 m)	3.00lb	128 cm	295 g	3	6

Black Storm 12 ft

Black Storm is classical 12 ft rod suitable for slightly advanced fishermen. The rod is made of durable carbon IM8. Blank is fitted with SIC guides and elegant chrome design of the reel seat. Black Storm has split grip with comfortable duplon handle. Casting and fighting with the fish will be absolute pleasure thanks to fully parabolic action.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-9749	Black Storm	12 ft (3.6 m)	2.75 lb	188 cm	380 g	2	6
ZF-9839	Black Storm	12 ft (3.6 m)	3 lb	188 cm	400 g	2	6

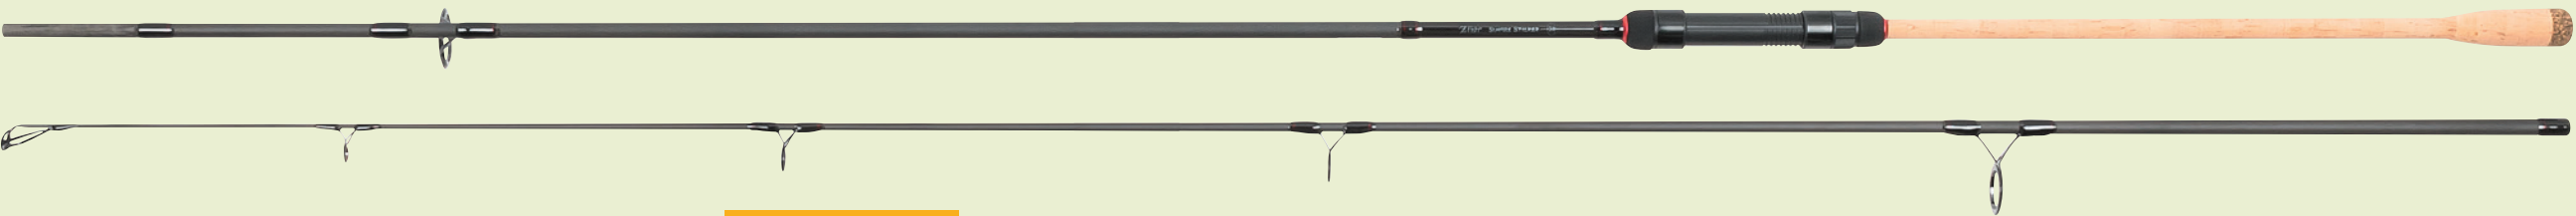

Blizzard 12 ft/3 lb/3 sec

Blizzard is modern three part carp fishing rod with classic split grip. The length is 12 ft and test curve is 3 lb. This model is great for those fishermen who will prefer smaller transport sizes. Blizzard's blank is made from high quality carbon 24T with parabolic action. All guides are reliable and solid including special top guide to prevent tangling of line. Both blank

and grip are incredibly slim. Surface of the blank is decent dim black with red decorations and checkboard design above the reel seat.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts	Number of guides
ZF-7707	Blizzard	12 ft (3.6 m)	3 lb	128 cm	300 g	3	6

Sunfire Stalker II. Edition  
10 ft/3 lb

BESTSELLER

The Sunfire Stalker model 2018 is the new, innovative successor to its predecessor. This rod is built on a thinner and more efficient blank, resulting in lower weight at the same parabolic action. Sunfire Stalker is a 3-meter, two-piece, and very attractive rod for fans of smaller waters or boat fishing. With this rod, every fight with fish will be a real pleasure for you. Both the blank and the cork handle are incredibly slim. The rod has a fully parabolic action.

The blank finish is in a decent matt black design with a red ribbon and a carbon design over the reel seat. This rod

has also anti tangle top guide in 12 mm diameter. We firmly believe that this is the absolute top in its price class.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts
ZF-4139	Sunfire Stalker II. Etition	10ft (3.00m)	3.00lb	157 cm	220 g	2

**Black Stalker 10ft/3lb** **BESTSELLER**

This rod gets you at first glance with its attractive black design, luxurious and high quality guides, as well as an extremely slim full-duplon handle. The rod is made of premium carbon 30T. Black Stalker has undergone a very long and demanding stress test before launching. We wanted to make the most out of this rod, which succeeded. It's unbelievable, but in a stress test he was able to lift a weight of 8 kg without cracking what you can convince yourself in our test video. The rod is fitted with high quality guides, where the first butt

guide is 40 mm in diameter and top guide in 12 mm diameter. The rod also has a high quality FUJI reel seat. In this model, the clip above the reel seat is a matter

of course. It is really an unbeatable rod in its price category.

Code	Name	Length	Test curve	Transp. Length	Weight	Number of parts
ZF-4594	Black Stalker	10 ft (3.00 m)	3.00lb	157 cm	260g	2

**BESTSELLER**

**Kingstone Telecarp**  
**12 ft/3.6 m**

Czech brand Zfish like to introduce Kingston Telecarp. This is the perfect telescopic carp rod for camo style enthusiasts. The rod was made of high quality carbon IM8.

It is especially suitable for fishermen who need to transport even heavier loads to larger distances. Thanks to its throwing load of 80-150g, you can lean on it and rely fully on casting. Kingston has a split handle from EVA rubber.

With this handle, the grip rod will be more comfortable when casting. The rod is suitable for all types of fishing on all kinds of water.

Code	Name	Length	Test curve	Transp. Length	Casting Weight	Number of parts	Number of guides
ZF-6916	Kingstone Telecarp	12 ft (3.6 m)	3 lb	105 cm	60-100 g	5	5
ZF-1422	Kingstone Telecarp	12 ft (3.6 m)	3.5 lb	105 cm	80-150 g	5	5

**Combo 2x Sunfire Stalker Rod**  
**3 m/3 lb + Case!**

Action combo 2x Sunfire Stalker 3 m/3 lb + hard carrying case at a discounted price!

This rod is built on a thinner and more efficient blank, resulting in lower weight at the same parabolic action. Sunfire Stalker is a 3-meter, two-piece, and very attractive rod for fans of smaller waters or boat fishing. Both the blank and the cork handle are incredibly slim. The rod has a fully parabolic action.

Sturdy and hard case for perfect protection of your rods and reels during transport. The case has a total of two chambers for reels and rods and one larger side pocket. The case can be worn with a classic rubberised grip and / or worn on the back with an adjustable shoulder strap. At the place where the reels is stored, the sleeve is 20 cm wide.

Slim Viper Feeder 12 ft/40–60 g

SLIM VIPER is the flagship between the ZFISH Feeder Rods. It is a three-piece rod of length 3.60 m and weight 40–60 grams. The action of the rod is very fast, which today, demanding fans of quality feeder rods suffer. This rod is especially designed for fishermen who want to enjoy the maximum enjoyment of both small and

large fish, as it is a very light and thin, as its name suggests. Partial production of this rod was manual, which illustrates its quality. Our Slim Viper is made of high quality and durable carbon fiber under the name C626H. The handle of the rod is made of high-quality and touch-friendly cork. For this rod, the FUJI reel seat is a matter of course. Blank

rod has a precise and matte finish. The rod is fitted with quality guides. With this rod you will cast easily, far and

right. The package includes 3 feeder tips as standard.

Code	Name	Length	Casting weight	Transp. Length	Weight	Tips	Number of parts	Guides
ZF-2580	Slim Viper Feeder	12 ft (3.60 m)	40–60 g	126 cm	210g	3	3	16

Logan Medium Feeder 12 ft/up to 80 g

The Logan Medium Feeder is a medium-priced rod that represents an unbeatable quality and price ratio. The design of the blank and handle will excite you. Blank of this rod was made of high quality carbon fiber. This rod is relatively light but also very durable. The perfectly machined rod handle is made of cork with a sleek ending

of the duplon. It is also long enough for accurate and long casting. The maximum throwing load is 80 g, which can be easily handle with this rod. This rod will easily satisfy the demands of the vast majority of standard fishermen who have fallen into the feeder fishing.

Code	Name	Length	Casting weight	Transp. Length	Weight	Tips	Number of parts	Guides
ZF-2575	Logan Medium Feeder	12 ft (3.60 m)	up to 80 g	126 cm	220g	3	3	14

Kennet Feeder 12 ft

Kennet is elegant feeder completed from three pieces. It will absolutely amaze you with elegant blue and white design. Fuji Alconite guides are well made and the blank is made of high quality carbon. Dominant duplon and cork handle will never let you down. Thanks to mid-tip action you can easily cast 70 g feeder and enjoy fighting with

smaller fish as well. Quality of this product is really high but you can't say the same about price. Kennet will satisfy needs of all modern fishermen. This rod is available in two versions with 3 different tips (light, medium, heavy). Grammages are 20-80grams and 30-100grams.

Code	Name	Length	Cast.weight	Transp. length	Weight	No. of parts	No. of guides
ZF-6859	Kennet Feeder	12 ft (3.6 m)	20-80 g	109 cm	220 g	3+3	13
ZF-6899	Kennet Feeder	12 ft (3.6 m)	30-100 g	109 cm	220 g	3+3	13

Miracle Feeder

Miracle Feeder is suitable not only for beginners but also for lower intermediate fishermen. Blank of the rod is made of carbon IM8 which provides light-weight yet solid construction. Miracle Feeder has

comfortable handle made of duplon and cork. If you looking for best quality/price ratio, look no further.

Code	Name	Length	Cast.weight	Transp. length	Weight	No. of parts	No. of guides
ZF-9732	Miracle Feeder	12 ft (3.6 m)	90 g	127 cm	180 g	3+3	12
ZF-9721	Miracle Feeder	11 ft (3.3 m)	90 g	117 cm	160 g	3+3	12

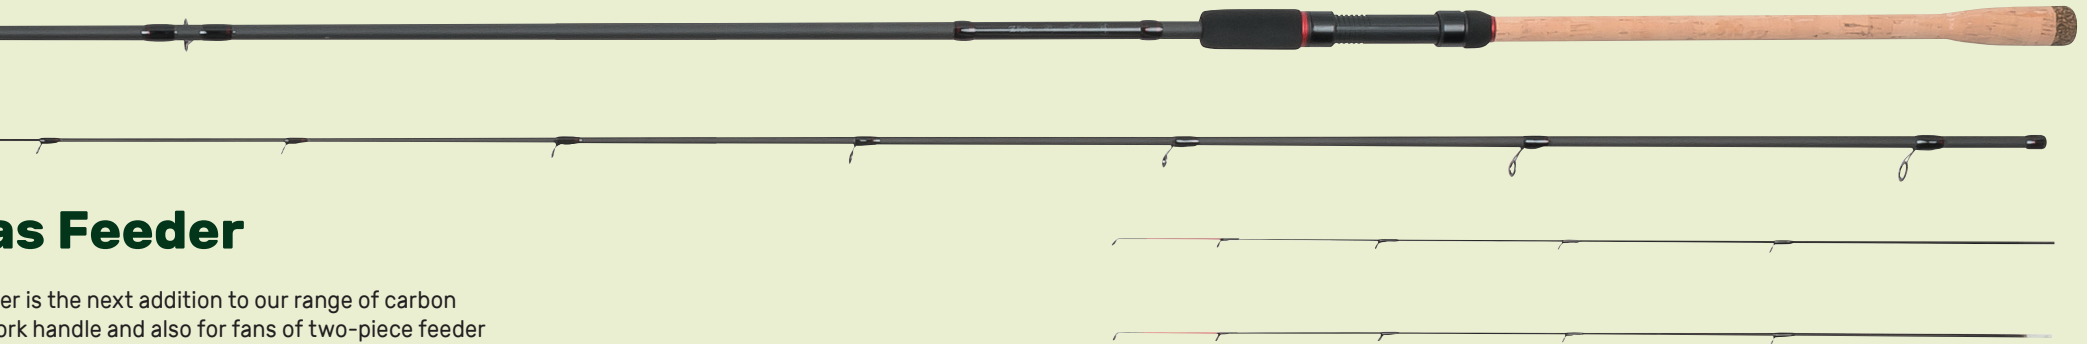

Kedon Heavy Feeder 12 ft/100g

Kedon Heavy Feeder offers quality and decent performance at a reasonable price. As the name suggests, it is a feeder rod in the “HEAVY” category. You can rely on this rod in every situation. It is particularly suited for hunting large fish on large water areas where you need

to throw a heavier feeder lead a longer distance. The rod is made in a combination of a elegant matte black blank and a cork handle with hardened EVA material. The handle is anti-skid and well grasped in the cast. This rod will not disappoint you under any circumstances.

Code	Name	Length	Casting weight	Transp. length	Weight	Tips	Number of parts	Guides
ZF-2574	Kedon Heavy Feeder	12 ft (3.60 m)	100g	126cm	240g	3	3	13

Pegas Feeder

Pegas Feeder is the next addition to our range of carbon rods with cork handle and also for fans of two-piece feeder rods. This rod will amaze you with slim and elegant blank with a cork handle. The rod is relatively sharp and, above all, very lightweight and strong, which is a fundamental requirement for a feeder fisherman. The blank finish is in a decent matt black design with a red ribbon and a carbon design over the reel seat. Overall, the rod has a very luxurious look. With this rod you will perfectly enjoy the outbreaks of both bigger and smaller fish. The package includes 3 feeder tips as standard.

Code	Name	Length	Casting weight	Transp. length	Weight	Tips	Number of parts	Guides
ZF-4624	Pegas Feeder	12 ft (3.60 m)	60-80g	188cm	180g	3	2	15
ZF-4604	Pegas Feeder	11 ft (3.30 m)	60-80g	172cm	160g	3	2	14

Mystic Feeder 12 ft/150g

The Mystic Heavy Feeder rod is a powerful and durable rod in the middle price range. This rod is built on the IM8 carbon blank. It is especially suitable for fishing on running waters, where you need to use a heavy feeder feeder and you do not have to worry about your rod even at a more

distant cast. The lower part of the split handle is made partly of cork and EVA foam. The reel seat has a very nice design. The rod is fitted with high quality guides. The part of the rod above the thorn joint is reinforced to withstand the load up to 150 g.

Code	Name	Length	Casting weight	Transp. length	Weight	Tips	Number of parts	Guides
ZF-1419	Mystic Feeder	12 ft (3.60 m)	150g	130cm	270g	3	3	13

Kodiak 2.40/100-250 g

Kodiak is a heavy spinning rod that is suitable for both pike fishing and fishing in Norway. It is a two-piece carbon rod with a length of 2.40 m and a load of 100 to 250 g. The rod is relatively thin, light and fitted with

SIC guides. Kodiak has a comfortable split handle with ergonomic grip. Fishermen will surely appreciate its fully parabolic action that prevents tangling of the bait while casting.

Code	Name	Length	Casting weight	Transp. length	Weight	No. of parts	No. of guides
ZF-6909	Kodiak	2.4 m	100-250 g	124 cm	238 g	2	6

The Joker 1.98 m/8-30 g

Do you like spinning fishing? Play the game with our new rod Joker! Style, speed and incredibly low weight (98 g), those are three main benefits. The Joker is 1.98 m length with recommended casting weight 8-30 g. Modern carbon blank is decorated with red and orange

elements. Of course you can be sure about Fuji reel seat and reliable SIC Guides. Spinning fishermen will surely appreciate its really fast tip action.

Code	Name	Length	Casting weight	Transp. length	Weight	No. of parts	No. of guides

## Hulk BT 9000

This reel can simply be characterized as a reliable, high capacity carp reel with a baitrunner brake. If you really are looking for a proper reel to hold you in every situation, our HULK is the right choice. The reel is primarily designed for "offshore" fishing at long shore distances. However, thanks to his high spool, it is also very suitable for long throws. Hulk is equipped with a short front brakes, the so-called quick drag system. The reel is made of high-quality plastic that resists high loads and has a very massive main shaft. A 9000 spool is part of the reel. You can also buy an extra spool either BT 9000 or BT 10 000.

Code	Name	Ball bearings	Gear ratio	Line capacity	Weight
ZF-9009	Hulk BT 9000	6+1	4.6 : 1	0.28 mm / 620 m, 0.30 mm / 530 m, 0.35 mm / 400 m	660 g
ZF-9001	Spare Spool	X	X	0.28 mm / 620 m, 0.30 mm / 530 m, 0.35 mm / 400 m	X

BESTSELLER

## Rider 5000, 6000, 7000

The Rider features a comprehensive range of reliable, carper reels with a baitrunner brake in a decent matt black design with an ergonomic handle. This reel can be used for both classic carp and feeder. The reel is built on a robust compact body. Precise gears, smooth running and computer-balanced rotors are commonplace. The Rider has a relatively strong main shaft for perfect resistance to tensile stress. It is really a very interesting model in this price category.

Code	Name	Ball bearings	Gear ratio	Line capacity	Weight
ZF-7005	Rider 5000	6+1	4.7 : 1	0.26 mm / 230 m, 0.30 mm / 190 m, 0.32 mm / 160 m	450 g

## Orion ST 6000

The Orion ST 6000 is a carper reel with a front brake that is particularly suited to stalking rods. The reel is made of high quality materials, has a computer-balanced rotor to reduce vibration, a strong and quality trapper and a spare metal spool. The reel also has a precision front brake and a comfortable handle for grip. The capacity of the spool is absolutely sufficient for boat and / or small water. This is, above all, the excellent price-quality ratio that is invincible for this model. We strongly believe that this reel model will find many supporters.

Code	Name	Ball bearings	Gear ratio	Line capacity	Weight
ZF-6006	Orion ST 6000	6 + 1	5.2 : 1	0.26mm / 305m, 0.28mm / 240m, 0.30mm / 190m	430 g

## Mars RS 3000, RS 4000

Mars is a first-class reel designed for spinning. It will dazzle you mainly with its modern design and low weight, which we have achieved thanks to the use of exclusive lightweight carbon. The reel is ideal for use in combination with our light and sharp The Joker rod. This balanced set is suitable for effortless all-day spinning and handling of heavy equipment. The winch is made of an all-carbon body and a rotor, which has a high tensile strength. 5 + 1 ball bearings ensure smooth operation. The tipper is made of strong and durable steel. MARS is intended for all connoisseurs who suffer from luxury and like lightweight materials, because they spend every free moment by the water and want to enjoy maximum enjoyment while fighting their catch.

## Sleeping Bag Hoogan Camo 5 Season

**-20°C**

The Hoogan 5 season sleeping bag is another addition to the exclusive Zfish premium CAMO edition. As an inside material is used a very popular, warm, green micro fleece. Thermo insulating charge consists of hollow fibers for perfect thermal insulation. On sleeping bag is Quattro-tex® outer material, in an attractive CAMO design that adds insulating properties to no less important moisture protection. Quattro-tex® does not allow moisture to enter but is breathable from the inside out. Thanks to this feature, vapor extraction is provided, which is released from the body during sleep. The composition of all used materials thus ensures the luxury of sleeping in nature at all seasons. The practical and large zippers of the sleeping bag are on both sides and can be opened to the feet. In the inside of the sleeping bag there is a zip pocket suitable for mobile phone or documents. Under the head is a comfortable cushion which is removable. In the middle of the sleeping bag there is a pull-out strap, which is easy to fasten to the bedchair. On both sides of the sleeping bag there are stitched sleeves that can easily be pulled over the top and bottom of the deck for better securing. Included in the package is a carrying bag also in camo design.

## Sleeping Bag Everest 5 Season

Luxury sleeping bag of the highest category tailored for the most demanding. The best and latest materials available on the market have been used to make and develop this sleeping bag so that we can achieve maximum breathability and 100% waterproofness. You can rely on this sleeping bag in every season, whether in extreme frost or in extreme heat. A great advantage of this sleeping bag is its detachable inner zip layer. For the outer layer, we used a nice peach skin material. Inside the sleeping bag was used a quality microfleece filled with 100% hollow fiber for extreme heat and comfort. The sleeping bag is also equipped with a removable and comfortable zip pocket and an internal pocket for cellphone or reciever. The sleeping bag can be attached to the chair by means of sewn disguises over the top and bottom of the bedchair. The maximum stability is ensured by a strap that is easy to fasten to the bedchair. The sleeping bag is equipped with quality zippers that are stitched on both sides. The sleeping bag is supplied in a waterproof container.

- ▶ Year round use 2v1
- ▶ Combination of peach skin / microfleece materials
- ▶ Removable pillow
- ▶ Inner pocket with zipper
- ▶ Sleeping bag dimensions: 210 × 90 × 10 cm

NEW

Code	Name	Length
ZF-6542	Carbon Drill Bankstick	50-90 cm
ZF-6559	Carbon Drill Bankstick	60-110 cm

New, well made, solid, telescopic, drilling fork, is the only one on the market thanks to its “tweak”! The gadget consists in the fact that in the lower part of the inner part of the fork is screwed stainless steel “pin”, which after unscrewing serves as an instrument for easier drilling into the hard ground. The pin is simply unscrewed, pushed through the holes in the fork and you get a “T” profile which makes drilling much easier! Made of outer steel and inner aluminium parts, the surface has a durable carbon look finish. Extremely strong and sharp screw tip for easy insertion even in very hard terrain.

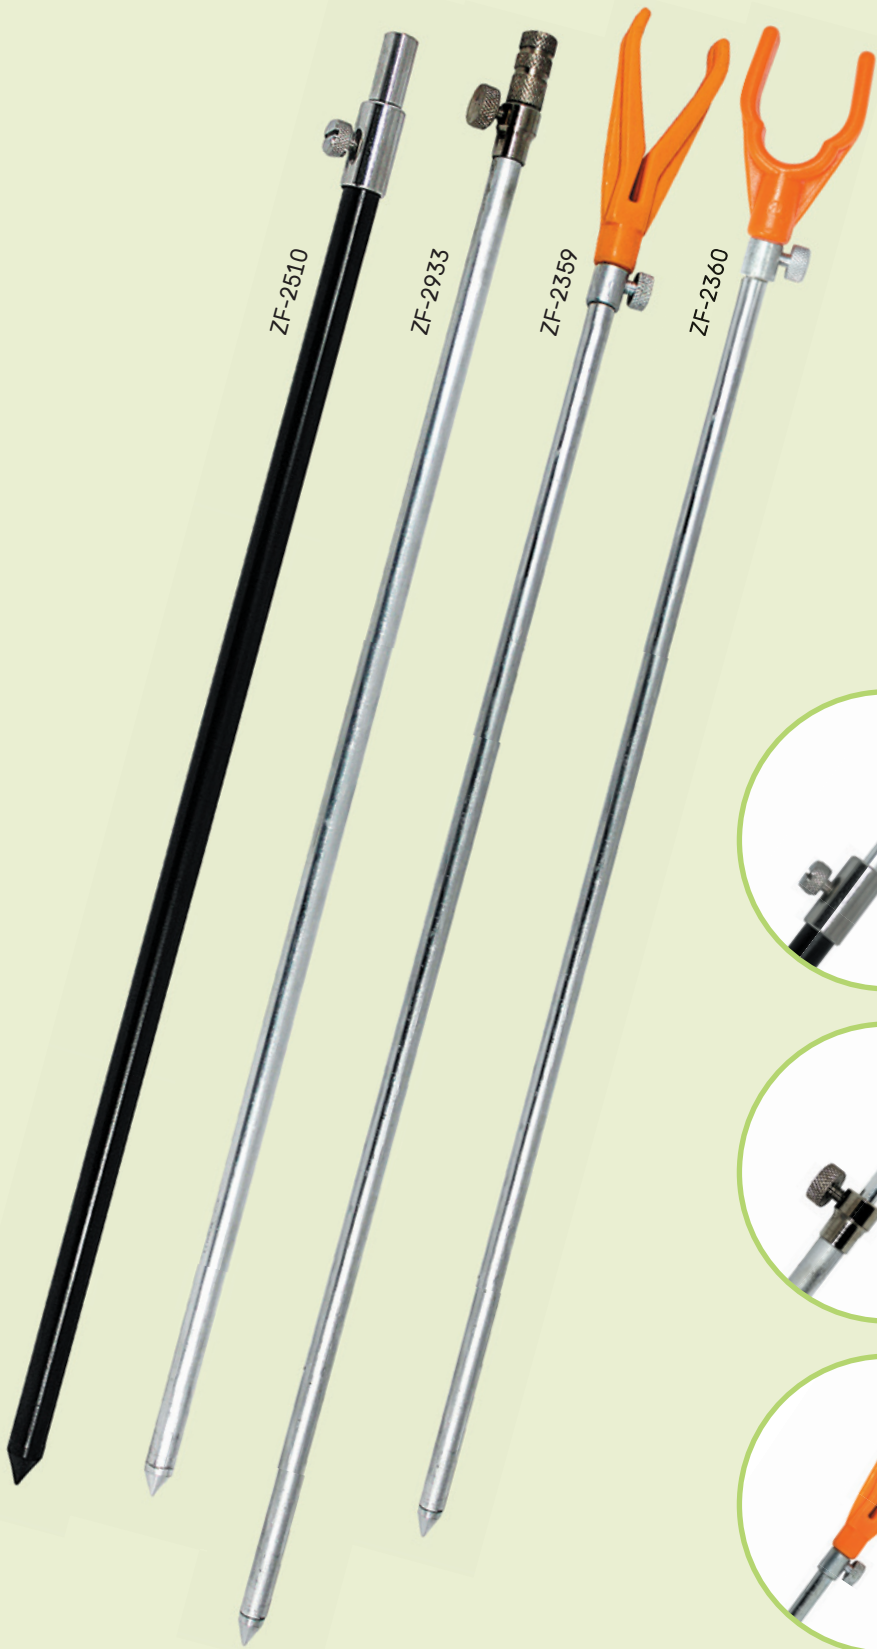

Aluminium (black color) or stainless steel (silver color) premium quality bank sticks with adjustable height. Their tip gives you excellent stability on any surface. Excellent workmanship, light weight and good transportability.

ZF-6977	Spirit Camo Landing Net 42"	107 cm	107 cm

## Spirit Landing Net Handle

This handle is very strong and practical piece. Thanks to universal thread you can pair it with every classical landing net. Of course we recommend you using this Spirit handle with Zfish Spirit Camo Landing Net. Both parts have duplon grip. Package contains nylon transfer bag.

Code	Name	Length	Trasport length
ZF-6933	Spirit Landing Net Handle	180 cm	95 cm

## Rubber Landing Net Head

The landing net is a practical head with a rubberized net, intended primarily for feeder and swimming, but with the use of a suitable rod/handle, it will also be useful for Trout Area and lighter lures. Net does not absorb fishy odors and dries quickly. At first glance, this well-crafted scoop head impresses with the strength and shape of the aluminum frame, which will be very easy to handle when scooping up catches. The mesh size of the strainer is 6 x 6 mm.

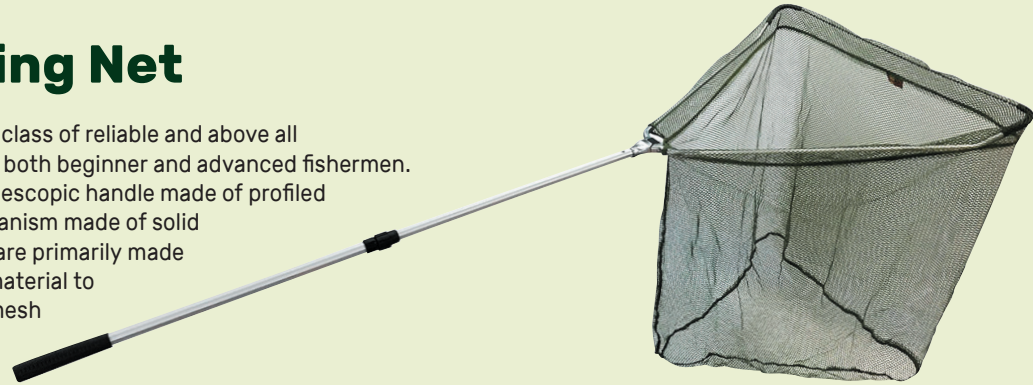

Code	Name	Head size	Strainer depth
ZF-7098	Rubber Landing Net Head ZFS-55	55 x 45 cm	50 cm
ZF-4998	Rubber Landing Net Head RTB-50	50 x 40 cm	40 cm

Royal Landing Net

Royal net belongs to a higher class of reliable and above all warehousing landing nets for both beginner and advanced fishermen. The landing net has a fixed telescopic handle made of profiled aluminum with a tilting mechanism made of solid metal. Its large landing arms are primarily made of high-quality and durable material to withstand stress. The small mesh provides extra care when undercutting the fish. Net color: green

Code	Name	Arms length	Length of landing net	Net depth	Transport length
ZF-2476	Royal Landing Net 70×70 cm	70 × 70 cm	180 cm	70 cm	79 cm
ZF-2477	Royal Landing Net 70×70 cm	70 × 70 cm	220 cm	70cm	89 cm

Select Landing Net

Select scoop belongs to the middle class and above all reliable landing nets for both beginners and advanced anglers. Scoop has a rigid telescopic handle of profiled aluminum hinge mechanism of solid metal. Floatfishing arms are made from high-quality and rigid material to withstand during exercise. Small mesh nets provide greater frugality while netting the fish. Colour filter: green

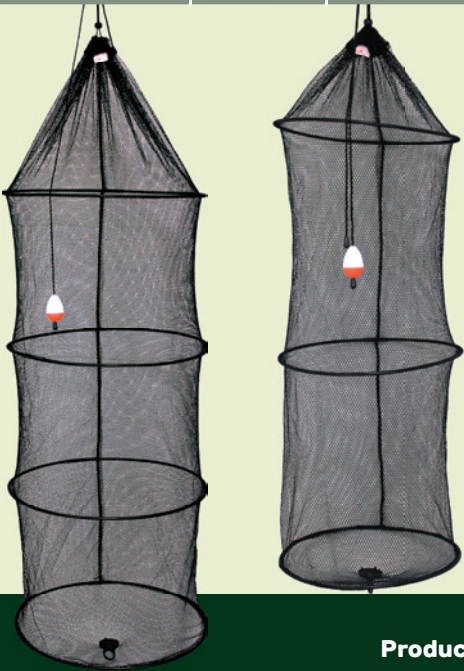

Code	Name	Arms length	Length of landing net	Net depth	Transport length

Zfish coming with new model -Feeder closed. Made of quality and solid material that not deforms when the shutter feeding. Model with removable bottom is suitable for slower loss of feeding the rapidly flowing waters. Each feeder is a ring with swivel snap to snap. The most used method of mounting on the hinge side to the passage, but can be used as a feeder terminal. The feeder should fill with method mix and also mixtures or worms, very good hold on the bottom. There is an environmental Feeders metal non-toxic load. Its great advantage is that the load is placed directly in the basket and not on the back which prevents line twist and tangle-free assembly in the fall at the bottom feeders.

Boilie Needle Profi

Boilie Needle – Ideal for miniature baits or for assembly. Classic thin fishing needle with comfortable black and yellow grip.

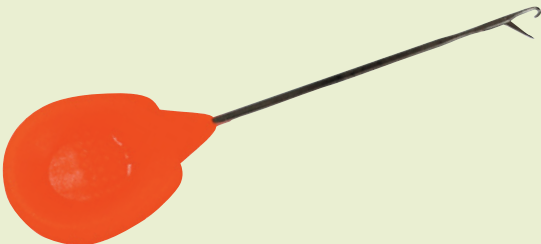

Code	Name	Length
ZF-3278	Boilie Needle Profi	80 mm

Boilie Needle 7 cm

Thin and strong boilie needle. Made from high quality stainless steel with a plastic handle for comfortable grip.

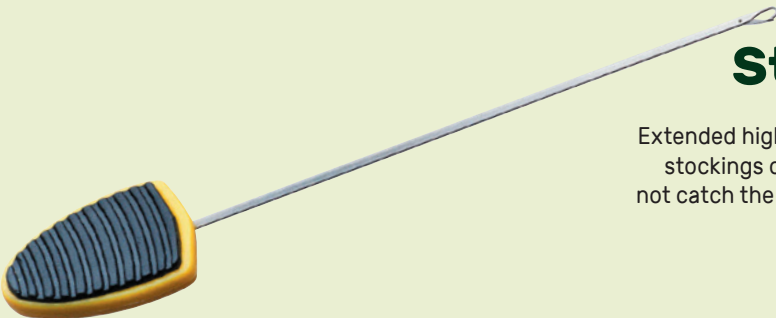

Code	Name	Length
ZF-1916	Boilie Needle 7 cm	70 mm

Baiting Boilie Needle

Strong, high-quality needle with a latch and a nice orange bracket to serve boilies, tigers and other particles.

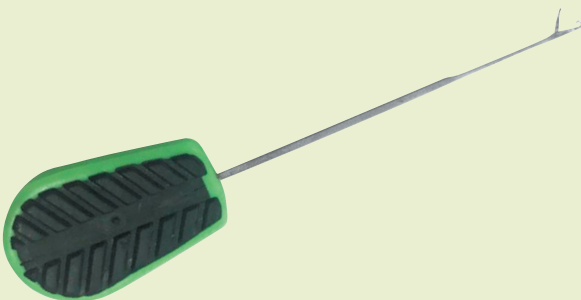

Code	Name	Length
ZF-2495	Baiting Boilie Needle	55 mm

Stringer Needle 13 cm

Extended highly resistant needle designed to prepare PVA bags and stockings or stringers. Foldable cap ensures that the needle does not catch the PVA mesh. Made from high quality stainless steel with a plastic handle for comfortable grip.

Code	Name	Length
20-2247	Stringer Needle 13cm	130 mm

Leadcore Splicing Needle

A perfect needle for connecting a line with a leadcore. This needle is very thin but still firm. Pull the needle through the stem of the lead, put the line in to a needle and pull it back. Then you will make a grinner node around the lead and you will get a perfect, smooth and strong knob.

Code	Name	Length
ZF-2561	Leadcore Splicing Needle	65 mm

Boilie Drill

Very strong and sharp drill with perfectly shaped handle. It is the ideal tool for pellets, floating baits, very hard boilies or tiger nut.

Code	Name	Length
ZF-2496	Boilie Drill	30 mm

Boilie Drill Black

Very strong and sharp drill with perfectly shaped handle. It is the ideal tool for pellets, floating baits, very hard boilies or tiger nut.

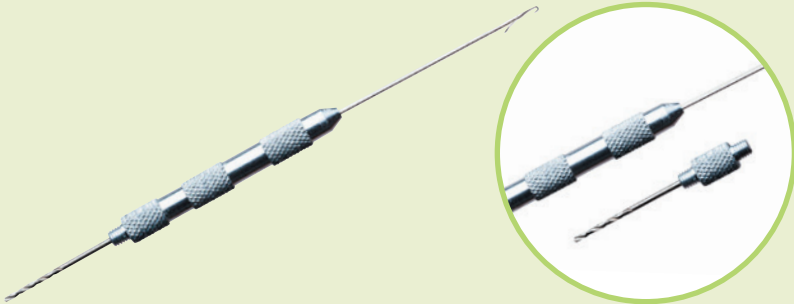

Code	Name	Length
ZF-3277	Boilie Drill Black	80 mm

Baiting Tool 2in1

Aluminum alloy for Boilie Needle Baiting Tool Multiple Function. Needle and Drill 2 in 1.

Code	Name	Length
ZF-2252	Baiting Tool 2in1	80 mm

Boilie Bait Grabber

High-quality, stainless dip pliers for dipping in liquid dip. We recommend it in combination with our Hook Bait Dip Box

Code	Name
ZF-2560	Boilie Bait Grabber

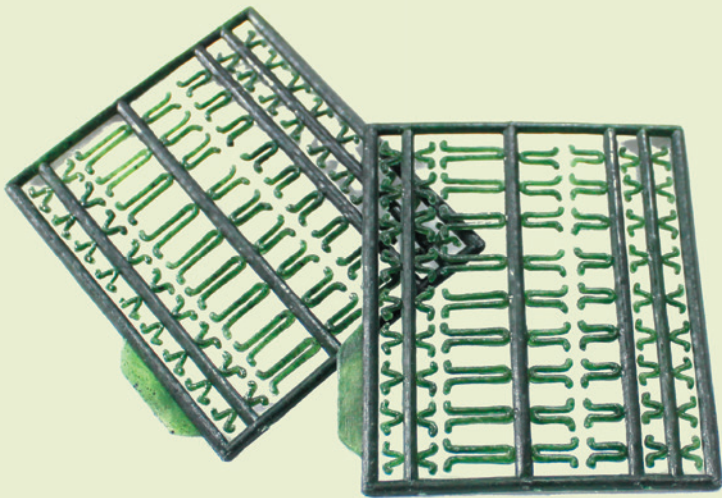

Bait Bander

The Bait Bander makes it fast and simple to load baits into bands. Thanks to the precisely formed prongs even small baits are no match for this tool. To be used for gripping and dipping 3–12 mm pellets.

Code	Name
ZF-2542	Bait Bander

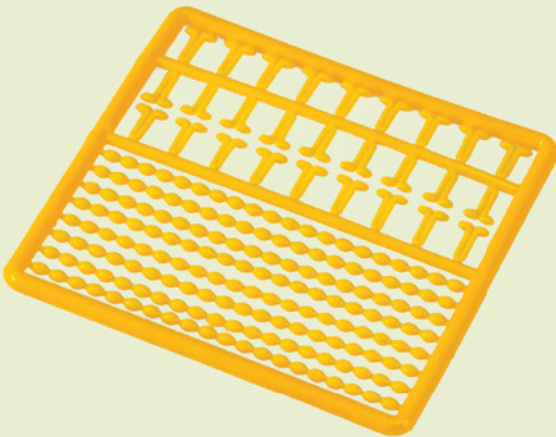

Boilie Hair Stoppers  
2 pcs

A pack of dark green hair extenders. Each pack contains 2 strips of 63 hair extenders. Each strip contains: 36 small extenders, 18 medium extenders, 9 large extenders. These are ideal for use with most hard hook baits including boilies and pellets for all situations.

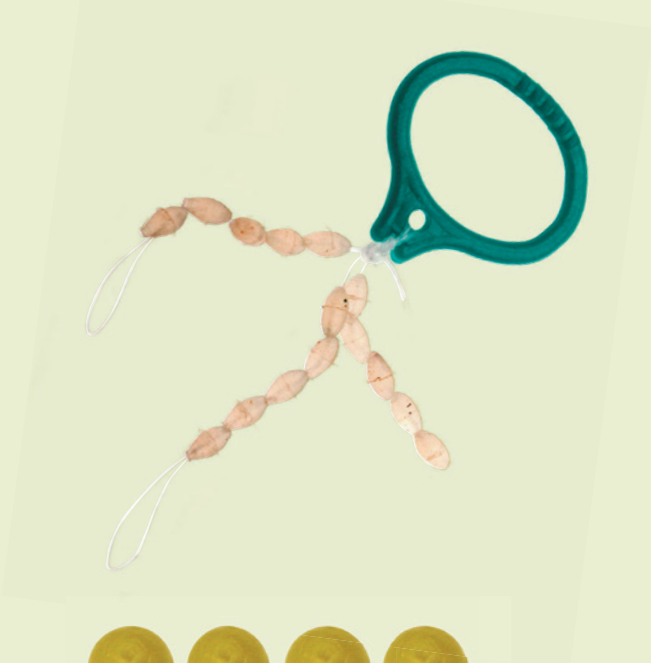

Code	Name
ZF-3280	Boilie Hair Stoppers 2 pc

Boilie Stoppers Mix

A mix of two types of boilie stoppers for different situations. Each strip contains: 27 medium extenders, 80 classic boilie stoppers.

Code	Name
ZF-5113	Boilie Stoppers Mix

Silicone Stopper

Silicone stoppers in different sizes S-M-L, in color semi-transparent.

Code	Name	Size
1575	Silicone Stopper	S
1574	Silicone Stopper	M
1573	Silicone Stopper	L

Rubber Beads

A quality rubber beads available in diameters 4, 6 and 8 mm.

Code	Name	Size	Pcs in bag
ZF-2389	Rubber Beads	4 mm	20
ZF-2490	Rubber Beads	6 mm	20

Green Cast Carp Line 600 m

ZFISH brings to the market a new line of perfect carp lines called Green Cast . Thanks to strict Japanese production technology, we have achieved high load capacity, low diameter and extreme abrasion resistance. This is a diving line, which is designed for catching large carp and is suitable for both long-distance casting and for removal. The line is very strong and pliable, but does not twist. It has incredibly high strength - both in tension and in the knot. Green Cast is almost memoryless. Its modern FLUO GREEN coloration is perfectly visible in low light conditions or at night.

Code	Name	Knot strength	Diameter	Length
ZF-7401	Green Cast Carp Line	8 kg	0.26 mm	600 m
ZF-7418	Green Cast Carp Line	9.5 kg	0.28 mm	600 m
ZF-7425	Green Cast Carp Line	11 kg	0.30 mm	600 m

ZF-7487	Green Cast Carp Line	14 kg	0.34 mm	1000 m

TOP QUALITY

Furio Line 600 m

Thanks to japanese strict technology we have achieved high load capacity, low diameter and extreme abrasion resistance. It is a sinking fishing line specially designed for big carps. Furio is suitable for both casting and fishing from the boat. Thanks to low memory you can easily manipulate with it, but it doesn't twist. Supreme knot and linear breaking strength will amaze you. Dark brown colour perfectly blends into surrounding underwater environment. Furio is UV resistant and has very long life. The ultimate smoothness of the line was achieved by special production treatment which contributes to a significant reduction of friction, not only during casting, but also at various water obstacles.

Code	Name	Knot strength	Diameter	Length
ZF-4536	Furio Line	8 kg	0.26 mm	600 m
ZF-4635	Furio Line	9.5 kg	0.28 mm	600 m

Liner Counter

This counter can be easily clipped to blank of the rod. The measurement scale is from 0 to 999 meters. You can use it both for sea fishing and freshwater fishing. And how does it work? Firstly you drop the fishing liner into depth or cast the bait to certain distance. After that you place counter on the blank of rod. One loop of the liner has to be inserted to rotating wheel. Now you can reset the counter and reel.

Code	Name
ZF-6988	Liner Counter

Kevlar Braid 10 m

We present you new Kevlar leader from Czech brand ZFISH. Ideal for extreme catfishing. It is ultra durable with zero stretch for uncompromising strike. This model has 10x increased abrasion resistance compared to normal leaders. Available in 3 versions – 60, 80 and 100kg and length 10 m. Colour is natural light brown. Extreme knot strength, zero stretch, 10x increased abrasion resistance.

Code	Name	Knot strength	Length

ZF-8702	Scorpion Sinking Braid	35 lb/15.9 kg	20 m

Leadcore Leader 45 lb/5 m

Leadcore is very popular piece and we’re really happy to have this one in our range of products. It has black-brown camouflage color perfectly blending into surrounding environment. Leadcore Leader is invisible for fishes and perfectly follows the bottom. At the same time it’s very easy to handle so you can create perfect carp fishing rigs and presentations.

Code	Name	Knot strength	Length
ZF-8305	Leadcore Leader	45 lb/20.4 kg	5 m

ZFX Match/Feeder Camoline

ZFISH line ZFX Match / Feeder CamoLine this is a unique, fast sinking line for feeder and float with unique CAMO properties. This special line is manufactured by a unique process in which the molecular structure of microparticles is implemented into the line, and this results in a completely unique appearance and visual properties of this material. This line blends perfectly and naturally with the underwater environment and plankton and becomes practically invisible to fish and does not disturb them at all. Other important features are its low elongation, the already mentioned fast diving, high load capacity and abrasion resistance.

Code	Name	Knot strength	Length
ZF-5675	ZFX Match/Feeder Camoline	0.14 mm/2.5 kg	150 m
ZF-5774	ZFX Match/Feeder Camoline	0.16 mm/3.7 kg	150 m

ZF-5989	ZFX Match/Feeder Camoline	0.23 mm/6.9 kg	150 m

Fantasy 8-braid 130 m

Zfish Fantasy 8-Braid is a high-quality, strong and perfectly round braided cord made by Japanese technology using 8 high-quality PE fibers. Thanks to the use of 8 fibers, a round cross-section is achieved and the cord therefore does not put such resistance in the eyes of the rod, it slides more easily and thus the throws are more accurate and longer with it. The latest braiding technologies guarantee high knot strength and increased abrasion resistance. The FANTASY cord does not absorb water, so it does not change the throwing or diving properties, it cuts the water well and its color washes out and disappears very slowly.

Code	Name	Knot strength	Length
ZF-9990	Fantasy 8-braid	0.08 mm/4.9 kg	130 m
ZF-9983	Fantasy 8-braid	0.10 mm/6.5 kg	130 m

ZF-8887	Fantasy 8-braid	0.35 mm/31.9 kg	300 m

## Marker Pole

Rod buoys have been specially developed for placement on the bottom and easy marking of fishing and feeding areas. Thanks to the buoys, of course, you can very precisely place your rigs on and near feeding areas as needed. Unlike H-buoys, the fishing line simply slides over the rod buoy, so you don't have to worry about the fish getting tangled in it or the buoy moving out of place. All connections between individual parts are processed in such a way that the line cannot get stuck between them in any case.

- ▶ Upper part with reflective print – visible up to several hundred meters when illuminated
- ▶ A hole in the pin for the possible insertion of a luminous chemical ampoule with a diameter of 4.5 mm. (not included in the package)
- ▶ Lower part with a carabiner for hanging loads. (The load is not included in the package)
- ▶ Number of parts: 5

Code	Name	Lenght
ZF-5787	Marker Pole	5 m

## Marker Pole Extension Spare Part

Replacement/threaded extension for the ZFISH Marker Pole pole buoy. Thanks to these spare parts, you can easily extend the rod buoy as needed, theoretically to "infinity" by one meter each time.

Code	Name	Lenght
ZF-7859	Marker Pole Extension Spare Part	1 m

**NEW**

## H-Marker

High-quality plastic H-buoy from the Czech brand ZFISH in signal orange color with ballast. This H-buoy comes with a 10 m long braided rope. Dimensions: 6.5 x 6 x 2 cm. Supplied with 10 m fixed cable and weight. The signal orange color guarantees good visibility

Code	Name

## Powerfull Master Catapult

The ZFISH Powerfull Master slingshot is primarily designed for feeding and shooting feed balls or particle at longer distances. The slingshot has a solid, simple but proven construction and is classically equipped with a rubber basket with an inner diameter of 5 cm and a depth of 3.5 cm. The basket is also fitted with a loop on the back, which makes aiming, stretching and shooting the feed much easier and more reliable. The big advantage of this sling is that it comes with a complete spare parts kit (ZF-7532) that includes the basket, rubber and locking straps, so if any of those consumable parts wear out or get damaged, replacement won't be a problem.

- ▶ 5 cm diameter rubber cup with stretch loop
- ▶ Available spare parts in SET (cup, rubber and retaining straps).
- ▶ Dimensions: width: 19 cm, height: 21.5 cm

Code	Name
ZF-7525	Powerfull Master Catapult

NEW

## Mini Pro Catapult

The ZFISH Mini Pro slingshot is quite minimalistic and primarily designed for shooting worms, but it can also handle small pellets and particles at shorter distances. The basket has a diameter of 4.5 cm and a depth of 3.5 cm and is classically equipped with a loop on the back, which makes aiming, stretching and the actual shooting of the feed much easier. The big advantage of this sling is that it comes with a complete spare parts kit (ZF-7518) which includes the basket, rubber and locking straps, so if any of the consumable parts wear out or get damaged, replacement will not be a problem.

- ▶ 4.5 cm diameter rubber basket with loop and very fine worm net
- ▶ Available spare parts in SET (basket, rubber and locking straps)
- ▶ Dimensions: width: 14 cm, height: 18.5 cm

Code	Name
ZF-6597	Mini Pro Catapult

## Carp Catapult

Zfish like to introduce a very good and accurate catapult suitable for baiting at longer distances. Due to the unique, anatomically shaped handle and a quality latex rubber allows for accurate baiting and at longer distances. (25-60m). Catapult basket is especially suitable for baiting with boilies or pellets.

Code	Name
ZF-2513	Carp Catapult

## Match and Feeder Catapult

The catapult ensures perfect feeding at the desired location. The catapult is designed for snatching bait (ideally for feeding boilies). The catapult has a rubber basket and an ergonomically shaped handle for minimal wrist impact.

Boilies POP-UP

We present you a hot new product to our family of boilies, which fits perfectly and completes our range of feeding. These are POP - UP boilies, which have the same flavors as our feed boilies ZFISH Megamix 5kg and CSL Boosters Promix, together they perfectly form the holy trinity for successful carp fishing. These new floats are characterized by very attractive fluo colors, have an excellent discharge, so they are great for Ronnie Rig and Zig Rig assemblies and of course the usual setting of pop-ups, or for a “doll” is also perfect with them, at the same time sucks well and without problems so they accept other boosters. The key benefits include a long-lasting aroma even after prolonged soaking in water.

ZF-7258	Boilies POP-UP	Squid & Octopus	16 mm	60 g
ZF-9559	Boilies POP-UP	Strawberry & Banana	16 mm	60 g

NEW

Balanced Wafers

The most used and most effective combination of boilies for big carp fishing. Balanced Wafers is unlike conventional boilies lightened and carp accept and absorb these baits much better. The most effective mounting for these baits is called “snowman” when the hook itself lies directly on the bottom and the lure floats and balances slightly above it. If you feel that the lure is floating too much, you just need to lightly weight it with a suitable split shot. Ideal for catching large, but especially cautious carp. Contrasting two-tone design.

Balanced Wafers is a floating bait that becomes neutrally balanced when combined with a hook. You will appreciate it especially when fishing with a method feeder, feeder or when fishing with a classic feeders. This boilies is extremely attractive thanks to its two-tone colour. They are great for short term fishing, competition fishing, when there is little fish activity or for very cautious fish. Their advantage is that they lie lightly near the bottom and thus look more natural than, for example, pop-ups. However, they are so light that they go much deeper into the carp’s mouth than it expects. They can be used all year round, including in very cold water. Use with the smaller hooks #10 and #12 for perfect action. Designed primarily for Feeder and Method Feeder fishing. Critically balanced bait. Contrasting two-tone colour.

Code	Name	Flavour	Size	Packaging
ZF-1881	Balanced Wafers	Chilli-Robin Red	8 mm	20 g

ZF-8118	CSL Booster Promix	Chilli - Plum	500 ml
ZF-8265	CSL Booster Promix	Chilli - Robin Red	500 ml

Our Tip

Fill a plastic bucket with 1 kg of Megamix Boilies and 150 ml of well shaken CSL Booster. Let all the liquid soak in to boilies. Stir the content of bucket occasionally. After the liquid soak in, add another 50 ml of CSL Booster and wait again to soak in. Your new ultra attractive bait is now completed!

NEW

Attractor Bait Spray

Attractor Bait Spray 50 ml is an oil-based booster/ attractant spray. After its use, it significantly increases the number and even the intensity of bites. Simply spray it on the bait and cast. The attractant starts releasing a scent and oil trail as soon as it hits the surface, easily attracting fish from the surrounding area and activating their senses and increasing their appetite. This attractant is versatile, so when using a meat flavour, it will work great on predators after artificial bait has been sprayed, as well as live or dead fish. The spray increases the attractiveness of all baits for both carp fishing and predator fishing. Suitable for boilies as well as soft lures, wobblers, and live or dead fish. Oil based so it does not dissolve PVA materials ! Simple spray application. Suitable for use in both warm and cold water where its potential will be even stronger.

Code	Name	Flavour	Packaging
ZF-6046	Attractor Bait Spray	Chilli-Robin Red	50 ml
ZF-6091	Attractor Bait Spray	Monster Crab-Pineapple	50 ml

Method Feeder Ready Mix

ZFISH Method Feeder Ready Mix is a specially developed mixture for Method Feeder technique. This mixture, as the name suggests, is ztv. ready, so there is no need to soak it and just press it into the feeder as it is. The mixture is composed of micro Red-halibut pellets, the original Robin-Red spice from the famous English brand Haiths, but also parts of worms, daphnia, grasshoppers, mosquitoes and other larvae and insects, which form the natural food of most fish. This means that this mixture will be very effective for most of the season and without distinction for most of our fish, and thanks to its ease of use, it will soon become a fixture in the repeortoar of many feeders.

Code	Name	Flavour	Packaging
ZF-6479	Method Feeder ReadyMix	Black Halibut	600 g
ZF-5472	Method Feeder ReadyMix	Robin Red	600 g

PVA Ready & Method Feeder Mix

ZFISH Pva Ready & Method Feeder Mix are micropellets with dimensions of 2-3 mm, which are perfectly suitable for dry use in PVA stockings or, after a short soaking, immediately in the method feeder feeder. This mixture / pellets does not need to be pre-soaked for a long time, it can be used almost immediately after soaking and it sticks perfectly, so it is very easy and trouble-free to work with it. It is true that about 150 ml of water should be used for 1 kg of this mixture, but it is always better to start with a little less water and possibly add if you do not like the consistency. If you soak the mixture, it will stick much more and thus harder to disintegrate and work in water much slower. We offer these micropellets in five proven flavors, so everyone can choose.

Code	Name	Flavour	Size	Packaging
